Guidelines

Requirements for Doctoral Study in Social Work and Social Science

For the PhD Degree in:

Social Work and Anthropology
Social Work and Economics
Social Work and Political Science
Social Work and Psychology
Social Work and Sociology

1080 South University Avenue, RM 3704 • Ann Arbor, MI 48109 • (734) 763-5768
# TABLE OF CONTENTS

I. Introduction 1

II. Choice of Social Science Department 1

III. Requirements for the PhD Degree in the Doctoral Program 1
   A. General Requirements 1
      1. Social Work 2
      2. Social Science 2
      3. Graduate School 2
      4. Time in the Program 2
   B. Masters in Social Work (MSW) Requirements 3
   C. Doctoral Social Work Curriculum 3
      1. Curriculum Structure and Course Requirements 3
      2. The Research Internship 4
      3. The Social Work Preliminary Examination 5
      4. Practicum on Teaching Social Work Methods 6
      5. Doctoral Social Work Practice Internship 6
   D. Social Science Requirements – Anthropology 7
      1. Anthropology Course Requirements 7
      2. Statistics Requirements 7
      3. Areas of Specialization 7
      4. Reviews of Student Progress 8
      5. Preliminary Examination in Anthropology 8
      6. Language 9
      7. Dissertation 9
      8. Fieldwork Scheduling Suggestions 10
      9. Time to Degree 10
   E. Social Science Requirements – Economics 10
      1. Economic Theory 10
      2. Economic Mathematics, Statistics and Advanced Methods 10
      3. Area of Field Specialization 10
      4. Preliminary Examination in Economics 10
      5. Third-year Paper 11
   F. Social Science Requirements – Political Science 11
      1. First-Year Evaluation 11
2. Follow-up Evaluation
3. Preliminary Exams, Fields, and Cognate Requirements
4. Time to Degree

G. Social Science Requirements – Psychology
   1. Area of Specialization
   2. Courses Outside the Area (Breadth Requirement)
   3. Statistics
   4. Psychology 619
   5. Ethics
   6. Student Evaluation
   7. Preliminary Examination

H. Social Science Requirements – Sociology
   1. Course Requirements
   2. Preliminary Examinations
   3. Publishable Paper
   4. Workshops
   5. Review and Oversight

I. Professional Work Experience

J. Candidacy
   1. Requirements
   2. Deadlines
   3. Registration

K. Dissertation
   1. Goals
   2. Committee
   3. Registration for Oral Defense
   4. Preparation and Distribution of Copies

IV. Guidelines for Normal Progress through the Doctoral Program in Social Work and Social Science
   A. Milestone Completion Goals
   B. Time Limits to Degree Policy

V. Academic Good Standing

VI. Good Standing Status for Receiving Financial Aid through the Joint Program

VII. General Enrollment Policies and Procedures
   A. Academic Advising
   B. Course Options and Alternatives
C. Grades 21
D. Continuous Enrollment and Registration 21
E. Leave of Absence 22
F. Alternative Official Absences 23
   1. Parental Accommodation 23
   2. Within-semester Medical Accommodation 23
   3. Extramural Study 23

VIII. Research with Human Subjects 24
IX. Ethical Standards and Grievances 24
X. Discrimination and Discriminatory Harassment 25
XI. Scholarships & Fellowships 26
   A. Scholarships and fellowships awarded by the Joint Doctoral Program 26
   B. Scholarships and fellowships awarded by the University of Michigan 28

XII. Funding through the Joint Doctoral Program 37
XIII. Health Care Coverage 38
XIV. Sources of Emergency Assistance 41

21A. Joint Program in Social Work and Political Science – Political Science Area Requirements
21B. Joint Program in Social Work and Psychology – Psychology Area Requirements

22. Change of Advisor Form
I. Introduction

The Supervising Committee for the Doctoral Program in Social Work and Social Science has established the following guidelines, policies, and procedures in addition to the general Graduate School requirements for the PhD degree. Each student should also be familiar with the most current edition of the Horace H. Rackham School of Graduate Studies official guidelines. Students entering without an MSW should also consult the School of Social Work’s official bulletin.

Students will plan their individual programs of study in consultation with faculty advisors in social work and their social science who will consider prior preparation as well as the student’s academic and professional objectives. The requirements set forth in this statement are designed to insure the opportunity to develop special competence in one social science discipline, in one or more areas of social work, and in their integration. Flexibility is achieved through specialized study in social work and in the social science discipline. Within each of the disciplines and within social work there are also specialized subjects. The supervised research internship may be tailored to the student’s particular interests and the dissertation may be directed to any number of particular issues germane to social science and social work. By carefully choosing from the options when planning a program of study, the student can obtain the specialized competence that is needed, while meeting requirements that are intended to provide breadth and integration.

It is the student’s responsibility to plan a program to fulfill stated requirements. Requirements are altered periodically as changes are made in the graduate programs of the associated departments and the School of Social Work. Requirements beyond those extant when the student is admitted to the Doctoral Program will not be increased. Students are advised to consult their advisor about options that may become available during the course of their studies. The Supervising Committee for the Doctoral Program makes the final determination that the student meets minimum requirements.

The student must maintain the quality of work required of all PhD students by the Graduate School or of all MSW students by the School of Social Work, if registered for that degree. In addition, the student’s record will be reviewed annually by the Supervising Committee to determine that there is appropriate progress toward the doctoral degree. Permission to continue in the Program is contingent on the recommendation of the Supervising Committee.

II. Choice of Social Science Department

Within the Doctoral Program in Social Work and Social Science, each student is required to pursue work toward the PhD degree in social work and the social science discipline for which admission has been designated: Anthropology, Economics, Political Science, Psychology, or Sociology. The student’s required work will be taken in courses in the School of Social Work and in the designated social science department. In consultation with the primary advisor, the student may elect courses in other departments appropriate to educational objectives. The student may not change the designated social science discipline in the Joint Program without the permission of the Supervising Committee. These requests should be directed to the Director of the Joint Doctoral Program.

III. Requirements for the PhD Degree in the Doctoral Program

A. General Requirements

In addition to satisfying requirements for admission and continuation as established by the Graduate School, the School of Social Work, and the social science department of concentration, the student must complete a doctoral dissertation in social work and their social science and fulfill specific requirements that fall into the following general areas:
1. **Social Work**

**MSW Courses:** Students not holding the professional social work degree when they enter the program must earn that degree during the course of their studies. This is usually accomplished during the first four semesters of study and must be accomplished before reaching candidacy. Enrollment is jointly in the School of Social Work and in the Rackham Graduate School.

**Doctoral Courses:** Doctoral study in social work includes advanced courses in designated social work areas; a supervised research internship (which may be completed in social work or the student’s social science discipline); and satisfactory performance on a social work preliminary examination.

2. **Social Science**

The student must complete selected courses in their chosen specialization in a social science, fulfill requirements in research methods, and satisfy preliminary examination requirements in a specialized field of the social science discipline. These requirements are included in these guidelines. In some disciplines, students in the Joint Program have slightly modified requirements; students should consult these guidelines to identify where there are differences.

3. **Graduate School**

All students in the Doctoral Program must meet the requirements outlined in the Rackham Graduate School Academic Policies. These requirements are published by Rackham Graduate School at [http://www.rackham.umich.edu/policies/academic_policies/](http://www.rackham.umich.edu/policies/academic_policies/). All students in the Program should review and familiarize themselves with these policies.

4. **Time in the Program**

The timing of courses and examinations, as well as the course requirements and amount of time required for completion of the program, will vary according to the previous preparation of the student, and their progress in the program. Important factors in the time required for the degree are the amount and recentness of the student’s study in the social science in which advanced work is planned and the clarity of the student’s objectives in entering and while completing doctoral studies. For expected time to completion of doctoral requirements, see *Appendix 1*.

Students entering the program should plan to spend three to four years on requirements prior to dissertation work and then spend an additional one to two years on dissertation work. Students are expected to devote full time to their studies throughout the program. Under Rackham Graduate School rules, a student must complete doctoral work within seven consecutive years after the first enrollment in the Graduate School and five years after achieving candidacy. A provision is made for students with dependent care or other needs to apply for a one-year extension on these timelines.
B. MASTERS IN SOCIAL WORK (MSW) REQUIREMENTS

Students entering the Doctoral Program without the MSW (professional degree) enroll simultaneously in the School of Social Work and the Graduate School and usually spend the first four semesters of study to complete the requirements for that degree. They must complete all MSW and Field requirements specified in the social work curriculum (see the Student Guide to the Master’s In Social Work Degree Program, 2014-2015, [http://ssw.umich.edu/msw-student-guide]).

Students in the PhD program can substitute most of the required research, Human Behavior in the Social Environment, and Social Policy MSW foundation courses with doctoral social work and social science classes. A list of approved automatic substitutions for MSW foundation courses is in Appendix 2.

Doctoral courses in social work, social science or in other departments can substitute for other MSW required courses upon recommendation of the faculty advisor and approval by the Associate Dean for Academic Programs in the School of Social Work. Students wishing to make these substitutions must complete the form, Request for Course Substitutions, available from the Social Work Registrar’s office or on the School of Social Work Website ([https://ssw.umich.edu/my-ssw/class-related-forms]). Courses taken in the social science department while the student is enrolled in the School can serve, when approved, to fulfill departmental requirements for the PhD as well as to meet requirements for the MSW. The MSW degree is normally received at the end of the fourth full term of study, after 60 hours of course work that meet the distribution requirements are successfully completed. Each student must have registered for a minimum of 30 of these hours in the School of Social Work. This total can include both MSW- and PhD-level social work courses.

Doctoral students are advised to begin their social work field placements in their second term in the program and to complete their placement by the beginning of their second year. PhD students can, after consultation with the social work advisor, generally substitute up to eight credits of research internship (or departmental equivalent) toward the MSW Field Placement. (See Appendix 3)

Students apply for their MSW diploma via Wolverine Access in the semester before they complete their MSW program requirements. These students are encouraged to participate in the School of Social Work commencement.

C. DOCTORAL SOCIAL WORK CURRICULUM

See Appendix 5 for course list and descriptions.

1. Curriculum Structure and Course Requirements

   (A) Each student is required to take the following courses:

   (1) SW 800 Proseminar in Social Work and Social Science, Part I and Part II
   (2) SW 825 Historical and Contemporary Issues in Social Work and Social Welfare
   (3) SW 873 Theories of Change

---

1This curriculum went into effect with the Fall 2009 term. The requirements described here apply to students entering Fall 2009 and subsequently. Students who were in the Program before Fall 2009 may elect to follow these requirements or those in effect at the time of their admission.
(B) Three additional seminars to be selected from a list of doctoral social work courses from *any* of the four curricular areas: Practice Intervention and Policy (PIP); Social Service Systems (SSS); Research Methods for Practice and Policy (RM); and Social Context for Practice and Policy (SC).

