1. Course Statement

a. Course description
   This course will build on intervention approaches introduced in the essential courses by promoting advanced and skill building for behavioral health providers (e.g., engagement, contracting, problem-solving, emotional regulation, behavioral activation, cognitive restructuring, etc.) using a specific brief, evidence-based and/or evidence-informed interventions including prevention, treatment and recovery as well as longer-term treatment and support for children and youth as appropriate. Particular focus will be on Cognitive Behavioral Therapy as a model of evidence-informed approaches in advancing clinical competency development regarding: 1. Psychoeducation, 2. Mindfulness, 3. Cognitive coping, 3. Behavioral Activation, 4. Exposure, 5. Problem solving and 7. Distress Tolerance. An overview of crisis and suicide intervention, solution focused, motivational interviewing interventions and family interventions will be provided. A specific intervention strategy will be analyzed in the context of delivering interventions as trauma-informed and culturally responsive. Special attention will be given to issues of diversity as it relates to building therapeutic relationships and intervening with children, youth, transitional age youth and their families.

b. Course objectives and competencies
   Upon completion of this course, students will be able to:
1. Demonstrate engagement strategies that are relevant to the practice setting (EPAS Competency 1, 6)
2. Utilize evidence-informed assessment procedures to identify appropriate intervention strategies
3. Develop person-centered treatment goals, objectives, and interventions. (EPAS Competency 1, 7, 8)
4. Implement evidence-based prevention and intervention strategies (e.g. cognitive behavioral interventions, parent management training) that are compatible with child/adolescent and family or caretaker goals, needs, circumstances, culture, and values. (EPAS Competency 1, 8, 2)
5. Develop trauma-informed intervention skills in working with children, adolescents and their families that are grounded in practice and research informed for effectiveness. (EPAS Competency 1, 2, 3, 4, 8)
6. Monitor and evaluate interventions with regard to: effectiveness, sensitivity to diversity factors; impact of child/adolescent' and families' social identities on their experience of power and privilege; and appropriateness of the intervention to specific child/adolescent needs resulting from conditions (EPAS Competency 1, 2, 8, 9)

c. Course design
Class format will include lecture, discussion, case analysis, and peer-reviewed skill practice. Reflection and recorded assignments to evaluate students’ ability to integrate knowledge into practice will be utilized. This course has been designed to focus on development and demonstration of intervention skills and competencies. Thus a “flipped classroom” model – with students reading pre-readings and watching videos prior to class and using class time primarily for practice demonstration and discussing questions and feedback will be followed.

Teaching Pedagogy:
I utilize engaged teaching strategies to impact transformative learning. The course content and materials will incorporate the following themes:
- Creativity
- Intercultural engagement
- Social/civic responsibility and ethical reasoning
- Communication, collaboration, and teamwork
- Self-agency, and the ability to innovate and take risks

d. Intensive focus on PODS
This course integrates PODS content and skills with a special emphasis on the identification of theories, practice and/or policies that promote social justice, illuminate injustices and are consistent with scientific and professional knowledge. Through the use of a variety of instructional methods, this course will support students developing a vision of social justice, learn to recognize and reduce mechanisms that support oppression and injustice, work toward social justice processes, apply intersectionality
and intercultural frameworks and strengthen critical consciousness, self-knowledge and self-awareness to facilitate PODS learning.

**Actively practice to enhance social justice:**
Adapt social justice vision for interpersonal practice utilizing person-centered and recovery-oriented practice methods. Intervention strategies used and skills developed will address cultural sensitivity and promote cultural humility.

**Critical Contextual Thinking:**
Students during the engagement, assessment, intervention, and evaluation phases of work, how privilege, oppression, diversity, and social justice impacts the processes in each phase of interpersonal practice based on the social and personal identities of themselves and clients. Selection Implementation of interventions and processes of change in work with children, youth, transitional age youth and families with complex needs will be analyzed using a social justice lens, especially as it relates to the pathways to care (e.g. access, resources) for this population.

