

<b>Course title:</b>	Behavioral, Psychosocial and Ecological Aspects of Health, Mental Health and Disease	
<b>Course #/term:</b>	SW600, 001 / Sp/Su 2021	
<b>Time and place:</b>	Wednesdays, 6 p.m. – 8 p.m. (EST)	
<b>Credit hours:</b>	3	
<b>Instructor:</b>	Ashley Lacombe-Duncan	
<b>Pronouns:</b>	She/Her/Hers	
<b>Contact info:</b>	<b>Email:</b> lacombed@umich.edu	<b>Phone:</b> 734-274-3371
	You may expect a response within 48 hours	
<b>Office hours:</b>	By appointment, Online	

## 1. Course Statement

---

### a. Course description

This course will survey the distribution, determinants, and biomedical, psychological and behavioral aspects of health inclusive of physical, mental and behavioral health and disease across the life span from pre-birth to death. Social, economic, environmental, structural and cultural variations in and determinants of health, disease, and quality of life will be addressed, including the influence of factors such as race, gender, sexual orientation, geography, ability, biological, genetic and epigenetic factors. Barriers to access and utilization, geopolitical influences, environmental justice, social injustice, oppression and racism, historical trends, and future directions will be reviewed. Health beliefs and models of health behavior (e.g. Health Belief Model, Theory of Planned Behavior,) and structural determinants of health (e.g. Minority Stress Theory) will be presented, including help-seeking and utilization of health services. Stress, allostatic load, coping and social support, adaptation to chronic illness, the influences of privilege, stigma and discrimination, quality of life, and death and dying will also be covered.

## **b. Course objectives and competencies**

Upon completion of the course, students will be able to:

1. Analyze the major causes of mortality and morbidity in the United States, and how they differ among various population groups (EPAS 2,3,5).
2. Evaluate the impact of diversity dimensions, for example, ability, age, class, color, culture, ethnicity, family structure, gender (including gender identity and gender expression), marital status, national origin, race, geography religion or spirituality, sex, and sexual orientation, etc., and in particular the impact of discrimination and privilege on health across the lifespan (EPAS 2,3).
3. Explain the influence of social, economic, geopolitical, and environmental factors on mortality and morbidity, and the ethical and social justice implications across the lifespan (EPAS 1,2,3,5).
4. Compare concepts and definitions of health and disease, including their evolution, strengths, and limitations, as well as the implications for health promotion, disease prevention, treatment, rehabilitation, and social work practice (EPAS 2,3).
5. Examine biological, socioeconomic, cultural, and behavioral risk and protective factors for health, disease, and quality of life across the lifespan (EPAS 2,3).
6. Apply current theories and models of health behavior (e.g. substance use, smoking, exercise and nutrition) and their implications for health promotion, disease prevention, treatment, rehabilitation, and social work practice across the lifespan (EPAS 4).
7. Distinguish how cultural and religious differences in health beliefs and practices may impact utilization of health services, and barriers to care (EPAS 3,5).
8. Determine how stress, strain, and chronic illness impact health, coping, and adaptation among individuals in relation to health and disease across the lifespan (EPAS 3,4).

## **c. Course design**

This course will be held online using a combination of asynchronous and synchronous activities. *Asynchronous activities* are those activities you will participate in outside of class time, which may include reviewing brief recorded lectures, articles, and/or other

materials, posting on discussion boards, working in groups, and completing assignments. *Synchronous (real-time) activities* will take place each week on Wednesdays from 6:00 p.m. to 8:00 p.m. (EST). These sessions will be held over Zoom. During this time, activities may include brief lectures but will mostly focus on application through small and large group discussion of readings and/or case studies and guest speakers.

**d. Intensive focus on PODS**

This course integrates PODS content and skills with a special emphasis on the identification of theories, practice and/or policies that promote social justice, illuminate injustices and are consistent with scientific and professional knowledge. Through the use of a variety of instructional methods, this course will support students developing a vision of social justice, learn to recognize and reduce mechanisms that support oppression and injustice, work toward social justice processes, apply intersectionality and intercultural frameworks and strengthen critical consciousness, self-knowledge and self-awareness to facilitate PODS learning.

Multiculturalism and Diversity will be addressed throughout this course and will be highlighted in content related to cultural differences in health beliefs and health behavior and the role of protective factors and social support in health status and disease outcomes. Key diversity dimensions will be examined as they relate to health beliefs and health behavior.

Social Justice and Social Change will be addressed in content on differences in mortality and morbidity in population subgroups and access and barriers to care as well as diversity in health outcomes based on health disparities.

