Course Description

This course presents advanced knowledge and skills essential to providing effective school social work interventions. Students will learn to identify, select and apply evidence-based prevention and intervention methods for use with individuals, groups, families, school personnel, and communities to enhance student learning, development, and school success. Student learning will include social justice practice skills, trauma informed practice models, positive behavior supports for school wide programs and individuals, crisis prevention, planning, and intervention, behavior intervention planning; mediation, conflict resolution, and collaborative problem-solving methods. Specific interventions to support students with Autism Spectrum Disorder, Emotional Impairments; and other disabilities covered under Individuals with Disability Education Act will be covered. Ways to promote family engagement and collaboration will be explored as well as a focus on effective measures to promote youth voice. Skills to enhance collaboration and consultation between teachers, families, and other school personnel will be addressed. School social worker intervention methodologies will include ways to help schools develop climates that are inviting, supportive, and inclusive of diversity. Students will acquire the skills needed to effectively practice as a school social worker to enhance student learnings and achievement.

Course Content

Content in this course includes practice methodologies that promote student academic success that take into account behavioral and emotional challenges according to school and legislative policies. Inter-disciplinary approaches designed to strengthen individuals, groups, and families within larger social contexts such as the school and community will be presented. Methods that increase student and family access to education and educational resources will be explored. School wide interventions such as the implementation of positive behavioral supports, process oriented forms of discipline, family engagement, inter group dialogue, positive conflict resolution skills, and coordination and collaboration with youth serving agencies in the community will be discussed. Effective classroom wide, small group, and individual interventions will be practiced.
Students will also learn how to evaluate the effectiveness of program and services offered and make modification based on student needs. Practice frameworks will include: socially just practice, knowledge and evidence based practice skills for individuals, groups, schools, and communities, and the rich interplay of student, family, school personnel, and community multicultural and diversity dimensions.

Course Objectives:

1. Demonstrate knowledge and skills for locating, selecting, and applying empirically-supported, evidence-based prevention and intervention methods effective for use with individuals, groups, families, school personnel, and communities to enhance student learning, development, and school success.

2. Demonstrate knowledge and skills to facilitate and coordinate student and family access to medical, health, mental health, social services, and other community resource and to promote collaboration among school personnel and other community agencies.

3. Demonstrate knowledge and skills to provide crisis prevention, planning, and intervention services including the impact of trauma on development, learning and school performance.

4. Demonstrate knowledge and skills to promote positive behavior supports for individuals and school wide programs.

5. Demonstrate knowledge and skills in development of behavior intervention plans collaboratively with family members, educational staff, and outside resources, personnel, and agencies.

6. Demonstrate knowledge and skills in mediation, conflict resolution, and collaborative problem-solving models.

7. Apply principles of social justice to school based practice.

8. Demonstrate knowledge of factors that promote positive school climate and culture of belonging among students, families, and school personnel.

9. Practice skills that enhance youth voice, engagement, and leadership.

10. Demonstrate knowledge and skills to evaluate effectiveness of programs and services and modify these based upon student need.

11. Demonstrate ability to communicate effectively with students, parents, school staff and agencies in both verbal and written communications.
RELATIONSHIP OF THE COURSE TO FOUR CURRICULAR THEMES

- **Multiculturalism and Diversity.** This course will review the recent national, regional, and local demographic shifts that have increased the ethnic and cultural diversity of children and families in educational institutions. A culturally sensitive, developmental perspective will be presented ranging from infancy through secondary education and culminating in the transition from school to the world of work. In addition, the particular policies and services regarding children and youth with illnesses and disabilities, and gay, lesbian, bisexual, and transgender persons will be reviewed.

- **Social Justice and Social Change.** Social workers in educational settings strive to maximize educational opportunities for individuals, groups, neighborhoods, and regions, and promote progressive local, state, and national policy. Relevant legislation and policies that seek to meet these goals will be reviewed, as well as the social justice implications of private and public schools.

- **Promotion, Prevention, Treatment, and Rehabilitation.** These approaches are incorporated at all levels of practice in educational settings. This includes programs for the student and family, the organization and positive organizational culture in schools, and educational climates overall that promote children’s development to their maximum potential. Additionally, characteristics of at-risk children and youth and their particular vulnerabilities will be highlighted. These risks will include school failure, suspension, and expulsion, “dropping out,” unplanned pregnancy, insufficient preparation for the work force, family roles, and group and individual violence. Related concerns will include prevention of substance abuse, prevention of the transmission of disease (especially sexually transmitted diseases), and promotion of healthy lifestyles and development. Characteristics that buffer children from these stressors and research on resilience will also be examined.