**Conflict, Dialogue and Community:**
Students will utilize case consultation and review of potential strategies to develop an ability to critically dissect the advantages and disadvantages of practice methods and strategies relevant to the social and personal identities that are impacted by social justice goals. Develop strategies to engage in interprofessional teams with conflicting roles, responsibilities, and ideas.

**Critical Awareness, use of self, and strengthening strategies for resilience and generativity:**
Personal reflection and personal evaluation of growth and areas to enhance relevant to the professional role in the prevention, intervention and termination processes.

**e. Instructor Expectations**
As professionals in training, professional identity should be exhibited. Students should plan to attend each class prepared to participate.

If students are unable to attend or participate in the scheduled session, an email to the instructor is required. If more than two absences occur without contacting the instructor, the student will not receive 50% of the credit for points earned throughout the course of the semester.

Students are expected to respect others opinions and comments and be prepared to learn and educate in a respectful manner. Students that are unable to participate in respectful dialogue will be asked to exit the classroom and will not receive points for attendance or participation.
Students needing to contact the instructor are asked to do so via email at daiciars@umich.edu. Students will need to communicate utilizing formal standards and include their name, course and if they are requesting a response. Communications requesting a response will be addressed within 72 business hours during the semester.

Communications that utilize informal language such as Hey, What’s Up, etc, **will not receive a response.** Students that wish to meet with the instructor should email the instructor with the preferred date and time frame to meet.

Text communication is accepted at 734.330.3663.

Meetings with the instructor can be scheduled in advance to discuss course material, content, or to give and/or receive feedback.

General questions that are not specific to an individual should be posted/asked in the CANVAS Q&A.

### 2. Text and Class Materials

There is not a standard, set textbook required for this course.

a. Resources and Course Materials:
   - [TRAILS to Wellness](#)
   - [TF-CBT: Online Training: Medical University of South Carolina](#) (COST)
   - [Cognitive Behavioral Intervention for Trauma In Schools (CBITS)](#)
   - [The National Child Traumatic Stress Network](#)
   - [Georgetown University Center for Child and Human Development](#)
   - [Trauma-Informed Care in Behavioral Health Services: SAMHSA TIP 57](#)
   - NTI: National Training Institute: MENTAL HEALTH
   - Additional reading can be found in the weekly schedule

b. SIMmersion’s:
   - Adolescent SUD/Motivational Interviewing module with David for CME (2)
- Suicide Prevention: Assessing Risk with Taye Banks
- Preventing Childhood Obesity with Kelly Robinson
- Cognitive Behavioral Therapy: Introducing CBT with Tanisha Mosley
- Cognitive Behavioral Therapy: Functional Analysis with Roger Ellison
- Cognitive Behavioral Therapy: Creating a Change Plan with Melody Denison

- All articles can be accessed through the UM Library with uniqname and password. Additional content that is needed will be posted to Canvas.
- To fully engage in the course topic and become a competent and skilled social work practitioner, it is expected that students will complete all required readings and independent assignments to demonstrate integration into practice.
- Readings will not be discussed during class unless questions arise. Content should be integrated into practice skills and students will be assessed by level of ability to incorporate theory and content into practice.
- Additional readings may be assigned as environmental shifts occur and will be posted to Canvas.
- Readings and assignments will be posted at least one week prior to the due date.

**SSW Credit Hour Policy**

The United States Department of Education requires that academic institutions develop a written credit hour policy that conforms to the definition of a credit hour. More recently the University of Michigan has instructed us that our School must create such a policy. The School of Social Work definition of a credit hour formalizes compliance with federal expectations and assists with consistency through the School of Social Work. As such, the School of Social Work utilizes a ratio of one hour of classroom instruction to two hours of out-of-class activity. Specifically:

- One credit is equal to approximately 45 hours of total work over the semester.
- Three credits is equal to approximately 135 hours of total work over the semester.

