Course Description

This foundation course for the Community Action and Social Change Minor is designed to prepare students to be informed and active participants in the process of community building and social change. The course uses a multidisciplinary framework to develop competencies that will help students envision what community action and social change look like, identify and implement steps towards social change, build on positive sources of power, indigenous knowledge and experiences of individuals, groups, and communities who are engaged in social change efforts.

Class Recordings

Audio and video recording of in-class lectures and discussions is prohibited without the advance written permission of the instructor. Students with an approved accommodation from the Office of Services for Students with Disabilities permitting the recording of class meetings must present documentation to the instructor in advance of any recording being done. The instructor reserves the right to disallow recording for a portion of any class time where privacy is a special concern. If the instructor chooses to record a class, they will decide which classes, if any, are recorded, what portion of each class is recorded, and whether a recording is made available on the course management website. On days when classes are recorded, students will be notified a recording is occurring. Class recordings and course materials may not be reproduced, sold, published, or distributed to others, in whole or in part, without the written consent of the instructor.

F. Class Participation (15%) DUE: throughout semester

Active participation will enhance the class discussion and make possible the exploration and exchange of ideas that are critical in this course. Class participation involves thoughtful engagement with the material, contributions that are pertinent to the topic

being discussed and all forms of respectful verbal and non-verbal behavior, such as being attentive, asking questions of the professor and other students, sharing reasons why one agrees or disagrees with different ideas, and practicing supportive listening. Respectful behavior also includes being willing to meet individually with the professor upon request. **Failure to exhibit respectful behavior can result in the loss of all 15 points.**

Also, please note that ringers on cell phones should be turned off when class begins. Texting is not allowed in class but laptops are permissible for note taking and in-class research. If you have an urgent phone call or text message, please leave class to deal with this.

Finally, if and when our class meets virtually, students are expected to attend the class zoom meetings with their cameras on and keep their cameras on throughout the class session. Students will lose points if their camera remains off during class.

G. Class Attendance (15%) DUE: throughout semester

Attendance will be recorded for each class session. Students with one or no absences will earn 15 points. After the first absence, 1 point will be deducted for each additional absence. Arriving more than ten minutes late or leaving class early will be counted as half an absence.

Exceptions to the absence and attendance rule will be determined by the professor on a case by case basis but generally include events for which a student has no control. Here are some examples: jury duty, a summons to appear in court, required military service, and being in a car crash on the way to school.

Assignment Expectations

Due dates are firm. I reserve the right to mark down papers 2 points for each day late in fairness to classmates who turn papers in on-time. Please note, I will not accept papers beyond a week after the due date. All written assignments must be submitted electronically via Canvas on the day they are due by **12:30 p.m.** Additionally all assignments must have a cover sheet. The title of your assignment along with your name(s) and date should appear on the cover sheet. Lastly, please use **APA Style Citation Format** on all assignments for this course.

Plagiarism

I take plagiarism seriously. Plagiarism is when you attribute others' ideas and/or exact words as your own. This includes ideas and/or passages from the readings, class activities, peers, and from the Internet, among others. I expect that all sources used will be cited or referenced. If I suspect plagiarism, I will follow the University's protocol for disciplinary action. This could mean a loss of points, failure of a grade, and/or other consequences. If you have questions, please do not hesitate to ask.

Learning Environment

This class is based on a collaborative learning model—one in which students are both “teachers and learners” in the classroom. During the class, we will have regular opportunities for peer-based learning and teaching activities. This model requires that students be prepared to participate, to take risks and share ideas, to respect diverse opinions, and be open to challenging yourself each class.

Other

Please see me if you have any concerns about the class, your participation in the class, or have personal issues that relate to the class. I am more than happy to meet with you at any point to discuss your situation or to address any special accommodations. I am also available to assist you with accessing school or university-based resources you may need during the semester.

As a reminder, any special needs or accommodations must be documented by the Office of Students with Disabilities and presented to me by the drop/add deadline to ensure proper accommodations can be made.

Grading Rubric

Scores on the preceding assignments are cumulative and will be converted to a final letter grade at the end of the semester according to the following scale:

94-100 = A	74-76 = C
91-93 = A-	71-73 = C-
87-90 = B+	67-70 = D+
84-86 = B	64-66 = D
81-83 = B-	60-63 = D-
77-80 = C+	

Evaluation Component

The CASC department plans to evaluate and use the lessons learned from class activities to do further research on engaged curriculum and learning activities for community change. We will do this periodically throughout class using brief surveys or questionnaires to gain feedback about activities, skills, and lessons learned. You are under no obligation to participate. All responses will be anonymous. Participation or non-participation will in NO way impact your class grade. We will use the data gathered from class to generate findings for peer-reviewed papers and conference presentations.

The Rise of Anti-Asian American Sentiment and Community Resiliency

Anti-Asian American sentiment has spread across the U.S. like an epidemic, rising approximately 360% in 2021 alone. Discriminatory rhetoric used by politicians to describe the pandemic polarized the country and put Asian Americans at risk.

However, is Anti-Asian hate truly a new phenomenon? What is the history of racism against Asian Americans in this country? And how does it connect to the present discrimination we see? How has this community persevered, with the help of other BIPOC communities, to be strong while they continue to contribute to the fabric of American society?

Join us for a lecture connecting the past to the present and hear about the work of prominent Asian American leaders, activists, and students. Featuring LSA of American Studies Lecturer, writer and author, Frances Kai-Hwa Wang; students from the School of Social Work's API Coalition; former Assistant Attorney General of Michigan and Executive Director of American Citizens for Justice, Roland Hwang; and MSU Law adjunct faculty and Executive Director of Street Democracy, Jayesh Patel. Students from the API Social Work Student Coalition will also be featured.

Week 11: Reality of Community Change: Sustainability & Self-Care (November 16)

What is the reality of CASC? Given the complexity of systems, how do we think about our work and our potential for change? What are strategies for approaching community action social change work?
