24 Feb - 4 Mar: Spring Break

=>Assignment II due is due before midnight and contains two parts. The written aspect should not exceed 5 pages typed, double-spaced and proofread.

1. Interview a social work practitioner.

   Arrange an appointment with a practicing, MSW social worker (not an academic or faculty member). Choose a field of practice of social work or a particular social problem that interests you, and locate a practitioner who works in such a setting or with a particular client group. You may select a social work practitioner who performs any number of social work roles – e.g. clinician, organizer, administrator, researcher, etc.

2. Format the interview as a paper.

   In class we will discuss the format of the paper. During the interview, ask the practitioner to show you around her/his agency and describe the various services offered. Also ask your practitioner how her/his interest in the field developed. Put all of the information that you have gleaned from this interview into this paper, concluding with a reflection on how this experience might relate to your potential career in social work or other helping profession.
Topic 4 - Aging in Families and Society

10 & 12 Apr – Assignment III: Class Presentations

During the last days of class, you will present the culmination of your learning from the semester to the class. You will have 5-10 minutes to present to the class and this can take any format that you wish, however, it must be an individual presentation, addressing the two points that follow below. Feel free to use audio or visual aids and let me know if you need any assistance. There will be a brief question and answer period following the presentation.
• Focusing one social problem, identify at least three recent articles in social work professional journals that help shed light on the core challenges related to the social problem. In what ways did reading these articles shed light on your understanding of your identified social problem (e.g., history or background in terms of severity, who it impacts the most, why it’s a problem, potential causes and risk factors, potential protective factors, and strategies/methods that have been used to address this problem e.g., major interventions)? Articles should be dated 2007 or more recent and you must include references using APA format.

• Self-reflection of the social problem. Reflect on your specific interests in this social problem and how you see yourself as a change agent in this area. Consider your social identities and how they might impact your work in this area, both in terms of strengths and in terms of challenges. What is your vision for social justice in this area? How can you promote social justice in this area in your own life? How might you learn more about this area in the future?

17 Apr – Celebration and Closure

=>18 Apr – Journal 9 due by midnight (2-4 pages, 4 points).

Possible reflection on your presentation and/or others, and/or the class as a whole, may include:
• Which aspects of your presentation went well? Is there anything you would change and/or incorporate from other presentations if you were to present again?
• What are your top 3 takeaways from the presentations & why?
• How would you describe any progress you made on course-related goals & what measure did you use?

Course Description

This course is considered an advanced, undergraduate elective which is

• designed to familiarize students with the profession of social work
• and also to recruit undergraduate students into the school's MSW program.

The particular social problems selected for discussion will change from year to year depending on faculty and student interest and the contemporary context.

The opening sessions of the course will briefly overview the social context for the kinds of roles, interventions, and fields of service that the profession generally operates from, before exploring in depth the profession's response to each selected social problem.

Important professional themes like:

• multicultural sensitivity to various diversity dimensions such as ability, age, class, color, culture, ethnicity, family structure, gender (including gender identity and
gender expression), marital status, national origin, race, religion or spirituality, sex, and sexual orientation; empowerment;
- prevention;
- and value-based intervention will also be reviewed in this course.

Note: this course is distinguished from a more traditional course on social problems since

- it focuses specifically on a limited number of selected social problems
- and probes social work's professional involvement in preventing and assuaging each problem.

**CASC Minor Mission Statement**

The CASC minor is for students interested in developing knowledge, skills, and experiences in community action and social change. The multidisciplinary 16 credit minor will prepare students to:

1. examine community action and social change using a multidisciplinary framework;
2. address community action and social change in multilingual and multicultural communities;
3. integrate social justice values into the community action and social change processes; and
4. engage in service learning to promote community action and social change.

**CASC Guiding Principles**

1. The core values of the National Association of Social Workers Code of Ethics (service, social justice, dignity and worth of the person, importance of human relationships, integrity, competence) frames our interactions with students inside and outside the classroom.
2. PODS: Privilege, Oppression, Diversity and Social Justice are taught to similar degrees in every class.
3. We represent Social Work – both the School and the profession – in our interactions with students, including academic and career advice.
4. We strive to respond appropriately to student inquiries in a timely and personally engaging manner.
5. We structure courses with student participation in mind throughout the term, notably by some conversation about ground rules at the start of the term and some identifiable closure activity at the end.
6. We see curricular and co-curricular opportunities as intersecting and complementary. We seek to find more opportunities for high touch, high impact work with students.

**Course Objectives**

Upon completion of the course, students will be able to:
1. Articulate the various roles, levels of intervention, and fields of service from which social workers practice.
2. Describe the various value dilemmas, political controversies, and societal challenges that the profession of social work faces when it approaches selected social problems.
3. Explain why diversity, empowerment, and strengths-based perspectives are critical to the way social workers approach social problems.
4. Critique the social work profession’s response to selected social problems.