Because of the critical nature of reflection, integration, understanding the use of self in practice, self-care, and praxis to social work education, it is expected that a portion of these total work hours will be devoted to activities that further these aims. These activities may include, but are not limited to:

- The practice of critical self-care and building resilience.
- Integration of the concepts and theories presented in class with direct practice experiences such as those in their field courses.
- Engaging in activities that enhance self-reflection, self-awareness, and emotion regulation.
- Read more on the SSW credit hour policy [here](#).
### 3. Class Schedule*

<table>
<thead>
<tr>
<th>Week</th>
<th>Topics</th>
<th>Learning Objectives</th>
<th>Activities/Assignments</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 1/5/22</td>
<td><strong>Introduction to Course</strong></td>
<td>Identify engagement strategies appropriate for specific environments. (EPAS 1, 6)</td>
<td>Review the syllabus and Canvas site. Bring questions to first day of class</td>
</tr>
<tr>
<td>2 1/12/22</td>
<td><strong>Introduction to Course</strong>&lt;br&gt;Focus on Engagement&lt;br&gt;Therapeutic Alliance: Beginnings and Endings</td>
<td>Identify engagement strategies appropriate for specific environments. (EPAS 1, 6) Explain necessities and challenges associated with engagement strategies. (EPAS 1, 6) Describe how privilege, oppression, diversity, and social justice (P.O.D.S) could influence</td>
<td><strong>ASSIGNMENT:</strong>&lt;br&gt;&lt;br&gt;<strong>Engagement Scripts &amp; Recordings</strong>&lt;br&gt;&lt;br&gt;Engagement includes the way you begin your relationship with people you will work with. Using engagement strategies as described in the articles and videos presented in this module, describe yourself as you would to a client.&lt;br&gt;&lt;br&gt;In this assignment, you will:&lt;br&gt;&lt;ol&gt;&lt;li&gt;Select an age range&lt;/li&gt;&lt;li&gt;Write at least one script addressing the points below&lt;/li&gt;&lt;li&gt;Submit script&lt;/li&gt;&lt;/ol&gt; Select an age group (either 7 to 13 or 14 to 18) and create written scripts introducing yourself and your role to promote engagement. You will identify the specific setting for your script(s): Hospital, Primary Care Clinic, Outpatient Behavioral Health.&lt;br&gt;&lt;br&gt;In your script, address the following points as it makes sense for the age group:&lt;br&gt;&lt;ul&gt;&lt;li&gt;What is a social worker?&lt;/li&gt;&lt;/ul&gt;</td>
</tr>
</tbody>
</table>
engagement. (EPA S 1, 6)

- How does the social worker engage with other members of the team?
- How long will the client be working with you?
- Do you have additional roles they should be aware of?
- What does confidentiality mean and how will you navigate sharing health and safety concerns?
- What is your approach to practice?

You will record yourself reading one of your scripts from one setting. Select and record the script for the age group you selected and the setting you would like to work in. In your recording, ensure that your verbal and body language are natural and appropriate for the environment. Be prepared to utilize the script during live session.

Assessment: Intricacies within formal and informal assessments

Using both methods to develop treatment plans/plans of service

**Explain evidence-informed assessment procedures (EPAS 7)**

**Match evidence-informed assessment procedures to their appropriate and culturally relevant intervention strategy (EPAS 7)**

**Describe methods for remaining aware of and sensitive to diversity factors and social identities (EPAS 1, 2, 8, 9)**

**Develop trauma-informed intervention skills**

**ASSIGNMENT:**

**SIMmersion Simulation: Suicide Prevention: Assessing Risk with Taye Banks**

**ASSIGNMENT:**

**Assessment Tools Scripts Discussion Post**

This week, you have learned about completing assessments of children and families. In this discussion, you will write a script for explaining assessment tools to children and their families. Consider including the impacts of trauma on individuals.

In previous courses, you discussed Erikson’s Stages of Development and how the stages may influence your explanation of an assessment tool.

Recall this information and in your own words in your initial response, write a script that describes how you would describe an assessment tool to a 7-year old and a 13-year-old. For a refresher on Erickson’s Stages of Development model, please review the following resources: [Erik Erickson and Lifespace Development](#) and [Erikson's Stages of Psychosocial Development](#).