- **Behavioral and Social Science Research.** The role of the social worker as a consumer of research will be emphasized. Relevant sources will include not only those in social work, but also the theories and empirical studies in interdisciplinary fields, such as human development and education. In addition, relevant theories and findings regarding accountability for service, empirical validation of interventions, and overall evaluation of practice in educational settings will be covered.

RELATIONSHIP OF THE COURSE TO SOCIAL WORK ETHICS AND VALUES

Professional social work ethics will be reviewed focusing on their application to educational settings. Particular issues may include confidentiality of and access to records and services provided, especially to minors, access to independent services by children and youth without parental consent, appropriateness of service delivery with regard to the age and developmental stage of the target group, parental permission and knowledge regarding sex education, mandated reporting of child abuse, neglect, and truancy, and policies regarding expulsion and suspension from school.

COURSE DESIGN AND TEACHING METHODS

This course will use a variety of teaching and learning methods, including lectures, PowerPoint presentations, group exercises, case material, role plays videos, guest presenters, and seminar techniques. The class format is based on the understanding that you are a prepared and active learner. Reading the assigned materials prior to the class session is a prerequisite to getting the most out of each class and successfully meeting the course objectives.
The development of a supportive learning environment, reflecting the values of the social work profession, is essential for the success of this class. A supportive learning environment is fostered by listening to the ideas and views of others, being able to understand and appreciate a point of view which is different from your own, articulating clearly your point of view, and linking your experiences to the readings and assignments. We will appreciate your contributions to making this a safe and respectful learning experience.

**COURSE READINGS**

All other course readings (or links to the readings) will be posted on the CTools site for this course. Required readings on c-tools are marked with an (*) and labeled “required”. Other readings are supplementary and optional.

**APA FORMAT AND ACADEMIC HONESTY**

Please refer to the *American Psychological Association Publication Manual* (often called the APA Style Manual) in the preparation of your writing assignments. There is some helpful information related to APA citation guidelines on the Main UM Library website at: http://www.lib.umich.edu/hatcher-graduate-library/citation-and-style-guidelines.

It is critical to reference all sources of information or ideas you use in your writing, to do otherwise is academic dishonesty. Direct quotes in particular must be identified as such. Situations of apparent plagiarism or academic dishonesty will be reported and handled according to University policy. The exception to this is for our take home final at the end of the term. The short answer and essay portions of the exam are based on our text and other required readings there is no need to cite sources on the exam.

**ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES**

I invite any class member who has a disability that may affect his or her participation in this course to let me know. We can discuss possible modifications or accommodations in instructional format, assignments, etc.

**POLICY ON INCOMPLETES AND LATE ASSIGNMENTS**

A grade of “Incomplete” will be given in extenuating circumstances and in accordance with SSW and University policy. You may turn in hard copies of assignments or use our c-tools drop box for assignments. Whether using your c-tools drop box or bringing a hard copy to class, all assignments are due by class time on the due date assigned. Late assignments, i.e., those not gotten to me on the day due, will be reduced one half letter grade for each class session they are late. Please plan your work.
Research Paper: School Based Intervention (Due February 26th, 2014)

Select a student population and choose an intervention that can be applied in a school based setting.
Read at least 6 current peer reviewed references regarding needs of the population and the selected intervention. The 6 required sources must be peer reviewed research articles or book chapters and current (e.g. published in the last 15 years).

1. Write an introduction to your topic and paper.
2. Describe the needs of the population you have chosen and the selected intervention. In this section you should include a brief overview of the particular needs of the population you have chosen and describe the intervention strategy including the purpose and goals of the intervention.
3. Describe the details of the intervention including information about what the intervention would look like, what specifics techniques are utilized, and how the intervention is implemented etc. In this section, please include a brief description of the intervention curriculum and activities.
4. Reflect on strength and weaknesses of the intervention chosen and what modifications might be needed to adapt the intervention. Are there barrier to implementation that need to be addressed?
5. Write a concluding section that summarizes your work and reflects upon your learnings.

Bibliography: Include an APA style bibliography of the references you have cited.
Length: 8-10 pages (including bibliography)
Grades: This paper is 40% of your grade. Grading will be based on organization, following the terms of the assignment, clarity of the writing, and accurate application of the concepts.
*** All papers must be typed, 12 pt. font, double spaced, and proof-read. Please proof read carefully.

All papers are to be submitted via c-tools through the Drop box by class start time of the date the paper is due. Late papers will be penalized ½ grade. Please try to have things completed on time and keep me informed if any problems arise.

