Dear Dr. Strain:

Thank you for your prompt review of our revised manuscript entitled, "The Influence of Legal Coercion on Dropout From Substance Abuse Treatment: Results from a National Survey" (ES-07-0286R1). We appreciate your careful review of our work and welcomed the opportunity to fix the errors. The reviews significantly improved the overall quality of our work.

If possible, please forward our appreciation to the anonymous reviewers of our manuscript. We would like them to know that their reviews were among the most the most thoughtful, comprehensive, and timely that we have received.

Feel free to let me know if you have any other questions or comments.

Sincerely,

Brian Perron, Ph.D.