Consider the following in your script:

- What is the purpose of an assessment?
- How will the information gathered be used?
- How will you ask about traumatic/adverse events?
in working with children, adolescents and their families that are grounded in practice and research informed for effectiveness. (EPAS Competency 1, 2, 3k 4, 8)

Be prepared to utilize your script within the live session. In your responses to peers’ script, you can provide feedback on their description and the age appropriateness. In your responses to peers, consider the following questions:

- How are your scripts similar and different from your peers?
- How were your scripts similar and different from the SIMmersion screen?
- What information could you take from your peer’s response to improve your own approach to explaining the tool for both or either age group?
- What could be added to your peer’s explanation to improve the explanation?

Explain how social and personal identities could influence intervention strategies and their

**ASSIGNMENT:**

SIMmersion Simulation: Preventing Childhood Obesity with Kelly Robinson (see master assignment)

**ASSIGNMENT:**

This week you have read about family therapy and theoretical frameworks. With this information in mind, think about two models you selected from Family Therapy With the Experts Series for discussion.

For this week, please consider the following prompts:

- An overview of the two models you reviewed.
- Identify how the selected models are compatible or incompatible with your preferences for practice. What are some things to consider?
- How is family conceptualized in the models presented in readings and videos for this module?
effectiveness. (MLO 3.2, CLO 3, EPAS 1, 7, 8)

Describe methods for remaining aware of and sensitive to diversity factors and social identities. (MLO 3.3, CLO 3, EPAS 1, 7, 8)

- What considerations and adjustments may be necessary to recognize diversity in family structures?

In response to your peer, consider the following:

- Share how your experience with theoretical frameworks of family intervention differs or is similar to your peers’ experiences.
- Share how your experiences, expectations, and conceptualizations might influence your view of peer’s approaches and how you might expand or develop in these areas.
- Share how your experience or lack of cross-cultural experiences might influence your practice and how you might expand or develop in these areas.

**Family Engagement Script**

In this assignment, you will create a script that describes your theoretical approach to working with families. Consider the information provided in articles and videos. Then, incorporating engagement strategies, describe how the theory will be seen in your practice.

As you write your script, reflect on your experience with the mother in the **Simmersion: Preventing Childhood Obesity with Kelly Robinson**. Incorporate what you learned.

In your script, consider including the following components:

- Reference family practice models from the videos
- Describe your role as a practitioner to families
- Identify and describe the roles of the parents and children
- Describe how you will work with families

Discuss evidence-based prevention and goal-oriented intervention strategies that are culturally and situationally appropriate (EPAS 1, 2, 8)

Apply an evidence-based, culturally, and situationally sensitive prevention and intervention strategy to a clinical scenario (EPAS 1, 2, 8)

Explain how social and personal identities could influence intervention strategies and their effectiveness. (EPAS 1, 2, 8)

Examine effective trauma-informed and culturally relevant

ASSIGNMENT:
Complete TF-CBT OR CBITS ONLINE MODULES

For this assignment, complete the full course to utilize with the ongoing practice of implementing CBT.

Cognitive Behavioral Therapy (CBT) Script

For this assignment, develop a written script to describe the concept of CBT. Remember that services to children and adolescents include their families, so prepare the script to share directly with a client and their family. Identify the age that you are preparing the script for (7-year-old or 17-year-old). In your script, include:

- Theory of the model
- Efficacy for client
- What the client can expect from the sessions

MEDIA RESOURCES

In-Shape Habits. (2014, September 2). What is CBT? Cognitive Behavioral Therapy Explained [Video]. YouTube. https://www.youtube.com/watch?v=0ViaCs0k2jM
| situationally sensitive prevention and intervention strategy to a clinical scenario. (EPAS 1, 2, 8) | - Are there situations where thoughts that are not positive, but should not be contextualized as negative?
- How do social identities impact thoughts?

In follow-up responses to two peers’ posts, address the following:

- Share how your experience with considering social identity and thoughts differs or is similar to your peers’ experiences.
- How your peer’s response influenced your perspective.

**Automatic Thoughts Script**

In this assignment, you will utilize one CBT resource to develop a script to provide instructions to your mock client about completing a thought record as homework (pg. 51 in Brief CBT manual, pg 151 in CBT in School Settings, Resources for CBT pdf ). Identify the client age that you are delivering the script to. If families will need to support due to their age, how will you introduce the assignment to them?