The *four curriculum areas* are intended to cover the content distinctive to the social work component of the Joint Doctoral Program. Two of the areas, Practice, Intervention, and Policy and Social Service Systems relate directly to the principal means by which social work and social welfare attain their objectives. The Research Methods for Practice and Policy area addresses the principles and methods by which knowledge of social work and social welfare is enhanced and the methods used to analyze, design, develop, and evaluate social work practice, social service systems, and social welfare policies. The Social Context for Practice and Policy area embraces the social context and conditions which affect the welfare and well-being of individuals and social groups and which help shape the intervention methods, policies, and social service systems designed to meet human needs. More information regarding the logic and rationale for these curriculum areas can be read in *Appendix 4*.

Students can elect to take an independent study course on a specialized area of interest with any of the tenured or tenure track faculty in the School of Social Work. Students may elect up to three credits in independent study courses (SW 900, 971-978) to substitute for one social work doctoral seminar as long as the credits reflect one of the four curriculum areas and written approval is received from the Director of the Joint Doctoral Program. Information on how to request that an independent study course meet the doctoral course requirements is in *Appendix 7*; the appropriate section numbers for faculty are found in *Appendix 6*.

Students can also request that a social science course, or course in another school or department, count as one of the three additional required social work doctoral seminars (see *section III.C.1.B.*). These requests should go to the Director of the Doctoral Program with a copy of the course syllabus and a memo supporting this request.

2. **The Research Internship**

*See Appendix 8 for further specification of policies and procedures and for the approval form for the Internship proposal.*

A unique feature of the Doctoral Program has been to provide a knowledge development orientation to students early in their careers. This is enhanced by the research internship, which has these specific goals: (1) to provide a complete research experience through participation in a supervised research project prior to the dissertation; (2) to involve students in doing research early in their doctoral studies; (3) to increase students’ research skills; and (4) to develop skills in writing for publication.

The principles and guidelines for the research internship are designed: (a) to ensure that all students have sufficient amounts of research experience in their internships; (b) to enhance the quality of all students’ research experiences; and (c) to reflect the Doctoral Program’s commitment to prepare students for scholarly writing.
(A) Each student should complete a research internship, either in social work or one of the social science disciplines. If a Pre-MSW student wishes to use this internship to substitute up to 8 of 15 credits of the required Professional Field Practicum, they must register for these hours under SW 801-803.

(B) It is expected that each student will engage in some or all of the interrelated research activities listed below and that every student must be involved in a sustained way in activities (i), (ii), (v), and (vi):

i. Formulation of a research problem;
ii. Formulation of the research design and methods;
iii. Development of research instruments;
iv. Data collection;
v. Data analysis and interpretation of findings;
vi. Preparation of a research report.

(C) The research internship must be approved (see Appendix 8A) and a final report on the research internship is required. The faculty instructor and a second reader will evaluate this report (see Appendix 8B) when the internship is completed in social work and determine whether it has adequately met the requirements. The student submits a copy of the report or paper with the evaluation to the Director of the Doctoral Program, indicating that the research internship has been completed.

(D) When the research internship is completed in the social sciences, students can use the evaluation form from their social science (e.g., the form used to evaluate the 619 project in Psychology) or they can use the social work evaluation form in Appendix 8B.

3. The Social Work Preliminary Examination

See Appendix 9 for further specification of the policies and procedures for the preliminary examination and for the approval form for the preliminary examination proposal. Note: These policies were under revision by the Doctoral Committee as of Fall 2011 and were approved in May 2012. They apply to all students who began the program as of Fall 2011.

The purpose of the preliminary examination is to enable the student to demonstrate, to a faculty committee, mastery of knowledge in an individualized area of subject matter.

(A) Each student will complete a preliminary examination in an individualized area of subject matter in social work.

(B) The preliminary examination is expected to cover certain areas of content that are defined in Appendix 9.

(C) The preliminary examination committee must approve a preliminary examination proposal in advance of the examination. The proposal should define the subject matter to be covered, and the literature to be reviewed.

(D) The proposal and examination will be evaluated by a preliminary examination faculty committee (see Appendix 9) that shall consist of at least three faculty persons
Holding regular (i.e., unmodified) appointments as Assistant, Associate, or Full Professors in the School of Social Work. (Note: for students in Social Work and Sociology, one of the faculty members must be in Sociology.) The Chairperson of the Committee must have taught in the Doctoral Program or be approved by the Doctoral Program Director. Members should be chosen for their substantive knowledge, research, and scholarly work in the content area(s) of the preliminary examination. The student recommends the members to the Director of the Doctoral Program for approval.

(E) A student must be enrolled or otherwise be eligible for campus privileges, for a minimum of one credit, during the term in which the preliminary exam proposal is accepted as stated in the Rackham Graduate School Academic Policies (http://www.rackham.umich.edu/policies/academic_policies/).

(F) For a social work preliminary exam for which a student receives a grade of “conditional pass”, once the condition has been met, the existing range of grading should be used by the committee in order to assign a final grade (adopted May 2012).

4. Practicum on Teaching Social Work Methods
   See Appendix 10 for details.

To facilitate students’ preparation for careers involving the teaching of social work methods, procedures have been established whereby students can gain experience and improve their skills in teaching under the supervision of a social work faculty member. In accordance with the Graduate Employees Organization contract, students enrolled in this practicum can assist in course development, classroom teaching, class facilitation, and other instructional activities with the exception of grading.

Positions as Graduate Student Instructors, paid employment involving varying degrees of direct responsibility for student classroom instruction, are also available. Such assistantships occur in all areas of the Master’s social work curriculum and in the student’s social science department. Questions regarding teaching in the School of Social Work should be directed to the Director of the Doctoral Program.

5. Doctoral Social Work Practice Internship
   See Appendix 11 for details.

Experience in social work practice, at the micro and macro levels, is important for those seeking a career as a social work educator or researcher. Such experience can be used toward social work licensure and toward the Council on Social Work Education accreditation, which is necessary for teaching practice classes in schools of social work. Experience can be gained during enrollment in the Doctoral Program through internships; employment and volunteer work (see Appendices 12A and 12B). Students interested in an internship for credit can enroll in a Doctoral Social Work Practice Internship with a social service organization.
D. SOCIAL SCIENCE REQUIREMENTS – ANTHROPOLOGY

Revised July 2012.

1. Anthropology Course Requirements

In order to be admitted to Candidacy, a student must have completed a minimum of 24 hours or a minimum of 8 courses in Anthropology. Regardless of the subfield in Anthropology in which the student wishes to specialize, the 24 hours must include at least one course in three of the four subfields – socio-cultural, biological anthropology, archaeology, and linguistics. Students in the Joint Program who are concentrating in anthropology may select any of the four subfields, though most select socio-cultural anthropology. An example of the requirements of the socio-cultural subfield is outlined below. Students selecting other fields should review requirements with both their Social Work and Anthropology advisors.

Students in socio-cultural must take AnthroCul 526 and 527 and at least one core course in two of the other three subfields of anthropology: biological anthropology, archaeology, or linguistics. These additional core courses are to be chosen from the list below:

(A) BIOLOGICAL ANTHROPOLOGY:
   Anthropology 570 Biological Anthropology: An Overview

(B) ARCHAEOLOGY:
   Anthropology 581 Archaeology I
   Anthropology 582 Archaeology II

(C) LINGUISTICS:
   Anthropology 576 Introduction to Linguistic Anthropology

With the approval of the Department of Anthropology Executive Committee, students who have a Master’s degree in Anthropology may waive or substitute for a required course. (See the Graduate Student Services Associate in the Department for the detailed rules on a course waiver or substitution and for the necessary forms to submit.)

2. Statistics Requirements

A one-semester statistics course (Statistics 500: Applied Statistics 1 or an equivalent course taught in one of the social science departments or the School of Social Work) is required for doctoral students in Social Work and Anthropology. The School of Social Work strongly encourages students to take an additional advanced statistics course.

3. Areas of Specialization

Students concentrating in socio-cultural or linguistic anthropology must choose either a topical specialty or a geographic area in which to specialize. Normally, this declaration follows the first year of graduate study. Topical specialties within a sub-field are flexible and are made in consultation with the student’s anthropology advisor. Doctoral students in Social Work and Anthropology are required to submit a Second-year Review proposal, required of all Anthropology students. This is the first step toward formulating a preliminary exam committee within Anthropology.
4. **Reviews of Student Progress**

The progress of students through the program is reviewed annually by both the Supervisory Committee of the Combined Program in Social Work and Social Science and the relevant sub-field faculty in the Department of Anthropology. The purpose is to ensure that all students are making appropriate progress through the program both in meeting requirements in an appropriate and timely way and in doing so at a level and quality that is likely to result in successful completion of the doctoral degree. Students are informed annually of the results of the review. In addition to the annual review, students in the Combined Program who are concentrating in anthropology must follow the procedures of their subfield in submitting a mid-program or second-year review on the schedule established by their subfield.

5. **Preliminary Examination in Anthropology**

Before qualifying for candidacy, the student must pass a written and oral qualifying examination in Anthropology. The student assembles a prelim committee and begins to compose a working bibliography for each section of the exam in consultation with the committee.

The committee, which consists of two or three Anthropology faculty chosen by the student and approved by the Director of Graduate Studies, administers and evaluates the preliminary examination. The student and the committee will work closely on the content and coverage of the exam.

The written examination has two sections, each consisting of a ten-page essay. One section addresses a general subfield question and the other covers either a topical or a geographical area. The committee prepares a set of questions for each section of the exam, and the student chooses one question from each set. The student will not be privy to the exact questions before the exam. The student will have seven days to complete the essays, which must be polished, succinct, coherent and well grounded. The written exam will be followed by a comprehensive oral examination that takes place within two to three weeks of the written exam.

The oral exam will cover the material in the written exam and any other relevant materials from the student’s program of study. The student will also be expected to discuss the design and content of the exam and bibliography in a general way.

At the end of the oral exam, the committee will decide whether the student has passed. The possible grades are as follows: Not Pass, Pass with Conditions, Pass and Pass with Distinction. The committee chair and/or members collectively will provide the student with either or both a written and oral evaluation of the prelim exam. If the student does not receive a passing grade on part or the entirety of the exam, the reasons should be discussed with the committee. The student may retake that part or the entirety of the exam one additional time. A failure the second time will mean termination from the program.
The Graduate Student Services Associate maintains a file of reading lists and bibliographies. Current students are to file their lists when they are completed. The department also maintains a file of preliminary examination questions. It is the student’s responsibility to see that the questions are filed with the Graduate Student Services Associate.

A student must be enrolled for at least one credit hour the semester during which a preliminary examination is submitted. Registration may be under the 990 Dissertation/Pre-Candidacy course number or another number in Anthropology or Social Work.

6. Language

Students in the Doctoral Program in Social Work and Anthropology are exempt from the language requirement established by the Anthropology Department. Students are, however, strongly encouraged to develop proficiency in another language as part of their course of study. If they do ethnographic research as a component of their doctoral work, they must develop proficiency in their research language.