**Four Curricular Themes**

- Multiculturalism and Diversity issues will be explored as students identify self-knowledge and skills for regularly monitoring their practice within the context of their work. The PODS (Privilege, Oppression, Diversity and Social Justice) lens will be applied to practice situations and students will have an opportunity to discuss relevant field issues related to the diversity dimensions (ability, age, culture, economic class, ethnicity, family structure, gender, gender identity and expression, race, religion, sex, and sexual orientation).

- Social Justice and Social Change issues will be addressed by helping students to critically assess their commitment to and skills for enacting change towards social justice goals. The role of the social worker will be discussed as reflected by their individual experiences and reflection.

- Promotion, Prevention, Treatment, and Rehabilitation approaches will be addressed within the context of the student’s orientation to practice. Small group discussions will allow the student to discuss, review, compare, and contrast alternative approaches and frameworks while reflecting on their individual work and experiences.

- Behavioral and Social Science research approaches will be addressed within the context of the student’s orientation and method. Small group discussions will allow the student to discuss, review, compare, and contrast alternative approaches and frameworks while reflecting on their individual work and experiences.

**A Note on the Learning Environment**

While all of us come to this course with various experiences, skill sets and values, it is important that we respect diverse opinions and perspectives. The class is designed as a co-learning environment and one where class members are encouraged to try new skills and take risks. Your contribution as a “teacher and a learner” in the class will enhance the learning for all class members.

To facilitate the co-learning environment, the instructor will provide useful and constructive comments, facilitate a constructive forum for discussion and learning, and be responsive to students’ questions both in and out of class. Students are expected to be on time, be prepared with any questions related to assignments, and complete
assignments on time. Students are also expected to be respectful of diverse perspectives, be open to learning and challenging themselves beyond their comfort zones.

**A Note on Technology**

This is not a course in which you will often be asked to take notes or to access materials online. Therefore, students should not use laptops, cellphones, iPads, etc. during class, except when indicated by the instructor. Your Facebooking/tweeting/intstagraming/buzzfeed quiz taking/upworthy video watching/CASC newsletter reading distracts your learning, your peers' learning, and my teaching. Students who frequently use technology during class will be given one warning, and then will receive significant reductions in their participation grade. Any student who requires the use of technology for health or other reasons should contact the instructor at the beginning of class.

**Grading**

In this course, grading will consider class participation (attendance, and office visit and leading a 15-20 minute discussion based on an article on the syllabus - a combined maximum of 27 points in all), the 2 papers and final presentation (15 or 20 points each or 55 total), plus 8 journals (18 points total). Written assignments will be credit or no credit. Credit will be assigned to written work that is complete. For incomplete assignments I do offer an opportunity to receive credit if revisions are made within a one-week turnaround. The only exception will be on the optional Extra Credit turned in at the end of the course, in which case partial credit may be assigned if all requirements are not met.

In-class discussions and participation in exercises are considered an essential part of your learning experience. In addition, some of the material considered essential to achieving the objectives of the course will only be presented in class. I expect you to be in class, on time and ready to participate fully. If unanticipated circumstances arise that prevent you from attending or cause you to arrive late or leave early, you must notify me as soon as possible. Missing more than two class periods requires a meeting with the instructor.

A major part of your grade for written assignments is based on your ability to be clear and thorough. All written assignments should be carefully proofread for typos and clarity of content. A paper with lots of errors and/or is difficult to read will be marked down. Unless specified, all assignments should be double-spaced, using 12-point font, no less than 1-inch margins. Use citations as appropriate and use APA format.

You should turn in all written assignments on time. Having assignments in on time will assist me in reading and grading them in a timely manner. On time is defined as turned in by midnight on the due date. In general, an assignment will be marked down for each day it is late. Exceptions will only be made for extreme circumstances. If you expect that you are going to be late turning in an assignment, let me know as soon as possible so I can plan accordingly. Please try to anticipate your responsibilities and start your assignments well in advance of the due date.
Course grades will be calculated as follows:

- A 100-94/A- 93-90
- B+ 89-87/B 86-84/B- 83-80
- C+ 79-77/C 76-74/C- 73-70
- D+ 69-67/D 66-64/D- 63-60

**Incompletes**

Incompletes are given only when it can be demonstrated that it would be unfair to hold the student to the stated time limits of the course. The Student Guide, Vol. 1, Sec. 8.01 states that an “I” grade is used when illness or other compelling reasons prevent completion of work, and there is a definite plan and date for completion of course work approved by the instructor. The student must formally request an incomplete from the instructor prior to the final week of classes.

**Students in Need of Accommodations**

If you have a documented disability or condition that may interfere with your participation in this course, please schedule a private appointment with the instructor as soon as possible to discuss accommodations for your specific needs. This information will be kept strictly confidential. For more information and resources, please contact the Services for Students with Disabilities office at G664 Haven Hall, (734) 763-3000. Also, if religious observances conflict with class attendance or due dates for assignments, please notify the instructor so we can discuss appropriate arrangements.