Prepare a script to describe the different automatic negative thoughts (all or nothing, emotional reasoning, over-generalizing, worst possible outcome, etc.) based on culturally and developmentally responsive language. You can utilize resources on automatic negative thoughts as a part of your script (for example, What is an ANT in the Trails to Wellness group manual). If you are utilizing a specific source, please share the document that you are using. Be prepared to practice the explanation during the live session.

|   | Interventions                  | Implement evidence-based prevention and intervention strategies (e.g., cognitive behavioral interventions, parent management training) that are compatible with child/adolescent and family or caretaker goals, needs, circumstances, culture, and diversity factors; impact of child/adolescent' and families' social identities on their experience of power and privilege; and appropriateness of the intervention to specific child/adolescent needs resulting from conditions (EPAS Competency 1, 2, 8, 9) | Therapy Techniques for Children and Adolescents: Tools for enhancing practice. NY: Guilford Press. (pp. 79-120).  
|---|---|---|---|
| 9 | 3/9/22 | Assignments: Behavioral Activation Discussion | This week you have read about the skill of behavioral activation. With this information in mind, think about your previous personal and practice experiences in attempting to change behaviors that are consistent with identified goals. For this week’s discussion, please consider the following prompts:  
1. When is behavioral activation not effective for clients (consider stages of change from motivational interviewing)?  
2. How do your social and personal identities impact the focus on behavioral activation?  
3. What ways can you ensure that the social and personal identities of clients are integrated into intervention implementation? |
Monitor and evaluate interventions with regard to:

- effectiveness,
- sensitivity to diversity factors;
- impact of child/adolescent' and families' social identities on their experience of power and privilege; and
- appropriateness of the intervention to specific child/adolescent needs resulting from conditions.

4. Are there incongruences with the texts and resources provided that are not culturally responsive and trauma informed?

In follow-up responses to two peers’ posts, consider the following:

1. Share how your experience differs or is similar to your peers’ experiences.
2. Challenges your peers may or may not experience as a result of their approach.
3. How your peers’ experience has influenced your perspective and approach.

**Behavioral Activation Script**

In this assignment, you will develop a script to describe behavioral activation. Identify the age that you are preparing the script for and be sure to include the family as appropriate.

In your script consider including the following components:

- Definition of behavioral activation
- Alignment with previous sessions on thoughts and feelings
- Expectations for homework assignment
- Barriers to completing assignment

Also review the Behavioral Activation worksheet on page 176 of the Behavioral Activation guide. Practice using the worksheet with yourself. You will use this worksheet in the live session with a peer.

3 Minute Body Scan

Urban Yoga

3-Minute Compassion meditation for Children and Families

Training with Roger Ellison. Think about the experience and how core skills could be utilized with parents. Also think about how we could modify this for use with different age groups and parents.

In your initial response address the following questions:

- What could you do to modify the approach you used with Roger Ellison in the simulation to work with children?
- How could you use core skills employed in your work with Roger Ellison in the simulation to work with the parents of the children you serve?

In follow-up responses to two peers’ posts, address the following:

- How your peer’s response may inform your approach to utilizing core skills with parents.
- How your peer’s response may inform your approach to modifying your approach to work with children.
- What you might do differently as a result of reading their response to the initial question.
- Strengths and weaknesses to their approach or modifications.

**ASSIGNMENT RESOURCES**

**Mock Client Session**

In this assignment, you will prepare an outline/agenda for a 45 - 57-minute mock client session using engagement, goal identification, and a solution-oriented intervention. Include scaffolding of developing solutions.

This will be used to complete a mock client session that includes demonstration of skills gained from previous modules. A recording and reflection will be submitted following the live session.

**Complete SIMmersion on Motivational Interviewing:**

**SELF EVALUATE DIFFERENCE IN SKILLS**

Revisiting SIMmersion: Engaging Adolescent Patients about Marijuana use with David Martin (CME).

Read the instructions fully and carefully prior to beginning.

For this assignment, you will revisit the simulation from Module 5. Download your previous transcript. Log into the SIMmersion website and access the simulation titled *Engaging Adolescent Patients about marijuana use with David Martin (CME).* If at all possible, use the "voice recognition" feature to get used to practice speaking with clients.