If a student wishes to be awarded a Master’s in Anthropology (an MA in Anthropology is not a requirement in obtaining candidacy or the PhD) and has not completed the statistics requirement (see section III.D.2 above), then the departmental language requirement as summarized here must be met. The departmental requirement is that before candidacy students should be able to read the publications of foreign anthropological scholars in another language.

The basic language requirement can be completed through courses, examinations, or evidence of a substantial experience with the language:

- Four semesters of passing-grade, college-level language instruction or its equivalent.
- Examinations administered by University of Michigan language departments or other examinations of language competency (e.g., ECCB) with a score above the basic level of competence.
- Completion of a 400-level graduate course in which the language is spoken.
- Living in a country in which the language in question is spoken in everyday contacts for at least one year.

Certification of language requirement:

- A student can have completion of the language requirement certified at the time of admission by the Admissions Committee.
- Graduate advisors may certify completion of the language requirement by their advisees.
- Students may submit requests for certification to the Department’s Executive Committee for persuasive reasons other than the above.

7. Dissertation

Most dissertations in Anthropology are based on primary field research. For students in
the Social Work/Anthropology PhD program, fieldwork is interpreted broadly as any situation that offered the opportunity to conduct primary research on an approved topic relevant to the student’s theoretical interests. In certain circumstances, a dissertation proposal based on library research or analysis of other databases may be approved.

8. Fieldwork Scheduling Suggestions

During the academic year and through the summer, students are encouraged to work as research assistants in projects conducted by anthropology faculty and/or to make their own field contacts and conduct supervised fieldwork. Such experience may fulfill the Social Work Research Internship if they meet the requirements for approval (see Appendix 8A). Students should seek summer funding opportunities for preliminary fieldwork and language study.

9. Time to Degree

Students who take more than six years past prelims to complete their dissertation will be required to retake the preliminary examination in their major field. In rare cases, the Director of Graduate Studies may consider individual exceptions to waive this rule, but this will not be done routinely.

E. Social Science Requirements – Economics

Revised August 2011.

1. Economic Theory

The student is required to take a core sequence of courses in Microeconomic theory, consisting of Economics 601, 602, 603, 604 (each course is a half-semester) and Macroeconomic theory, consisting of Economics 605, and 607. A student can place out of any of these course requirements, however, by passing a placement exam at the beginning of the relevant course during the student’s first year in the program.

2. Economic Mathematics, Statistics and Advanced Methods

Students must demonstrate competence in mathematics, statistics, and econometrics by successful completion of Economics 600, 671, and 672, or by passing written equivalency examinations. Also, it is highly recommended that students complete Economics 675 (Applied Microeconomics), which is an Advanced Methods course. Students must receive a grade of B– or above in these courses to continue in the program.

3. Area of Field Specialization

4. Preliminary Examinations in Economics
Preliminary exams are given in August in both Microeconomics and Macroeconomics. All students are required to pass each exam by September after completion of the student’s second year in the program to remain in the program. The student will have two opportunities to take the Microeconomic and Macroeconomic theory prelims after having completed the course sequences. Students whose GPA is below 3.00 at the end of the first year are required to pass the Microeconomic theory prelim or the Macroeconomic theory prelim by September at the beginning of their second year in order to remain in the program.

Students must also pass preliminary examinations in their field of specialization. The exam is typically taken at the beginning of the third year and must be passed by September at the beginning of the fourth year. Joint students take only one preliminary exam in a field of specialization because their second field is social work.

5. Third-year Paper

All PhD students are required to take Economics 695-696 during their third year in order to complete a research paper of "publishable quality" with the assistance of an assigned faculty supervisor. The paper should be no more than 25 pages long. Each paper must be approved by two faculty supervisors, on a pass/fail basis. If the supervisors disagree on the grading, then the student can ask the Director of Graduate Studies to appoint a third reader whose word is final. A failed paper can be revised and resubmitted, but only three separate submissions of a paper will be considered. The Social Work Research Internship paper may count as a Third-year Paper if approved by the Economics faculty members who teach the Third-year Paper class.

F. SOCIAL SCIENCE REQUIREMENTS – POLITICAL SCIENCE

Revised June 2014.

1. First-year Evaluation

The student must complete a first-year evaluation toward the end of the second term of graduate study. This is not an examination, but rather a comprehensive evaluation of work done up to that point and a time for discussing the critical 2nd and 3rd years in the program. An evaluation committee consists of the student’s Political Science advisor and the student's Social Work advisor. The committee considers the student’s graded record, proposed future courses, and a seminar paper or other piece of work (even if prepared prior to admission to the graduate program) selected by the student as their best work so far.

2. Follow-up Evaluation

A follow-up evaluation will be conducted toward the end of the student’s fourth term in residence. The committee for this evaluation consists of the student’s Social Work advisor, the student’s Political Science advisor and a Political Science faculty member chosen by the student and approved by the Director of Graduate Studies. The committee will review course work, a more recent piece of written work, and plans for achieving candidacy.
3. **Preliminary Exams, Fields, and Cognate Requirements**

At the University of Michigan, the Department of Political Science recognizes the following fields of study for the student’s major and two minor areas of concentration. Particular field programs are described in their respective guidelines. A description of degree requirements for joint students in some of the below areas are presented in Appendix 21A.

- American Government and Politics
- Comparative Government and Politics
- Research Methods
- World Politics
- Political Theory
- Public Law
- Public Policy and Administration (First or second minor only)

The student must pass a preliminary major examination in a regular political science field and complete the requirements for a second minor in political science. For students in the Doctoral Program in Social Work and Political Science, the Political Science departmental requirement of a preliminary exam in the first minor is met by coursework taken at the doctoral level in the School of Social Work. In addition, completing doctoral coursework in social work satisfies the Political Science requirement for a cognate field.

Preliminary exams are written and/or oral examinations conducted by faculty and are normally given only during September, January, and April/May. A student must be enrolled for at least one credit hour the semester during which the final preliminary examination is taken. Registration may be under the 990, Dissertation/Pre-candidate, course number or another number in Political Science or Social Work. Requirements for the second minor field in political science will be satisfied through either a preliminary examination in this field or the completion of three graduate-level courses with grades of B+ or better, except where separate field guidelines specify otherwise.

4. **Time to Degree**

Students who take more than five years after they advance to candidacy to complete their dissertation will be required to retake the preliminary examination in their major field. In rare cases, the Director of Graduate Studies may consider individual exceptions to waive this rule, but this will not be done routinely.

G. **SOCIAL SCIENCE REQUIREMENTS – PSYCHOLOGY**

*Revised August 2011.*

1. **Area of Specialization**

Upon admission, students are accepted by one of the established areas of the Department of Psychology, i.e., Clinical, Developmental, Personality and Social Contexts, or Social.
Each area of psychology establishes its own course and prelim requirements. For a graphical representation of these requirements for joint students, see Appendix 21B. The student and her/his psychology advisor should review these requirements to develop their educational and research plans. Within psychology, a grade of less than B– is unacceptable in core courses.

2. Courses Outside the Area (Breadth Requirement)

To ensure a reasonable breadth and integration of knowledge, all students in the Joint Program in Social Work and Psychology are required to either be a GSI for Psych 111 or 112, OR take one core course from an area other than the student’s area of specialization. See the Psychology Graduate Office’s “Requirements, Policies and Procedures Manual” for a list of approved breadth courses.

3. Statistics

Students are required to complete successfully Psychology 613-614. A grade of B– or better is necessary to fulfill the statistics requirement. Some areas of Psychology also require an additional course in research methodology.

4. Psychology 619

A research project completed prior to candidacy is required of all students in Psychology. A finished written report on this research project must be read and evaluated by two readers, and a joint evaluation will be submitted to the Psychology Graduate Office. The research supervisor will assign a final grade to this project. The 619 project meets the Social Work Research Internship requirement.

The Social Work Research Internship can replace a Psychology 619 project provided that the Research Internship report is read and approved by two faculty members, at least one of whom has a regular (unmodified) Psychology Department faculty appointment at a Professorial rank (Assistant, Associate, Full). The main supervisor of the research may be a Social Work faculty member. If the Social Work Research Internship is being used to meet the 619 requirement, both faculty members’ evaluations should be sent to the Graduate Director in Psychology and to the Doctoral Office.

5. Ethics

Students involved in research projects that are federally funded (e.g. NSF or NIH) must complete the requirements for the Responsible Conduct for Research and Responsible Scholarship. The requirements are addressed during SW 800 (part 1) in the fall of the joint student’s first year.

Students can change their area of specialization within psychology with the approval of the department’s Graduate Director for Academic Affairs. All requests for changes should go to the Graduate Director for Academic Affairs in Psychology.
6. **Student Evaluation**

Each student’s progress is formally evaluated by faculty in the student’s specialization area on an annual basis. Occasionally, performance is deemed to be so marginal that either interruption or termination of graduate study is recommended.

7. **Preliminary Examination**

Each area of psychology has its own coursework, research, and preliminary examination requirements. (See Appendix 21B for more details.) A student must be enrolled for at least one credit hour the semester during which a preliminary examination is submitted.

---

**H. SOCIAL SCIENCE REQUIREMENTS – SOCIOLOGY**  
*Revised July 2013.*

**1. Course requirements**

Students are expected to complete all Sociology Department course requirements (500, 505, 506, 507, 510, 610, a one-semester Research Practicum, and two sociology electives):

- Soc 500 is an Orientation Seminar;
- Soc 505 and 506 fulfill the general theory requirement;
- Soc 507 introduces students to the philosophy of science, methods of empirical research, and the nature of sociological interpretation;
- Soc 510 and 610 form the core statistics sequence. (Students with substantial statistics background may test out of Soc 510. In some cases, students may replace this sequence of courses with more advanced courses);
- Research Practicum possibilities include: Survey Methodology (Soc 600 or 601, Soc 672 and 673), Quantitative Methods (Soc 542, 543), Qualitative Research Methods (Soc 522-523), and Comparative and Historical Methods (Soc 532).

The Sociology Department also requires two cognate courses. This requirement is met through doctoral coursework in Social Work. Joint students may petition the Committee on the Administration of Graduate Affairs (CAGA) of the Sociology Department for the approval of course substitutions or to have requirements waived.

**2. Preliminary Examinations**

All students are expected to complete preliminary examinations in one of the eight program areas (Culture and Knowledge; Economic Sociology; Gender and Sexuality; Health, Aging and the Life Course; Power, History, and Social Change; Race and Ethnicity; Social...
Demography; Social Psychology). Sociology preliminary examinations take place in late August. Joint students should consult with their advisors about the most appropriate timing of sociology preliminary examinations. All students must successfully complete the preliminary examination by the end of the third summer in order to continue in the Program. The Social Work preliminary examination will count as one of the two Sociology preliminary examinations if a Sociology faculty member serves as one of the three committee members. (Note: If students wish to receive a master’s degree in Sociology, then they must take two preliminary examinations in Sociology.) The exam is closed book. It will be graded: Honors, High Pass, Pass, Conditional Pass, and Fail. A Conditional Pass is assigned to an exam that is otherwise satisfactory except for a specific deficiency identified in one answer or one part of the exam. In such cases, the area exam committee will stipulate the conditions under which a passing grade can be assigned. Failing a preliminary exam for a second time is grounds for dismissal from the Doctoral Program.