**Student Mental Health and Wellbeing**

University of Michigan is committed to advancing the mental health and wellbeing of its students. If you or someone you know is feeling overwhelmed, depressed, and/or in need of support, services are available. For help, contact Counseling and Psychological Services (CAPS) at (734) 764-8312 and [https://caps.umich.edu/](https://caps.umich.edu/) during and after hours, on weekends and holidays, or through its counselors physically located in schools on both North and Central Campus. **Safety & Emergency Preparedness**

In the event of an emergency, dial 9-1-1 from any cell phone or campus phone. All University of Michigan students, faculty and staff are required to familiarize themselves with emergency procedures and protocols for both inside and outside of the classroom. In the event of possible building closure (i.e. severe weather conditions, public health notices, etc.) you may contact (734)764-SSWB(7793) for up-to-date School closure information.
Be Prepared. Familiarize yourself with the emergency card posted next to the phone in every classroom/meeting room. Review the information on the emergency evacuation sign (located nearest the door) and locate at least (2) emergency exits nearest the classroom.

If you are concerned about your ability to exit the building in the case of an emergency, contact the Office of Student Services and/or email ssw-ADACompliance@umich.edu. Office of Student Services

Select ONE activity from the below list. Write a 3-5 page paper, based on your participation in that activity. The written aspect should be typed, double-spaced and proofread.

(1) Getting Help - In this exercise you are to assume a close friend or family member is in need of basic needs for survival: shelter, clean clothes, food, transportation, money, and so on. They know you are taking a class in social work and must surely know where they can go to get help. For this assignment, identify one community resource that you might refer them, to get the help they need. Specify the organization (address, contact information, hours of operation, eligibility criteria (i.e., what they need to bring with them in terms of information), and what they should expect upon arrival. In other words, you should arrange to go and get first-hand information! When you arrive, carefully observe the location of the facility, demeanor of the Security Guard (if there is one) and receptionist when you enter the building. Look around the waiting area and observe the kinds of furniture, decor, magazines, condition of the interior, carpet, and so on. Is it clear where to go initially to ask for information? Are there long lines poorly marked? Are folks milling around or just sitting in chairs waiting to be served? How did you figure out where to start? Did anyone offer to help you? Did you receive an application for services and if so, how might you feel about answering these questions? How much time did you spend with the agency before you received the necessary information? Overall, how did the process for finding out the needed information make you feel?

(2) Survival on a Welfare Diet - Michigan’s food subsidy for a single adult on welfare for one day is about $6.45. In this assignment you must go to a local store and develop a one-week meal plan using items that DO NOT total more than $45.25 (including tax on nonperishable goods which in Michigan is 6%). You must consider foods you think will most nutritiously (and best) stretch to meet your needs for the week. Make a list of every item you might purchase and a description (e.g., nutritious value, brand, how
many, cost, etc.). At the same time, consider everything else you would need for personal hygiene and household care for one week (e.g., toothpaste, shampoo, soap, feminine hygiene products, paper products, cooking / eating utensils, etc.). Create an additional list of these other items and determine the real cost to purchase these additional items. I encourage you to lay out every meal and specify what you will consume. Assume you cannot rely on the goodness of friends to feed you. Comment on the quality of this weekly diet and any struggles that you anticipate trying to stay within the budget. Consider challenges you might face in maintaining a sufficient diet you’re your resources. What kind of food did you “settle on” to make ends meet? In what ways do you think living on a food budget this tight – over the long haul – would impact your physical and mental health? What “lessons learned” from this experience help illuminate the experience of living in poverty?

(3) Public Hearings - Attend a public hearing on a community initiative, proposed bill or activity thought to impacts the quality of life for an oppressed client group. This public hearing could be at a local or area school board, city council, county commission, or committee of the state legislature in Lansing. Observe the various groups that either support or oppose the proposal. Describe the rationale of various sides testifying, the reactions of the political figures in the public body, and infer the ideologies that are embedded in the various positions of proponents and opponents of the proposal.

(4) Volunteer - There are many human service organizations that provide volunteer opportunities to members of the community. See for example: http://comnet.org/. Volunteers are trained and used in domestic violence shelters, homeless shelters, crisis hot lines, etc. Some of you may already be involved in volunteer activities, and this assignment will give you a chance to write about these experiences. For students not currently volunteering, this will be an opportunity to locate a volunteer program, complete the training, and participate as a volunteer. (This kind of activity is a prerequisite to most MSW programs). In this paper, you should describe your organization, its clientele, and any reflections your experiences as a volunteer as it relates to a possible career in the field of social work or other helping profession.

(5) Cultural Competence and Social Work Practice - For this assignment you are asked to summarize an experience you had either as an observer or member of cultural event that had implications for social work practice in diverse communities. From that summary, identify at least 5 “take aways” or lessons learned that added to your understanding of and appreciation for diversity.