Complete the simulation.

Download your transcription. Then reflect on your experiences using the following questions:

- What differences did you notice in this simulation experience from Module 5?
- What are areas of strength for you?
- What skills do you notice that you need continued practice in?
- What was challenging about the experience?
Interventions:
Problem Solving/Solution Oriented

Develop trauma-informed intervention skills in working with children, adolescents and their families that are grounded in practice and research informed for effectiveness. (EPAS Competency 1, 2, 3k 4, 8)

<tr>
<td>Monitor and evaluate interventions with regard to: effectiveness, sensitivity to diversity factors; impact of child/adolescent' and families' social identities on their experience of power and privilege; and appropriateness of the intervention to specific child/adolescent needs resulting from conditions (EPAS Competency 1, 2, 8, 9)</td>
<td><strong>Termination Reflection</strong></td>
</tr>
</tbody>
</table>

According to the **NASW Code of Ethics Preamble**, social workers seek to enhance the capacity of people to address their own needs. Termination is a natural part of the service delivery process. For this activity, you will reflect on the challenges, benefits, and impacts of service termination.

In your reflection, consider the following questions:

- What feedback would you want from a client upon termination?
  - What tools/methods will you use to evaluate outcomes?
- Consider your cultural identity and your personal perception of ending relationships, what challenges do you predict in working with clients in the termination phase?
- What strategies will you use to address them?
- What adjustments will you make in the termination and prevention plan description and development following your mock session?
- What specific considerations should be made regarding termination when considering social identities of clients?

4. Assignments

a. Master Assignments:
   • SIMmersion Modules
     1. Adolescent SUD/Motivational Interviewing module with David for CME (2)
     2. Suicide Prevention: Assessing Risk with Taye Banks
     3. Preventing Childhood Obesity with Kelly Robinson

b. Additional Assignments:
   • Peer examples and clinical rationale

### Required Master Assignment 1: SIMmersion Module: Adolescent SUD/Motivational Interviewing module with David for CME INITIAL

#### Purpose
SIMmersion simulations allow students to interact with a ‘client’ that is responsive and unpredictable, much like an actual client. The ‘client’ responds differently to each topic/phrase you choose and their mood can change based on your chosen response.

#### Course Outcomes
This assignment provides documentation of student ability to meet the following course outcomes:

- Demonstrate engagement strategies that are relevant to the practice setting (EPAS Competency 1, 6)
- Implement evidence-based prevention and intervention strategies (e.g. cognitive behavioral interventions, parent management training) that are compatible with child/adolescent and family or caretaker goals, needs, circumstances, culture, and values. (EPAS Competency 1, 8, 2)
- Develop trauma-informed intervention skills in working with children, adolescents and their families that are grounded in practice and research informed for effectiveness. (EPAS Competency 1, 2, 3k 4, 8)

#### P.O.D.S. Capacities
This assignment connects to the many P.O.D.S. capacities, including:

- Recognize one’s own positionalities on multiple dimensions, including nationality/citizenship (the relative power of the nation) and other insider/outsider statuses. (D)
- Recognize how these intersect with each other and change in interactions with others and in different contexts. (D)
- Demonstrate intersectional humility in communication and interactions with others. (C)
### Task
Engaging in a process reflection of simulated interactions may help you to critically reflect on your skills and facilitate self-assessment. Complete a Process Reflection.

**Steps:**
- Selecting the simulation: Adolescent SUD/Motivational Interviewing module with David for CME
- Reading through the theory-based curriculum available within the application before you enter the simulation; this content contains valuable resources and information on the intervention technique before you begin to practice it. Review the curriculum as often as necessary.
- Utilize the "voice recognition" feature to get used to practice speaking with clients when possible.

**POST SIMULATION REFLECTION**
- What feedback did you receive from reviewing the transcript?
  - What did you learn from the experience?
  - What skills might you incorporate into practice?
- What was challenging about the experience?
  - Were there areas that were surprising to you?
- How did the personal and social identities of the client impact the interaction?
- How do your personal and social identities and experiences impact your views of substance use in adolescents?
- What opportunities for growth do you see for yourself in implementing motivational interviewing with youth and their families?