A student must be enrolled for at least one credit hour the semester during which a preliminary examination is submitted. Registration may be under the 990, Dissertation/Pre-candidate, course number or another number in Sociology or Social Work.

3. **Publishable Paper**

Students in the Social Work & Sociology program can substitute the Social Work Research Internship paper for the Sociology Department’s Publishable Paper requirement.

4. **Workshops**

These are opportunities for students to meet with faculty in relation to a shared area of interest. Students are encouraged to take one or more workshops in which they present their work in progress and become involved in faculty-directed research.

5. **Review and Oversight**

Joint students will be regularly reviewed by CAGA as are all other students in the Sociology Department. The results of the review will be shared with the students’ advisors and with the Director of the Joint Program.

**1. Professional Work Experience**

Professional social work experience after receiving the MSW is strongly recommended for any student planning to teach in a school of social work in the United States. The Council on Social Work Education requires that “Faculty who teach social work practice courses have a master’s degree in social work from a CSWE-accredited program and at least two years of social work practice experience.” Two years of full-time practice experience is equal to 4,000 hours of work. This work can be paid or unpaid. The definition of “social work practice” is very broad. Many of the paid and unpaid activities that students engage in while in the PhD program, including work on committees and research, meet the criteria for social work practice. Students should keep track of their social work experience.
and include it in their CV. See Appendix 12 for additional details. Students are expected to report this work experience activity on their annual progress report.

J. CANDIDACY

1. Requirements

Recommendation for admission to Candidacy is made by the Director of the Doctoral Program when the student has reached major milestones in both social work and in the social science discipline, namely:

- the satisfactory completion of all course requirements
- the successful completion of the Research Internship or the departmental equivalent and the submission of a final report and evaluation to the Doctoral Office;
- the conferral of the MSW and
- the completion of the preliminary examination in the social science discipline with a satisfactory grade and
- the satisfactory submission and defense of the preliminary exam proposal in Social Work.

When students have attained these achievements, they will complete a candidacy audit form (Appendix 14) with a Doctoral Office staff member. On this basis, the Director will determine the student’s eligibility for Candidacy.

2. Deadlines

The Rackham Graduate School establishes deadline dates for admission to Candidacy prior to the beginning of each term. Students anticipating meeting the requirements for Candidacy in any given term should check the deadline dates on the Rackham webpage at http://www.rackham.umich.edu/current_students/doctoral_students/phd_students/ and read the ‘Ph.D. students’ section at least two months before the beginning of the term in which they anticipate achieving Candidacy so that the Nomination for Candidacy form can be filed with Rackham. The Candidacy form can be found at https://secure.rackham.umich.edu/OARD/atc/index.php/ATCForm/add. The Doctoral Program Coordinator can provide assistance in completing this form. Students should make an appointment with the doctoral office to complete their candidacy audit in the term prior to meeting the requirements for candidacy to ensure that all conditions have been met.

3. Registration

Attaining candidacy allows students to progress toward their dissertation, lowers their tuition fees and makes them eligible for more grants. As a candidate, the student must enroll full-time in the Fall, and Winter terms by registering for SW 995 (8 cr). To register as a candidate, the student must identify a faculty member with whom to register—usually the student’s advisor or social work dissertation co-chair—then contact the Doctoral Office with a registration request.

3 Benchmark II Council on Social Work Education Commission on Accreditation: Accreditation Standard 3.3—Faculty: M3.3.3. pp. 2
A candidate may elect one additional course per term without paying additional tuition beyond candidacy tuition. This course may be taken for credit or as a visit (audit). A student who does not elect a course during a term of 995 enrollments may elect two courses in the next term of 995 enrollments; no more than one course may be deferred in this manner (an additional course may not be taken in anticipation of taking none in a future term of 995 enrollment). Candidates who choose to take more courses than those for which they are eligible with candidacy tuition will be assessed additional tuition per credit hour.

K. DISSERTATION

1. Goals

The dissertation, required of all students in the Joint Doctoral Program, is intended to demonstrate the Candidate’s ability to investigate a problem relevant to social work or social welfare utilizing as well as contributing to theory and research methods in the social science in which the student has specialized. Within the general definition and standards for the doctoral dissertation specified by the Graduate School, topics shall be recognized as acceptable subject to the approval of the Dissertation Committee selected by the student. It is customary that the dissertation topic deals with the problems of utilization of social science knowledge as well as topics involving empirical research.

2. Committee

The dissertation shall be prepared under a dissertation committee appointed by the Dean of the Graduate School on recommendation of the Director of the Doctoral Program, on behalf of the Supervising Committee for the Doctoral Program.

The dissertation committee shall have at least four members, three of whom are regular members of the Graduate Faculty (i.e., holding a regular or an “unmodified”, not visiting, adjunct, etc., appointment at the University of Michigan as Professor, Associate Professor, or as Assistant Professor with an earned doctorate from an accredited institution). Two of the members shall be from the social science department in which the student is specializing, and two members shall be from the School of Social Work. The committee will have two co-chairs, one holding a regular appointment in social work and one holding a regular appointment in the social science department in which the student is specializing. Joint appointments in social work and one of the allied five disciplines may serve as either the co-chair for the discipline or the co-chair for social work. See the Rackham Graduate Student Academic Policies, section 5.4.3 “Formation of the Dissertation Committee” for additional details.

The dissertation committee is usually nominated after a student has attained candidacy. Faculty advisors can provide consultation about interests and availability of faculty to serve on the student’s committee. Nomination, and approval, of the Committee can also occur

---

4 This applies to all committees formed on or after September 1, 2003.
III.

before the student attains Candidacy; this action does not affect the requirements for attaining Candidacy.

According to Rackham regulations, doctoral students must submit a "Dissertation Committee Form" to the program at least six months prior to the defense. This form requires the approval of the Doctoral Program Director. Therefore as soon as students have selected the members of their dissertation committee and obtained their agreement to serve, they must inform the Doctoral Office by Email. The Office will complete and submit the online Rackham form. If committee membership changes, the student must submit a revised form to the Graduate Project Coordinator prior to the oral defense.

As the Rackham Graduate Student Academic Policies indicates, “The Dissertation Committee is a crucial component of your doctoral degree program, for it is this Committee that will supervise your dissertation activities and will serve as a resource on which you may draw throughout the period of research and writing.” The Dissertation Committee is responsible for approving the student’s dissertation topic, supervising research, conducting an oral examination on the dissertation, and recommending the student to the Graduate School for the PhD degree.

Practice varies as to the specific roles of members and chairperson(s). Students should clarify early in the process: how the committee members wish to function; the ways in which the committee members expect to be involved in the dissertation (e.g., who is to see drafts of any data collection instruments before the data collection begins; who is to be consulted on data analysis strategies, on the organization of the written dissertation, who wants to see drafts of the individual chapters of the dissertation as they are produced; who wants to see a draft only when there is one for the entire dissertation; who wants to see a draft of the entire dissertation before scheduling the oral defense; how much time they typically need between receipt of the entire dissertation and scheduling of orals; whether committee members expect to be on leave or out-of-town for any extended period during which the dissertation will be completed).

Formulation of a dissertation proposal for submission to a dissertation committee should begin as early as feasible in the student’s study in consultation with faculty members. Students must submit the Dissertation Prospectus Hearing Approval Form (Appendix 19) and a copy of their approved dissertation proposal to the Doctoral Office. The student must be a Candidate at the time of the oral defense.

3. Registration for Oral Defense

The defense of the dissertation must occur during a full-term eight-hour Candidacy enrollment. No part of the fee for that enrollment is refundable.

If a Candidate enrolls for a term in which the oral defense is scheduled and does not meet the dissertation deadlines established for that particular term, the student must then register under a subsequent full-term of Candidacy enrollment for the term in
which all final degree requirements are met. Information regarding Rackham policies on dissertations can be found online at: [http://www.rackham.umich.edu/downloads/oard-dissertation-handbook.pdf](http://www.rackham.umich.edu/downloads/oard-dissertation-handbook.pdf)

4. **Preparation and Distribution of Copies**

The *Dissertation Handbook* and a schedule of deadline dates for format checks are available to Candidates in the Dissertation Office, 0120 Rackham Building. An online version is at: [http://www.rackham.umich.edu/downloads/oard-dissertation-format-guidelines.pdf](http://www.rackham.umich.edu/downloads/oard-dissertation-format-guidelines.pdf). The student should submit the required number of copies of the dissertation to the Graduate School and one copy each to the Doctoral Program Office and the Dissertation Committee members. The student should consult the special statements with respect to the doctoral dissertation for the social science department as well as the *Dissertation Handbook*.

**IV. Guidelines for Normal Progress through the Doctoral Program in Social Work and Social Science**

A. **Milestone Completion Goals**

To guide students’ progress through the Joint Program curriculum, the Supervising Committee in conjunction with the joint social science departments has developed detailed timelines and checklists for milestone achievements (*Appendix 1*). In general, students will take three to four years to complete coursework and reach candidacy, they will spend year four completing the social work preliminary exam and developing the dissertation prospectus and will spend years five and six on their dissertation.

B. **Time Limits to Degree Policy for the Joint Doctoral Program in Social Work and Social Science**

Students who enter the Joint Doctoral Program should aim to earn the PhD degree within six years. Students are expected to have achieved candidacy by early September of their fourth year. They are expected to have satisfied all degree requirements, including satisfactory completion of the social work preliminary examination not more than three months after achieving candidacy as well as completion of the dissertation not more than five years after achieving candidacy but not more than seven years after first enrollment in the Doctoral Program.

Failure to achieve candidacy in the required time will typically result in a designation of ‘not in good standing’ and will affect negatively the provision of and/or recommendations for continued financial support. Failure to complete the social work preliminary examination within the specified time period will typically result in a letter to the student and the student’s advisors/chairs advising that unless the examination is completed by the end of the next term, Rackham will be asked to discontinue enrollment.

---

5 Pre-MSW students enter as 16-month students, are provided with summer support in their first year to facilitate work on their MSW degree and can double-count many of their MSW and doctoral requirements.

6 A student who is discontinued loses the right to use University resources and must re-apply for admission.
Failure to complete the dissertation in the overall seven-year timeframe may also result in Rackham being advised to discontinue enrollment. In order to maintain enrollment, students at this stage must submit a request for an extension of time to degree through the Doctoral Office. The Joint Program can request from the Rackham OARD an unconditional one-year extension for students deemed to be making satisfactory progress with the provision of a plan and timeline for completion. An additional one-year extension may be requested subsequently, but students who do not complete the degree after two years of extension may be returned to precandidacy status and required to retake their preliminary examinations. To request an extension of time to degree, students must fill out and submit to the Doctoral Office the Petition for Modification or Waiver of Regulation form located at http://www.rackham.umich.edu/downloads/oard-petition-form.pdf.