Tool Box (Due April 16th, 2014)

The purpose of this final project is to develop 4 practice tools based on the topics and concepts you learned about in this course. My intent is that you use this assignment to gain and demonstrate a skill set for current and future practice. During our last two classes students will present one or two tools from their tool box to enhance shared learning and portability.

Details of the assignment:
1. Select 4 tools that you can use in your current and future practice serving children, youth, and families in a school based setting.
2. For each tool, provide a two page summary of the purpose, evidence basis, implications, goals, intended outcomes, relevant populations, and possible strengths and weaknesses of the intended tool.
3. For each tool, develop a sample lesson plan, including sample activities, were you describe the intervention’s implementation.
4. For each tool, develop an artifact to demonstrate the purpose, use, and implementation of the tool. This could be a brief power point presentation, video, prezzi, seelio document etc.
5. Choose one or two tools that you would like to present to the class.

Course Outline

**Session #1 January 8**

Topic: Social Work Interventions in school settings; Introduction to course objectives and course content

Required readings

**Session #2 January 15**

Topic: Principles, values, and roles of school social workers; response to intervention models and techniques

Required Readings

**Session #3 January 22**

Topic: Applying principles of social justice to school based practice; Building positive school climate and culture of belonging among students, families, and school personnel

Required Readings

**Session #4 January 29**

Topic: Trauma Informed Practice

Required Readings

**Session #5 February 5**

Topic: Trauma Informed Practice
Required Readings

Session #6 February 12

Topic: Performing Functional Behavioral Assessment and Developing Behavior Intervention Plans

Required Readings

Session #7 February 19

Topic: Interventions for Students with Autism Spectrum Disorders

Required Readings

Session #8 February 26

Topics: Interventions for Students with Autism Spectrum Disorders

Required Readings

Session #9 March 12

Topic: Interventions for Students with Emotional Impairments

Required Readings

Session #10 March 19

Topic: Interventions for Students with Emotional Impairments

Required Readings

Session #11 March 26

Topic: Youth Development and Youth Empowerment Strategies

Required Readings

Session #12 April 2

Topic: Crisis, conflict, mediation, and collaborative problem solving models

Required Readings

Session #13 April 9
Topic: Students Present Toolkits

Session #14 April 16

Topic: Students Present Toolkits
Session #1

I. Introductions
   a. Practice Icebreaker- Individual
   b. Practice Icebreaker-Group

II. Introduction to course content- Review Course description and objectives

III. Course Overview
   a. Introduction to school social work practice
   b. Principles, values, and scope of practice for school social workers
   c. Socially just practice in schools; Promoting positive and safe school climates
   d. Multi-tiered models to address students’ social emotional needs
   e. Building effective collaborations with students, teachers, families, and communities
   f. Performing Functional Behavioral Analysis and Behavior Intervention Plans
   g. Group work with students
      a. Social Skills Groups
      b. Topic focused groups
   h. Integrating Trauma Informed Practice in schools
   i. Crisis Prevention and Response
   j. Serving students with Autism Spectrum Disorder
   k. Serving Students with Emotional Impairments
   l. Youth Empowerment strategies (Youth voice and choice)
   m. Conflict resolution, mediation, collaborative problem solving models

IV. Practice Exercise: Beginning with The End

V. Wrap up
Begin with the End: Group Forming Exercise

1. The group facilitator says “We have not yet decided when to have a follow-up meeting for this course but let’s say, hypothetically, that it will take place four months from now. What I would like to know from you is what you would be saying in that meeting supposing you would all be convened that this class has been a truly successful one.”

2. Each member of the groups takes a couple of minutes to reflect on the question and jot down their ideas.

3. What follows is a group discussion about how the group would know if it had been a success and what outcomes are valued.

4. The language may need to be adjusted depending on the age range of the students participating. It also may be helpful to use the concept of “If I could wave a magic wand…or if I snapped my fingers etc.

Adapted from “Varieties of the Miracle Question” by Ben Furman
Icebreaker Questions (Pick 4 and answer them)

1. Where were you born?

2. If someone wanted to give you an unusual pet and promised to provide for its upkeep, what kind would you select?

3. If your house was on fire and you had time to recover only one inanimate object, what would you save?

4. What two qualities do you consider essential in a friend?

5. If you could change one rule that you must follow at home, what would it be?

6. What is the most difficult aspect of being a teenager?

7. What are the two most important qualities you would like in a boyfriend or girlfriend?

8. Write and answer your own question(s).