### Grading Rubric
3 points for transcript submission
7 points (1 point for each prompt) for reflection submission
### Required Master Assignment 2: SIIMersion Module: Suicide Prevention: Assessing Risk with Taye Banks

#### Purpose
SIIMersion simulations allow students to interact with a ‘client’ that is responsive and unpredictable, much like an actual client. The ‘client’ responds differently to each topic/phrase you choose and their mood can change based on the words you choose to say.

#### Course Outcomes
This assignment provides documentation of student ability to meet the following course outcomes:

- Demonstrate engagement strategies that are relevant to the practice setting (EPAS Competency 1,6)
- Utilize evidence-informed assessment procedures to identify appropriate intervention strategies (1,2, 7,8)

#### P.O.D.S. Capacities
This assignment connects to the many P.O.D.S. capacities, including:

- Recognize one’s own positionalities on multiple dimensions, including nationality/citizenship (the relative power of the nation) and other insider/outsider statuses. (D)
- Recognize how these intersect with each other and change in interactions with others and in different contexts. (D)
- Demonstrate intersectional humility in communication and interactions with others. (C)
**Task**
Engaging in a process reflection of simulated interactions may help you to critically reflect on your skills and facilitate self-assessment. Complete a Process Reflection Steps:

- Selecting the simulation: Suicide Prevention: Assessing Risk with Taye Banks
- Reading through the theory-based curriculum available within the application before you enter the simulation; this content contains valuable resources and information on the intervention technique before you begin to practice it. Review the curriculum as often as necessary.
- Utilize the “voice recognition” feature to get used to practice speaking with clients when possible

**POST SIMULATION REFLECTION**
- What feedback did you receive from reviewing the transcript?
  - What did you learn from the experience?
  - What skills might you incorporate into practice?
- What was challenging about the talking and documentation experience?
  - Were there areas that were surprising to you?
  - Did you observe differences in the tools and strategies introduced in SIMmersion?
- How did the personal and social identities of the client impact the interaction?
- How do your personal and social identities and experiences impact your views of substance use in adolescents?
- What opportunities for growth do you see for yourself in completing suicide screenings and assessments with youth and their families?

**Grading Rubric**
3 points for transcript submission
7 points (1 point for each prompt) for reflection submission
c. Attendance and class participation

Please review the Policy on Class Attendance found in the MSW Student Guide. Assignments may be submitted up to one week without point reduction.

d. Grading

- Grading Scale
  - A (300-283 points) C+ (239-232 points)
  - A- (282-270 points) C (231-220 points)
  - B+ (269-262 points) C- (219-210 points)
  - B (261-250 points) D (209-180 points)
  - B- (249-240 points) F (less than 179 points)

Review Grades in Academic Courses and in Field Instruction as well as Student Grievance procedures and the policy for grading in special circumstances. How you will be graded:

- Critical reflection that demonstrates growth
- Engagement in content
- Engagement in self evaluation
- Ability to learn from practice

Additional School and University policies, information and resources are available here: https://ssw.umich.edu/standard-policies-information-resources. They include:

- Safety and emergency preparedness
- Mental health and well-being
- Teaching evaluations
- Proper use of names and pronouns
- Accommodations for students with disabilities
For the safety of all students, faculty, and staff on campus, it is important for each of us to be mindful of safety measures that have been put in place for our protection. Your participation in this course is conditional upon your adherence to all safety measures mandated by the state of Michigan and the University, including properly wearing a face covering in class and compliance with the University COVID-19 Vaccination Policy. Other applicable and additional safety measures may be described in the Campus Maize & Blueprint. Your ability to participate in this course may be impacted by failure to comply with campus safety measures. Individuals seeking to request an accommodation related to the face covering requirement under the Americans with Disabilities Act should contact the Office for Institutional Equity and those seeking an exemption related to the vaccination requirement should submit an exemption request through WolverineAccess. I also encourage you to review the Statement of Student Rights and Responsibilities and the COVID-related Addendum to the Statement of Student Rights and Responsibilities.