In the case of time limits for candidacy, social work preliminary examination and dissertation requirements, students may request additional time for reasons of child care, dependent care, and illness, academic or professional development by submitting a letter to the Director. The letter should explain the reason for the request, describe the work left to be done, and the month and year in which it will be completed. This request should be accompanied by letters from the social work advisor or the social science advisor indicating strong support for the extension. Requests will be reviewed by the Director in consultation with the Supervising Committee, and the student and the student’s advisors notified of the outcome.

V. Academic Good Standing
Revised July 1997.

Both the School of Social Work and the Rackham Graduate School require that students:

• have a cumulative grade point average of at least a B (3.000) for good standing in the program. This is also the minimal performance level required of students. A student who fails to maintain this grade point average will have their record reviewed and action may be taken concerning the student’s future enrollment.
• demonstrate an ability to succeed in the program and
• make satisfactory progress toward the completion of degree requirements within the time limits of the program, including approved extensions.

See the Rackham Graduate Student Academic Policies for further details on academic standing and academic discipline here: http://www.rackham.umich.edu/policies/academic_policies/.

VI. Good Standing Status for Receiving Financial Aid through the Joint Program
Including, but not limited to Rackham funding. Revised April 2011.

Students must be in good standing in the program in order to receive financial aid through the Joint Doctoral Program. Good standing, for purposes of receiving financial aid through the Joint Program, is preserved by:

• having no more than one incomplete at any given time;
• having a GPA 3.00 or above and
• progressing through the program in a timely fashion in accordance with Doctoral Program Guidelines.
VII. General Enrollment Policies and Procedures

A. Academic Advising

Revised August 2014.

The Doctoral Program Director designates a faculty member in the School of Social Work to serve as the student’s first-year social work advisor when the student enters the Program. Whenever possible, that person will be trained in the student’s field of specialization. Each student is also assigned an advisor in their social science department by the graduate chair of that department. Students are expected to consult with their advisors about course selections each term. Advisors will assist students to explore research possibilities within the department and advisors will be informed about courses and faculty interests. It is their advisors’ role to help integrate students into the school and department and their field.

Students and advisors should develop plans for the completion of the program requirements laid out in Section III. The Supervising Committee of the Joint Program therefore strongly recommends that at the beginning of every academic year students and their faculty advisors review the student’s progress and develop an academic plan for the coming year. A table is provided in Appendix 1C to aid students and advisors in their planning. When preparing for the Annual Review of Academic Progress at the end of the winter semester, students and advisors can use this table to reflect on the progress made over the year.

Students are free to change their initial advisor in social work at the end of the first year or any time after the first year. Students can do so by filling out the Change of Advisor form in Appendix 22 and submitting it to the Doctoral Office. Students interested in changing their social science advisors should consult with the graduate chair in their department.

B. Course Options and Alternatives

Students can consult with advisors about course elections and alternative ways of fulfilling doctoral requirements. A request for waiver of a requirement must be initiated by the primary advisor and will be subject to final approval by the Director of the Doctoral Program, on behalf of the Supervising Committee.

At the discretion of the Doctoral Program Director and/or the graduate chair of the social science department, course requirements may be considered as having been met by graduate courses taken at another university. A written petition must be submitted to the appropriate person and a copy of the decision will be kept in the student’s academic records.

Students who are in violation of any one of these criteria should immediately consult with their faculty advisors, and then with the Director of the Doctoral Program. If a student is not satisfied with the Director’s decision regarding continued funding, they have right of appeal to Rackham Graduate School.
C. **Grades**

Letter grades A through E are used for course enrollment, special studies, etc. Grades of + or – may be given when such discrimination is appropriate. In enrollment for individualized courses, special studies, prelim study, internship or dissertation, a grade of Satisfactory (S) or Unsatisfactory (U) may be substituted when other letter grades would be inappropriate. An Incomplete is used in limited circumstances when the unfinished part of the work is small, the student’s standing in the course is a B grade or higher, compelling reasons prevent course completion, and a plan for completion of outstanding work exists and is acceptable to the course instructor. Grades of Incomplete can be changed to letter grades only if the incomplete work is made up by the end of the second full term beyond the term for which the grade of I was given, regardless of enrollment status in subsequent terms and including the Spring/Summer term. The Graduate School establishes dates each semester by which a student must submit the missing work to the instructor and the instructor must submit the grade to the Registrar’s Office for a make-up grade to be posted automatically to the student’s record. (For further details, see Volume I, Chapter 8 of the Student Guide to the Master’s in Social Work Degree Program, and the “General Academic Requirements and Regulations: Grades and Transcripts” in Rackham Graduate School Academic Policies, at http://www.rackham.umich.edu/policies/academic_policies/section4/#45.)

D. **Continuous Enrollment and Registration**

With the implementation of the Rackham continuous enrollment policy in Fall 2010, students must be registered during every fall and winter term until the completion of the PhD unless on an approved leave (see VII.E and VII.F below). Students are not required to register in the spring/summer semesters unless they are making degree progress, e.g. achieving a milestone or taking a course. Students who do not register for a fall or winter term will after written warnings be considered withdrawn and discontinued from the Joint Program and will have to apply for reinstatement in order to register and pursue degree completion again. The reinstatement policy can be read about in detail here: http://www.rackham.umich.edu/policies/academic_policies/section3/#324.

Rackham’s goal for the continuous enrollment policy is to foster stronger connections between graduate programs and their students and to guarantee access to University resources for graduate students throughout their program of study; research shows that such policies increase the likelihood that students will complete their degree. See Appendix 20 for more information about the continuous enrollment policy and applying for Continuous Enrollment Tuition-only Vouchers.

Students should register for their MSW courses through their SW registration appointment. All Rackham courses must be registered for under the Rackham course track and may not be registered for until that appointment time.

Students may take up to 18 credit hours each term. Those wishing to register for an excess of 18 credits in one term must obtain permission from the Associate Dean of Academic Affairs if pre-MSW and from the Director of the Joint Doctoral Program if post-MSW.
A comprehensive list of courses offered through the Doctoral Social Work Curriculum is included in Appendix 5, along with a list of faculty section numbers for the Research Internship, individualized courses or special studies in Appendix 6.

E. LEAVE OF ABSENCE

The Doctoral Program Director and Rackham may grant leaves of absence for up to 12 months at a time. Any student requesting a leave must do so in writing prior to the time period in which the student plans to be absent from the program. Such a request must outline the time period involved and the reason(s) for the leave, which may be medical, family/dependent, or military-related. Personal leaves are granted for one term only. Students must be in good standing at the time of the request.

The Rackham Graduate School advises,

“A student is strongly encouraged to discuss the impact of a leave on the plan of study with the chair or director of graduate studies and the faculty advisor and develop a strategy for completing the degree program. A student should also discuss alternatives to a leave with the chair or director of graduate studies and the faculty advisor. It is important for faculty to have the opportunity to provide advice and counsel about how to manage the intersection of graduate education and personal situations. As an alternative arrangement, a student may remain enrolled but ask for a within-term accommodation that allows a temporary reduction in coursework, research, teaching or other educational responsibilities, or an extension of time allowed for achieving candidacy and completing the degree.”

Requests for an extension of a leave of absence for a maximum of 24 months must also be submitted to the Doctoral Program Director in writing. Students returning from leaves of absence should check with the Doctoral Office prior to enrollment to be placed on active status with the University.

See the Rackham Graduate School Leave of Absence policy for more information on official leaves of absence, alternatives thereto and how to apply for accommodations at http://www.rackham.umich.edu/current-students/policies/doctoral/phd-students/leave-of-absence/overview.

F. ALTERNATIVE OFFICIAL ABSENCES

1. Parental Accommodation

Parental accommodation is available if a student or spouse has given birth or adopted a child under the age of 6. Eligible students must submit a request for parental accommodation along with appropriate documentation prior to the birth or adoption of the child. More information and request forms can be found at https://www.rackham.umich.edu/current-students/policies/parental-accommodation-policy
2. Within-semester Medical Accommodation

Rackham’s Within-semester Medical Accommodation is available to students who have brief illnesses or other health-related difficulties during the term. A student granted a medical accommodation can expect that faculty will make reasonable accommodations for course-related work and other academic deadlines during this time.

3. Extramural Study

For students who enroll, with prior approval by Rackham and the Joint Program Director, at another institution in order to pursue study that is directly relevant to their ability to complete their degree, extramural study status is available. Students are not eligible for extramural study status if they are engaged in fieldwork or are completing an internship without also engaging in coursework. More information about eligibility, stipulations and the application can be found at: http://www.rackham.umich.edu/policies/academic_policies/section3/#321.

VIII. Research with Human Subjects

The University of Michigan complies fully with the federal regulations regarding the protection of human subjects. Students involved in research projects that are federally funded (e.g. NSF or NIH) must complete the requirements for the Responsible Conduct for Research and Responsible Scholarship. The requirements are addressed during SW 800 (part 1) in the fall of the joint student’s first year.

Students proposing to do research with human subjects are required to submit a proposal for IRB approval before any data collection is undertaken. Students may not collect data or recruit subjects until their applications are reviewed and approved. All research internship and dissertation research involving human subjects are subject to these procedures. Complete information for submitting proposals can be found at the IRB Website: http://eresearch.umich.edu/. All proposals must be co-signed by a supervising faculty member.

All graduate students in the program are also required to obtain PEERRS Certification. See the University of Michigan Research website for details: http://research.umich.edu/.

IX. Ethical Standards and Grievances

Students and faculty are expected to maintain high ethical standards in their relationships with one another. The University has established policies and procedures to deal with those instances where either students or
faculty believe there has been a breach of those standards.

The *Graduate School Grievance and Academic Integrity Procedures* provide access to informal and formal address of academically related grievances for Rackham students. Information about the procedures is available at [http://www.rackham.umich.edu/policies/dispute_resolution/](http://www.rackham.umich.edu/policies/dispute_resolution/). The *Graduate School Grievance and Academic Integrity Procedures* define student offenses against standards of academic integrity, list the range of responses that the Graduate School and its faculty may invoke, and set out procedures for determining whether there has been an offense in a particular case.

The School of Social Work has also defined policies and procedures related to academic misconduct such as ethical misconduct, failure to conform to professional social work values and traditions, plagiarism, cheating and so forth. Students in our doctoral program who are enrolled in MSW coursework also have access to the grievance procedures of that School. Those procedures are described in *The Student Guide to the Master’s in Social Work Degree Program*, available at [http://ssw.umich.edu/msw-student-guide](http://ssw.umich.edu/msw-student-guide).

The Doctoral Committee has recognized that joint authorship situations, especially those involving students and faculty, can be problematic. Although the Doctoral Program has not adopted specific standards of appropriate practice relating to joint authorship, the ethical standards of the American Psychological Association and the American Sociological Association appear germane. Relevant portions of these appear in Appendix 13.

