Thank You Field Instructors

Office of Field Instruction

School of Social Work (SSW) field instruction presents you with multiple opportunities to become a part of the professional social work community, where you will learn to integrate classroom knowledge with practice and develop your professional work skills and identity. Field instruction provides an opportunity to participate in "hands-on" meaningful service and gain valuable professional experience.

The SSW Office of Field Instruction (OFI) has over 550 fieldwork sites primarily in Southeast Michigan, but also in locations across the country and around the world with 750 licensed professional social workers who will mentor and help you prepare you for a career in the social work field.

Social work students work closely with OFI Field Faculty to identify placement sites appropriate to curriculum objectives, learning goals and individual interests.