Promotion, Prevention, Treatment, and Rehabilitation will be addressed through content on concepts and definitions of health and disease, theories and models of health behavior, and stress, coping, and adaptation as they relate to health and disease across the lifespan.

Students will be encouraged to actively contribute from their experiences, field placement practice, current news and knowledge of readings to considerations of health and health care to:

- help support and develop a vision of social justice,
- learn to recognize and reduce mechanisms that support oppression and injustice,
- work toward social justice processes,
- apply intersectionality and intercultural frameworks

- strengthen critical consciousness, self-knowledge and self-awareness to facilitate PODS learning

## 2. Class Requirements

---

### a. Text and class materials

Gehlert, S., & Brown, T. (2019). Handbook of Health Social Work, 3rd Edition. John Wiley & Sons, Inc. ISBN-13: 978-1-119-42072-9.

The full book is available for download for free through the University of Michigan Library [website](#).

Additional required and recommended readings, as well as multimedia including podcasts, Ted Talks, Youtube videos, etc. are posted on Canvas. Please let me know if any of the materials are inaccessible (e.g., articles are not compatible with a screen reader or videos do not include closed captions).

### b. Class schedule

This syllabus is a working document. Changes to the schedule and any additional/changes to the readings will be announced via Canvas.

Date/ Time	Agenda	Required Readings & Assignments
Week 1	Module 1: Definitions of Health	<p><b>READ/WATCH/LISTEN PRE-WORK (<u>BEFORE CLASS</u>)</b></p> <ul style="list-style-type: none"> <li>● Syllabus</li> <li>● Getting started module</li> <li>● Text, Chapter 1: "<a href="#">The Conceptual Underpinnings of Social Work in Health Care</a>"</li> <li>● Article 1: "<a href="#">Narrative Health: Using Story to Explore Definitions of Health and Address Bias in Health Care</a>"</li> <li>● Recorded Lecture: "<i>The History of Health Social Work</i>"</li> </ul> <p><b>COMPLETE PERUSSAL DISCUSSION PRE-WORK</b></p>

b. Assignments

\*All assignments are due at 11:59 p.m. EDT unless otherwise specified.

Assignment	Description	Due Date	Percent of overall

			grade
Discussion Boards and Persuall-Discussions	Module 1 Perusall-facilitated Discussion: The Conceptual Underpinnings of Social Work in Health Care	Primary post due Saturday May 22 <sup>nd</sup> ; Two response posts due Tuesday May 25 <sup>th</sup>	20%
	Module 3 Perusall-facilitated: Discussion of “What are Health Disparities and Health Equity? We Need to be Clear”	Primary post due Sunday June 6 <sup>th</sup> ; Two response posts due Wednesday June 9 <sup>th</sup> (noon)	
	Module 4 Discussion Board: Discussion on “How Does Sexual Minority Stigma ‘Get Under the Skin’?”	Primary post due Sunday June 13 <sup>th</sup> , Two response posts due Wednesday June 16 <sup>th</sup> (Noon)	
	Module 6 Discussion Board: Discussion on Environmental Health Disparities	Primary post due Saturday July 3 <sup>rd</sup> ; Two response posts due Tuesday July 6 <sup>th</sup>	
	Module 7 Perusall-facilitated: Discussion of “After the Biomedical Technology Revolution: Where to now for a Bio-Psycho-Social Approach to Social Work?”	Primary post Sunday July 4 <sup>th</sup> ; Two response posts due Wednesday July 7 <sup>th</sup> (Noon)	
	Module 11 Discussion Board: Discussion on End-of-Life Decision-Making	Primary post due Week Saturday August 7 <sup>th</sup> ; Two response posts due Tuesday August 10 <sup>th</sup>	
	Module 13 Discussion Board: Wrapping up SW 600: Synthesis Discussion	Primary post due Saturday August 14 <sup>th</sup> ; Two response posts due Tuesday August 17 <sup>th</sup>	