Student records are regarded as confidential and are maintained by the School of Social Work and the Doctoral Program primarily to benefit students in their educational and professional advancement. Access by students to their educational records is controlled by the policies and procedures found in the School of Social Work’s *Faculty Handbook*.

Relations between faculty and students should be conducted in ways to avoid conflicts of interest. This is reflected in the School of Social Work’s *Faculty Handbook*, the section regarding Faculty Relations with Students, which states that, “Any financial transactions between faculty and students must be approved by the Dean. Faculty members shall not accept students in the School of Social Work as social work clients.”

### X. **Discrimination and Discriminatory Harassment**

The University of Michigan, as an equal opportunity/affirmative action employer, complies with all applicable federal and state laws regarding nondiscrimination and affirmative action, including Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973. The University of Michigan is committed to a policy of nondiscrimination and equal opportunity for all persons regardless of race, sex7, color, religion, creed, national origin or ancestry, age, marital status, sexual orientation, disability, or Vietnam-era veteran status in employment, educational programs and activities, and admissions. The Office of Institutional Equity ([http://www.hr.umich.edu/oie/](http://www.hr.umich.edu/oie/)) is the University resource for instances of discrimination and harassment by faculty or staff. Policies concerning discriminatory harassment by faculty and staff are available on their website. Inquiries or complaints may be addressed to the staff at the Office for Institutional Equity, 2072 Administrative Services, 1009 Greene Street, Ann Arbor, Michigan 48109-1432, 734-763-0235 (V), 734-647-1388 (TTY), and email *institutional.equity@umich.edu*.

---

7Includes discrimination based on gender identity and gender expression.
Relations among students are governed by the University of Michigan Campus Commitment: “to sustaining a community in which the dignity of every individual is respected. Key to this value are efforts to foster and nurture an environment of civility and mutual respect by preventing discrimination and harassment on our campus” (http://www.hr.umich.edu/oie/cc/about.html). The Campus Commitment prohibits discrimination and discriminatory harassment based on race, ethnicity, religion, sex, sexual orientation, creed, national origin, ancestry, age, marital status, handicap, or Vietnam-era veteran status. Students may discuss concerns of discrimination or discriminatory harassment by a faculty or staff member with staff from the Office of Institutional Equity. Students may also consult with the Academic and Staff HR Services Office. Students who experience discrimination, discriminatory harassment, or sexual harassment by students may consult with the Office of Student Conflict Resolution (http://www.oscr.umich.edu/).

The following examples of discriminatory harassment are taken from the OIE website:

- Denying raises, benefits, promotions, leadership opportunities or performance evaluations on the basis of a person's gender, gender identity or gender expression, pregnancy, race, color, national origin or ancestry, disability, sexual orientation, age, religion, veteran status, height, weight or marital status.
- Preventing any person from using University facilities or services because of that person's gender, gender identity or gender expression, pregnancy, race, color, national origin or ancestry, disability, sexual orientation, age, religion, veteran status, height, weight or marital status.
- Making determinations regarding a person's salary based on gender, gender identity, gender expression, pregnancy, race, color, national origin or ancestry, disability, sexual orientation, age, religion, veteran status, height, weight or marital status.
- Denying a person access to an educational program based on that person's gender, gender identity or gender expression, pregnancy, race, color, national origin or ancestry, disability, sexual orientation, age, religion, veteran status, height, weight or marital status.
- Instigating or allowing an environment that is unwelcoming or hostile based on a person's gender, gender identity or gender expression, pregnancy, race, color, national origin or ancestry, disability, sexual orientation, age, religion, veteran status, height, weight or marital status.

Students who encounter any forms of discrimination or discriminatory harassment are encouraged to discuss the matter with their faculty advisor, the Director of the Doctoral Program, the School of Social Work’s Affirmative Action Officer, or one of several University offices, including the Office of Student Counseling Services, the Affirmative Action Office, the Office of the Ombudsman, the Sexual Assault Preventive and Awareness Center, and the Spectrum Center.

**XI. Scholarships & Fellowships**

**A. SCHOLARSHIPS AND FELLOWSHIPS AWARDED BY THE JOINT DOCTORAL PROGRAM**

Eligibility for these awards is based on student’s merit and previous award history. Each academic year, funding decisions will first be made with respect to three awards: the Henry J. Meyer Scholarship the Vivan A. and James L. Curtis Endowed Scholarship, and the W. K.
Kellogg Family Endowed Scholarship.  Note: students are eligible to receive the Meyer award as well as either the Kellogg or the Curtis award during their time in the Joint Program.

Subsequently, decisions will be made about the other awards (the Rosemary Sarri Scholarship Fund, the Clara P. and Larry E. Davis Scholarship Fund, the Harold T. and Vivian B. Shapiro Prize, the Irene and William Gambrill Fellowship, the Doctoral Program Grant, the Carol Thiessen Mowbray Research Fund, the John F. Longres Award in Sociology or Psychology, and the OGA/Global Social Work Doctoral Grants for International Research).  Note: students will not be eligible for these awards if they received a Meyer, Curtis or Kellogg Scholarship within the same year. In addition, students are not eligible to receive the same award more than once during their time in the Joint Program.

1. **The Henry J. Meyer Scholarship:** The Henry J. Meyer scholarship award was established in 1987 to honor the original and long-time director of the Doctoral Program, Henry J. Meyer, under whose leadership the program was the first doctoral program in social work to integrate fully the intensive study of social work and a social science discipline. The major purposes of this award are (a) to help support and honor students in the Doctoral Program in Social Work and Social Science whose written work exemplifies the goals of the Program in relation to the integration of social work and social science, and (b) to encourage students to prepare such work for possible publication or conference presentation.

   Normally this award will be made annually. Papers submitted by students will be judged by the Supervising Committee on the extent to which they make an original contribution to the empirical or theoretical literature in a manner that integrates social work and social science. Announcements of the policies and procedures for the competition for the awards will be made annually, with applications and papers due in September.

2. **W. K. Kellogg Family Endowed Fellowship:** This award was established by the W.K. Kellogg Foundation along with matching funds provided by the Ann and Robert Lurie Family Foundation. It is awarded to students in the Joint Doctoral Program in Social Work and Social Science with a research interest in advancing the understanding of issues relevant to improving the well-being of children, youth and their families. Submissions for this award will be due in September.

3. **Vivian A. and James L. Curtis Endowed Scholarship for Doctoral Student Research:** This Scholarship was established by James L. and Vivian A. Curtis. It supports doctoral students whose research focuses on minority populations with low income and education, with a preference for research on issues faced by African American males. Submissions for this award will be due in September.

4. **The Rosemary Sarri Scholarship Fund:** The Rosemary Sarri Scholarship Fund was established to honor Professor Emerita Rosemary Sarri and her longstanding commitment to social justice. The major purpose of this scholarship is to provide financial support for students enrolled at the School of Social Work, at either the doctoral or master’s level, whose past work, current studies, or future career goals are likely to contribute to the advancement of knowledge in social policy or community organization. This scholarship will be awarded annually based on students' applications, vitae, and letters of recommendation. Financial need shall be the primary selection criterion. Applications will be made available Fall Term, with a due date of early December for submission.
5. **The Clara P. and Larry E. Davis Scholarship Fund**: This annual award is given to a PhD student whose research focuses on poverty and social justice. Submissions are due in the Doctoral Office by early December.

6. **The Harold T. and Vivian B. Shapiro Prize**: The purpose of this award is to recognize the distinguished achievement of a student in the MSW or PhD program. This is awarded every other year to a doctoral student with submissions due to the Doctoral Office by early December.

7. **The Irene & William Gambrill Fellowship**: This award is given to one or more students whose interest is in minority populations with low income and education, with a preference for research on integrating practice, research, and ethical issues. Submissions are due in the Doctoral Office by early December.

8. **Doctoral Program Grant**: This is an award to support outstanding doctoral students. Applications are due by mid-December.

9. **The Carol Thiessen Mowbray Research Fund**: This fund will be used to support research expenses for doctoral students. Preference will be given to students in the School of Social Work Joint Doctoral Program whose research addresses an area of community-based care with a focus on psycho-social education, rehabilitation, and social integration for those dealing with chronic mental illness. Applications are due in late November.

10. **The John F. Longres Award**: This award is to be used to provide an annual scholarship to one or more School of Social Work doctoral students who are joint with Psychology or Sociology whose research focuses on social psychological issues as they relate to social work practice with individuals, families, groups, communities, organizations, or policy. Applications are due in late November.

11. **OGA/Global Social Work Doctoral Grants for International Research**: This grant is intended to support international research initiatives and may be either pre-dissertation or dissertation related. Applications are due in late November.

12. **Joanne Yaffe Doctoral Fellowship**: This fellowship is to provide support for a PhD Student with a preference for students from underrepresented groups working on translational research on improving the quality of social work interventions. Applications are due in late November.
B. SCHOLARSHIPS AND FELLOWSHIPS AWARDED BY THE OFFICES AT THE UNIVERSITY OF MICHIGAN

The Rackham Fellowships Office provides graduate programs and their prospective and current students with information about fellowship opportunities and other available sources of funding. In turn, the Doctoral Office notifies students of upcoming application opportunities. The listing below is provided as an overview of these opportunities. A listing of these fellowships with detailed application procedures, award stipulations and links to online applications can be found at https://secure.rackham.umich.edu/Fellowships/support/list.php.

Awards and fellowships administered by the Rackham Graduate School follow one of two application processes: Students may apply for an award directly or they may seek nomination from their department. In the latter case, all application materials are submitted to the Program Coordinator in the Doctoral Office, who will complete and submit the application on the student’s behalf.

Application tips, general funding information, cost-sharing policies and alternative funding opportunities, can be found at http://www.rackham.umich.edu/funding/.

1. Student-initiated applications
   a. King-Chavez-Parks Initiative, Future Faculty Program
      http://www.rackham.umich.edu/funding/from_rackham/student_application/king_chavez_parks/
      i. History and Purpose
         The King-Chavez-Parks (KCP) Future Faculty Fellowship Program is funded by the State of Michigan and is intended to increase the pool of traditionally underrepresented candidates pursuing faculty teaching careers in postsecondary education. Preference may not be given to applicants on the basis of race, color, ethnicity, gender, or national origin. Applications are encouraged from minorities, women, people with disabilities, and individuals from cultural, linguistic, geographic, and socio-economic backgrounds who would otherwise not adequately be represented in the graduate student and faculty populations.
      ii. Eligibility
         To be eligible, an applicant must be:
         - Admitted to study in a master's or doctoral program at the University of Michigan.
         - In good academic standing.
         - Not currently a recipient of a KCP Initiative Fellowship Award at another institution.
         - Have not received another KCP Fellowship award for the same degree level (master's or doctorate).
         - Not currently in default status on any guaranteed student loan and/or a KCP Loan.
         - A citizen of the United State
         - A resident of the State of Michigan who meets the University of Michigan’s Requirements for residency.
         - Planning and able to teach in postsecondary education.
      iii. Deadlines
         Ongoing
      iv. Award Description
The amount of the KCP Future Faculty Fellowship Award will depend on the student’s financial needs. The maximum available award is $20,000 for master’s students and $35,000 for doctoral students. The award can be used as a stipend or to help pay tuition.

b. Lurcy Fellowship for Study in France
   http://www.rackham.umich.edu/funding/from_rackham/student_application/lurcy_fellowship/
   i. History and Purpose
      The Georges Lurcy Charitable and Educational Trust seeks to promote friendship and understanding between the peoples of the United States and France and, secondarily, between Americans and Europeans in general. This is achieved by supporting scholarly activities and exchanges which allow members of one society to learn more about the people and civilization of the other society.
   ii. Eligibility
      - The student must be a US citizen or permanent resident of the United States. Applicants should be graduate students whose academic objectives would benefit from this experience.
      - The Lurcy Fellowship invites applications from a broad range of disciplines, without any preferences as to any field of study or department.
   iii. Deadline
      October 9, 2014
   iv. Award Description
      The award is a stipend in the amount of $25,000.

c. Rackham Conference Travel Grant
   http://www.rackham.umich.edu/funding/from_rackham/student_application/rackham_conference_travel_grant/
   i. History and Purpose
      The Rackham Conference Travel Grant is intended to provide opportunities for Rackham graduate students to become familiar with, and participate in the life of, their academic professions. As part of its University-wide commitment to advancing international research and training, the International Institute provides funding for 30 awards to international destinations. The remainder of the funding comes from Rackham. You must submit your applications before the first day of the conference for travel through the end of the final term of registration. The conference may occur anytime up through your final semester of registration. Applications will not be considered for retroactive funding.
   ii. Eligibility
      Graduate students are eligible to apply for a Rackham Conference Travel Grant award if:
      - The graduate student is in good academic standing in a Rackham degree granting program
      - The student has responded to a formal call for abstracts.
      - The student has been accepted to present a poster or paper at a conference.
iii. **Deadline**
   Ongoing. Complete applications, including the letter of recommendation, must be received before the first day of the conference.

iv. **Award Description**
   A student is eligible to receive one travel grant award (either domestic or international, but not both) during a fiscal year which runs from July 1 – June 30, based on the date the conference is attended. Depending on the destination, a student may receive between $700 and $1,200.

d. **Rackham Graduate Student Research Grant**
   [http://www.rackham.umich.edu/funding/from_rackham/student_application/graduate_student_research_grant/](http://www.rackham.umich.edu/funding/from_rackham/student_application/graduate_student_research_grant/)
   i. **History and Purpose**
      The Rackham Graduate Student Research Grant is designed to support Rackham graduate students who need assistance to carry out research that advances their progress toward their degree. The grant is intended to defray costs of conducting clearly defined research projects.
   
   ii. **Eligibility**
      Graduate students are eligible to apply for a Rackham Graduate Student Research Grant if:
      
      ▪ The graduate student is in good academic standing in a Rackham degree-granting program
      ▪ The proposed research project or activity directly relates to and helps achieve progress toward his or her degree.

      A doctoral student is eligible for two Rackham Graduate Student Research Grants during his or her graduate program, one before candidacy and one as a candidate.

   iii. **Deadlines**
      Ongoing, applications are accepted at any time and reviewed individually on a rolling basis by faculty reviewers.

   iv. **Award Description**
      Pre-candidates are eligible for an award up to $1,500 and candidates are eligible for an award up to $3,000.

e. **Rackham International Research Awards (RIRA)**
   [http://www.rackham.umich.edu/funding/from_rackham/student_application/international_research_awards/](http://www.rackham.umich.edu/funding/from_rackham/student_application/international_research_awards/)
   i. **History and Purpose**
      This award supports doctoral students conducting degree-related research outside the United States and Puerto Rico.

   ii. **Eligibility**
      Preference will be given to doctoral students who will have reached candidacy by September 2014 and have an approved dissertation topic, and students in terminal master's programs who have a non-course related research project required for their
Students of any citizenship may apply. Students may not apply exclusively for language training, but may submit proposals that combine language study with research. The grant may not be used for the purchase of equipment or software. Students with external research fellowship support may apply, but must demonstrate convincing need for additional funding. RIRA is a one-time only award.

iii. Deadline
February 2, 2015

iv. Award Description
It is expected that up to thirty-five awards will be made, averaging about $7,000 each. The maximum award amount is $10,000. Funding will be available for use no earlier than April 2015.

f. Harold and Vivian Shapiro/John Malik/Jean Forrest Awards
http://www.rackham.umich.edu/funding/from_rackham/student_application/shapiro_malik_forrest/

i. History and Purpose
These awards were established by Harold T. Shapiro, former President of the University of Michigan, and Vivian Shapiro, former faculty member at the University of Michigan, to assist graduate students with interest payments on unsubsidized educational loans. Dr. John Malik, a devoted Rackham alumnus in Physics, established an endowment for the same purpose. Jean Forrest earned her master’s degree from Rackham in 1976, and in gratitude for her education, established an endowed fund to support graduate students with financial need. All three awards are made through a single competition.

ii. Eligibility
Full-time students in any Rackham degree program may apply. Students must have completed one full term before the fellowship deadline. Awards are intended to assist with interest charges accruing on education loans that must be paid while a student is in graduate school. U.S. citizens or permanent residents with $10,000 or more in unsubsidized educational loans (both private and federal) will be given first consideration.

iii. Deadline
October 9, 2014

iv. Award Description
The maximum award will be $1,000 per student.

2. Department-submitted nominations

a. Barbour Scholarship
http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/barbour_scholarship/

i. History and Purpose
In 1914 the bequest of Levi L. Barbour established a scholarship program at the University of Michigan for women of the highest academic and professional caliber from the area formerly known as the Orient (encompassing the lands extending from Turkey in the west to Japan and the Philippines in the east) to study modern science, medicine, mathematics and other academic disciplines and professions critical to the development of their native lands.

ii. Eligibility
Any graduate program in any school or college of the Ann Arbor campus—whether or not
such programs are in Rackham—may nominate one student each year. Nominees must be citizens of countries in the area formerly known as the Orient (encompassing the large region extending from Turkey in the west to Japan and the Philippines in the east). In addition, nominees:

- must not be permanent residents or citizens of the United States and not married to permanent residents or citizens of the United States;
- must intend to devote themselves to a professional career in their native countries after graduation;
- must be enrolled full-time in a master's or doctoral program at the University of Michigan;
- must have completed two full semesters of graduate work at the University of Michigan before beginning tenure as a Barbour Scholar; and
- must be in residence on campus as a full-time student during the tenure of the award.

iii. Deadlines

- Department deadline: Wednesday, December 10, 2014
- Rackham deadline: Thursday, January 15, 2015

iv. Award Description

5-8 awards, depending upon the availability of funds, are available. Awards cover full tuition and required fees, stipend of $18,600 (currently) for one academic year (fall and winter terms), GradCare health and dental (option 1) during the tenure of the fellowship. Students may receive only one award. Awards are non-renewable.

b. Debt Management Awards

http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/debt_management_awards/

i. History and Purpose

The Debt Management Awards were established by anonymous donors to encourage Rackham doctoral students to pursue public interest careers upon completing their graduate degrees. This award is designed to lighten the financial burden for students with sizeable loan debt who will pursue public interest careers.

ii. Eligibility

Students who are enrolled full-time and have reached candidacy in the Joint Doctoral Program. Students must have spent at least 2 years in community service prior to beginning graduate school; must intend to return to public service careers in the United States upon graduation; and must carry student-related debt accrued during the undergraduate and/or graduate years. Participating graduate programs may nominate no more than three students.

iii. Deadline

- Department deadline: February 25, 2015
- Rackham deadline: April 2, 2015

iv. Award Description

At least four one-time awards of up to $10,000 will be made. Payments will be issued after July 1.

c. Mary Malcomson Raphael Fellowship

http://www.lsa.umich.edu/psych/grad/funding/fellowships/info/?id=95

i. History and Purpose

The fellowship was established in 1985 and is provided by the Center for the
XI.

Education of Women (CEW). It is intended as an award of high distinction and is presented to women held in the highest esteem by their faculty. It is provided through an endowment established by the late Margaret Earhart Smith in recognition of Ms. Raphael, who, by personality and action, “evoked power in people above and beyond their ordinary capacity.

ii. Eligibility

Women graduate students, most often candidates, enrolled for the 2014-2015 academic year in a social science or humanities doctoral program in the College of Literature, Science and the Arts who have completed at least four terms at the University of Michigan at the time of application.

iii. Deadlines

- Department deadline: January 9, 2015
- CEW deadline: February 27, 2015

iv. Award Description

Award amount for one year is determined by individual need. It is the intent of the donor that the fellowship provide tuition and essential living expenses without sacrifices of the fellow’s time, such as through employment.

d. Susan Lipschutz, Margaret Ayers Host and Anna Olcott Smith Awards

http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/lipschutz_host_smith/

i. History and Purpose

The Susan Lipschutz Fund for Women Graduate Students was established to honor the memory of Dr. Susan Lipschutz, former Senior Associate Dean of the Graduate School and Associate Provost for Academic Affairs. Many people in the University community esteemed Susan Lipschutz as a valued colleague, mentor and friend, and as an advocate committed to the support of women students as they pursued their doctoral degrees. The Susan Lipschutz Fund recognizes and supports promising women scholars.

Margaret Ayers Host received a Rackham degree in 1942. She studied at Oxford, was President of the Alumni Association, Chair of the Alumnae Council, member of the Board in Control of Intercollegiate Athletics, and a member of the Rackham Board of Governors. The Margaret Ayers Host Award was established to honor her remarkable contributions as a woman scholar and to the University of Michigan community.