Reflections	Module 1: Personal Reflection on Narrative Health	Due Saturday May 29 <sup>th</sup>	10%
	Module 4: Personal Reflection on Implicit Association Test (IAT)	First draft due Tuesday June 22 <sup>nd</sup>	
	Module 5: Final Submission of Personal Reflection on Implicit Association Test (IAT)	Final reflection due Sunday June 27 <sup>th</sup>	
Quizzes	Module 3: Podcast Reflection, Implications for Social Work Quiz	Due Saturday June 12 <sup>th</sup>	5%
	Module 5: Stigma-Reduction Intervention Video Summary Quiz	Due Wednesday June 30 <sup>th</sup> (Noon)	
	Module 6: Definitions of Primary, Secondary, and Tertiary Prevention and Upstream and Downstream Interventions Quiz	Due Wednesday July 7 <sup>th</sup> (Noon)	
	Module 10: Meaning-Making in the Context of Illness: Resisting Dominant Discourses Video Summary Quiz	Due Wednesday August 4 <sup>th</sup> (Noon)	
	Module 11: End-of-life and Other Healthcare Decision-Making Considerations Quiz	Due Sunday August 8 <sup>th</sup>	
Case Studies	Module 2: Applying Concepts of Interprofessional Practice and Integrated Health: Group Case Study Activity	First draft Saturday June 5 <sup>th</sup> , Final draft due Tuesday June 8 <sup>th</sup>	25%
	Module 5: Stigma-Reduction Intervention Case Study Video	Due Monday June 28 <sup>th</sup>	
	Module 8: Applying Theories of Health Behavior Change: Case Study Activity	Due Tuesday July 20 <sup>th</sup>	

	Module 9: Identifying Evidence-Based Strategies and Unpacking Ethics of Health Behavior Change: Case Study Activity	Due Tuesday July 27 <sup>th</sup>	
	Module 10: Meaning-Making in the Context of Illness: Resisting Dominant Discourses Case Study Video	Due Monday August 2 <sup>nd</sup>	
	Module 12: Applying the Family Systems-Illness Model Case Study	Due Monday August 16 <sup>th</sup>	
Anatomy of an Illness Paper Part 1	Anatomy of Illness Research Paper, Part I: Understanding Your Health Condition	Due Tuesday July 13 <sup>th</sup>	20%
Anatomy of an Illness Paper Part 2	Overview, Part II: Experience of Illness Research Paper	Due Tuesday August 24 <sup>th</sup>	20%
Total			100%

See Canvas for full assignment descriptions and associated rubrics. Students can expect to receive feedback and grades on assignments within 2 weeks of the deadline.

c. Attendance and class participation

Students are responsible for all content of this course, including the content provided in the live, synchronous sessions. Absences are counted from the first scheduled live class meeting. The program has an 80% attendance requirement for live, synchronous sessions. Students who miss more than 20% (3 live, synchronous sessions) are at risk of a grade reduction, including receiving a non-passing grade. Should something prevent you from attending the Zoom class (i.e. illness, a conference, a religious observance, personal emergency, internet or other access issues) please let me know, *when possible at least 24 hours before an expected absence, or within 24 hours of an unexpected absence/emergency*). Note: If you are absent from class, you are still responsible for any assignments due that day. **I will also ask you to complete a brief**

**(1/2 page) reflection on the day's materials to ensure you are up to date with course content.**

d. Grading

From MSW Student Guide policies on [Grades in Academic Courses and in Field Instruction](#): Letter grades from A through E are given for class performance. Grades of A are given for exceptional individual performance and mastery of the material. The use of A+, A, and A– distinguishes degrees of superior mastery. B grades are given to students who demonstrate mastery of the material: B+ is used for students who perform just above the mastery level but not in an exceptional manner; B– is used for students just below the mastery level. C grades are given when mastery of the material is minimal. A C– is the lowest grade which carries credit. D grades indicate deficiency and carry no credit. E grades indicate failure and carry no credit.

Grading Scale:

90-100 = A+      75-79 = B+

85-89 = A      70-74 = B

80-84 = A-      65-69 = B-

Late Assignment Policy: Please communicate with me as soon as possible if you anticipate problems with a due date. Unless this is due to an unexpected event/emergency, requests for an extension on an assignment must be made at least 24 hours in advance. Without advance arrangements, assignments turned in after the due date/time will receive a 3% deduction from your overall grade for each day past due and be considered incomplete after one week.

Please review the [Student Grievance procedures](#) and [policy for grading in special circumstances](#) in the MSW Student Guide.

e. Class Recording and Course Materials

Audio and video recording of in-class lectures and discussions is prohibited without the advance written permission of the instructor. Students with an approved

accommodation from the Office of Services for Students with Disabilities permitting the recording of class meetings must present documentation to the instructor in advance of any recording being done. The instructor reserves the right to disallow recording for a portion of any class time where privacy is a special concern. If the instructor chooses to record a class, they will decide which classes, if any, are recorded, what portion of each class is recorded, and whether a recording is made available on the course management website. On days when classes are recorded, students will be notified a recording is occurring. Class recordings and course materials may not be reproduced, sold, published or distributed to others, in whole or in part, without the written consent of the instructor.

Additional information on class recordings can be found the [Recording and Privacy Concerns FAQ](#).