Ella Smith Avery made a gift in 1938 in order to honor the memory of her mother and to support women graduate students at the University of Michigan. According to the terms of the gift, the Anna Olcott Smith Fellowship Endowment is intended to aid women graduate students who show “promise of the development of useful original ideas.”

ii. Eligibility

Any Rackham doctoral program may nominate only one student for the combined competition. Nominees must be women actively pursuing a doctoral degree who have achieved candidacy by the application deadline. Students may receive this award only one time.

iii. Deadlines

- Department deadline: January 2, 2015
- Rackham deadline: January 29, 2015
iv. **Award Description**
   At least six $6,000 awards will be made for Spring/Summer support. Based on the availability of funds, additional awards may be made during the competition process.

e. **Rackham International Students Fellowship**
   [http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/international_student_fellowship/](http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/international_student_fellowship/)

   i. **History and Purpose**
      The Rackham International Student Fellowship assists outstanding international students, particularly those who may be ineligible for other kinds of support because of citizenship.

   ii. **Eligibility**
      Any Rackham program on the Ann Arbor campus may nominate up to two international graduate students who have successfully completed one year of graduate study and are in good academic standing as a master’s or pre-candidate student. Preference will be given to students who do not have other sources of funding. U.S. citizens and permanent residents are not eligible.

   iii. **Deadlines**
      - Department deadline: September 15, 2014
      - Rackham deadline: October 9, 2014

   iv. **Award Description**
      Awards of $10,000 may be used as stipend or tuition. Students may receive this award only once.

f. **Rackham Pre-doctoral Fellowship**
   [http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/predoctoral_fellowship_program/](http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/predoctoral_fellowship_program/)

   i. **History and Purpose**
      The Rackham Pre-doctoral Fellowship supports outstanding doctoral students who have achieved candidacy and are actively working on dissertation research and writing.

   ii. **Eligibility**
      Any doctoral program in the Rackham Graduate School may nominate doctoral candidates for this award. To be eligible, students must be advanced to candidacy by Rackham Academic Records and Dissertations no later than January 16, 2015 (for Winter 2015 or earlier). Preference will be given to nominees who are on track to complete their degrees within six years, excluding time spent on any Rackham approved leave of absence.

   iii. **Deadlines**
      - Department deadline: December 1, 2014
      - Rackham deadline: January 15, 2015

   iv. **Award Description**
      Seventy-two (72) Rackham Predoctoral Fellowships will be available for 2015-16. Approximately 240 students are nominated each year. The fellowship provides three terms of support that may begin with Spring/Summer or Fall term 2015. Rackham Predoctoral Fellows are expected to work full-time toward the completion of degree requirements throughout the period of the award. Fellowships include a stipend of $29,280(currently), candidacy tuition and required fees for of twelve months. GradCare health and dental insurance will be provided during the fellowship period. Students may receive only one award.
g. **Robert Kahn Fellowship for the Scientific Study of Social Issues**
   http://www.isr.umich.edu/home/education/kahn.html
   
   i. **History and Purpose**
   The Robert Kahn Fellowship for the Scientific Study of Social Issues is offered by the Institute for Social Research (ISR). The Fellowship fund was established by the students, colleagues, family and friends of Robert Kahn to honor his lifelong commitment to using the best social science to generate new insights on major social problems and point toward their solutions. The Kahn Fellowship was created in this spirit.
   
   ii. **Eligibility**
   Applicants must be candidates, eligible to accept the fellowship and after receiving the funds, must plan to finish their PhD program within a year.
   
   iii. **Deadlines**
   - Department deadline: Monday, January 26, 2015
   - ISR deadline: Friday, February 27, 2015
   
   iv. **Award Description**
   The Fellowship will cover tuition and GradCare and will include a stipend of $25,000. In most instances the term of the award will be limited to 12 months. If departmental, collegiate or extramural monies complement the ISR award, the term may be extended up to a total of 24 months, but this is discouraged.
   
   h. **Yossi Schiff Memorial Scholarship Fund**
   http://www.rackham.umich.edu/funding/from_rackham/program_nomination_or_allocation/yossi_schiff_memorial_scholarship_fund/
   
   i. **History and Purpose**
   The Yossi Schiff Awards assist outstanding international students. Yossi Schiff received his bachelor's degree from the University of Michigan in 2005. Born in Israel and proud of his Jewish heritage, Yossi was an enthusiastic traveler who enjoyed his sojourns in Africa and Southeast Asia. This award honors his memory—his open mind and kind heart, the concern he showed for others, and his passion and curiosity in life. Designed to promote international understanding and offer an educational opportunity to foreign graduate students in need, the Yossi Schiff Memorial Scholarship Fund is a fitting tribute to a young man who cared deeply for the world around him and tried to foster values of mutual respect between people, cultures and nations.
   
   ii. **Eligibility**
   Joint Doctoral students with F-1 or J-1 visas from a list of eligible countries may apply.
   
   iii. **Deadline**
   - Department Deadline: March 13, 2015
   - Rackham Deadline: April 13, 2015
   
   iv. **Award Description**
   One stipend award of $25,000 will be made. A student may receive only one Yossi Schiff award, but in extraordinary circumstances a student may be considered for a second award. In no circumstances will a student receive more than two awards.
XII. Funding Through the Joint Doctoral Program

A. **Doctoral Fellowships**: All admitted students are funded through Doctoral Fellowships, Rackham Merit Fellowships, or Rackham Regents Fellowships. While a student is receiving this funding, he/she will receive tuition, stipend and Gradcare as stated in his/her funding letter or agreement. A student may not work external to his/her Doctoral Fellowship more than 10 hours per week when receiving these fellowships.

B. **Personal Debit Accounts**: Each student upon admission receives funds in his/her personal debit account. The funds are to be used for travel and for dissertation and research expenses. Each student may use the money in their “account” during their tenure in the Joint Doctoral Program, as long as he/she is making good progress and is in good standing. No more than $400 per year may be used without special permission from the Director. Once your account balance has been depleted, your account will be considered “closed”. Full details can be found in Appendix 15.

C. **Summer funding** may be available to students to enable them to carry forward their program of study. These Social Work funds are intended to provide supplementary support for living expenses or payment for health care. They are available to students in good standing who are progressing through their program of study in a timely manner. The Doctoral Office will assume that in applying for summer funds, students will have pursued other sources of funding. Funds will not be awarded for tuition payments. Students who have other sources of funding (min: 40% GSRA, 40% GSI, 20 hours of temp. work, grant funds, first-year students with tuition support for spring/summer MSW coursework) for spring and/or summer terms are not eligible. If funds are available, application procedures for summer funding will be announced in late February or early March of each year.

D. **Social Work Research Partnership**: This fund promotes partnership arrangements between students and faculty in the School of Social Work to work on existing research projects or develop and implement new ones. The program funds up to 50% of a half-time research partnership each summer for a maximum of four months. To receive research partnership funds, a student must identify a social work faculty member who can provide matching funds toward the award. Instructions for applying for these funds are in Appendix 18.

E. **Social Work-Social Science Research Partnership**: This fund promotes partnership arrangements between students and faculty in allied social sciences working on existing research projects or developing and implementing new ones. The program funds a limited number of doctoral students with research partnership funds during spring/summer term. To receive research partnership funds, a student must identify a social science faculty member who can provide matching funds toward the award. Instructions for applying for these funds are in Appendix 17.

F. **Rackham One-term Dissertation Fellowships**: The Joint Doctoral Program in Social Work and Social Science is given six (6) Rackham One-term Dissertation Grants per academic year. Students apply in late May for the following academic year. Nominations are sent by the Doctoral Office on students’ behalf and their applications will be adjudicated in the summer on a competitive basis. This is a one-time, final-term grant including candidate tuition, GradCare and stipend, and once students have received this grant, they will not be eligible for further funding. For further details, please visit
XIII. Health Care Coverage

A. GRADCARE and INSURANCE

All Graduate Students are eligible for medical and dental insurance. When students are on fellowship funding, their medical insurance is GradCare. For a brief overview of GradCare, please go to the following website: http://www.uhs.umich.edu/gradcare

New students will be automatically enrolled in GradCare and Dental Option 1 beginning September 1, 2014. The Benefits Office will send an email to new enrollees with instructions on how to elect additional benefits. Students are required to complete online benefits selections within 30 days of their first day of eligibility or they will receive the default insurance option. If you are a Pre-MSW student, gradcare is covered for Fall, Winter, and Spring term for the first year. For Post-MSW students, gradcare is covered for Fall and Winter term only.

Graduate students who receive Continuous Enrollment Tuition Fellowship during Fall, Winter or for both terms will receive healthcare benefits (gradcare). The healthcare benefits is provided for the term(s) of the fellowship.

When students are employed (as a GSI, GSRA or GSSA), they are eligible for any medical coverage through the Benefits Office. The Benefits Office will send an email to newly appointed students with the additional coverage options.

Information about benefit eligibility can be found on the following website: http://benefits.umich.edu/benefitgroups/grads.html For more information regarding benefits, feel free to contact the Benefits Office at 615-2000 locally, or 1-866-647-7657, or benefits.office@umich.edu.

B. FAQs About COBRA Continuation Coverage under University of Michigan Group Health Plans

Once your gradcare has ended, you may apply and pay for group continuation coverage, COBRA (Consolidated Omnibus Budget Reconciliation Act), directly to the University of Michigan, but you must do so within the time limits allowed by law. Please contact the Benefits Office at (734)615-2000 or 1-866-647-7657, or benefits.office@umich.edu for more information about COBRA.

What is COBRA?
COBRA, the Consolidated Omnibus Budget Reconciliation Act, was enacted in 1985. It mandates that most employers offer continuation group health care coverage to plan participants and certain family members for...
18, 29 or 36 months, at group rates; where coverage might otherwise end, such as with a voluntary or involuntary separation from employment, a reduction of hours worked, the death of an employee, or a divorce.

Who is eligible for COBRA continuation of benefits?
If you and any eligible dependents were enrolled in a Group Health Plan at the time you or your dependents became ineligible for benefits, then each of you is eligible for COBRA continuation of benefits. You and each eligible dependent have the option to make an independent election for COBRA continuation of benefits. For example, you and your spouse may choose to elect only medical coverage for you and only dental coverage for your spouse.

How do I apply for COBRA?
COBRA information and an election form will be mailed to eligible participants when the University of Michigan is aware of the qualifying event, such as your termination of employment or when a dependent child reaches the maximum age of eligibility. For other qualifying events, such as divorce or ineligibility of a dependent other than a dependent child, you must notify the University in writing within 60 days of the qualifying event in order to receive a COBRA election form.

What is considered a Group Health Plan?
The University’s medical, dental, vision and Health Care Flexible Spending Account (FSA) plans are all considered group health plans. However, you may continue only those plans in which you were enrolled on the date of your loss of eligibility. For example, if you were enrolled in a PPO plan and the vision plan, you may continue either or both of those two plans. You would be ineligible to elect participation in a dental plan, and ineligible to change to your medical plan, until the next annual Open Enrollment period. If you were enrolled in the Flexible Spending Account plan, you have options to maximize the use of your account balance to reimburse yourself for qualified expenses.

When does COBRA coverage begin?
COBRA is effective the day after your benefits or your dependents’ benefits termination date, pending the receipt of a timely election and payment of premiums. For example, if your divorce is final on November 28, your ex spouse’s coverage will end on November 30th, and your ex spouse’s COBRA coverage will be effective on December 1, pending the receipt of a timely election and payment of premium.

What if I need medical services before my coverage is effective?
You may be required to pay out of pocket for services. If so, you should contact your insurance company for possible reimbursement procedures once your coverage is effective.

What happens to the money I have remaining in my Flexible Spending Account if I don’t elect COBRA?
This money is forfeited unless COBRA is elected. Remember that you can submit any claims incurred up to your coverage end date.

How long does COBRA coverage last?
The length of your COBRA continuation coverage (18, 29, or 36 months) depends on the type of qualifying event that led to your COBRA eligibility. However, if you have a healthcare Flexible Spending Account and you elect to continue the account under COBRA, it will end on the last day of the plan year in which the Qualifying Event occurred.

I’m leaving the University for another job but there is a three month waiting period before my new coverage begins. If I elect COBRA, how much do I pay?
When you were an active employee, the University may have paid part of your group health premiums. Under COBRA, as a former employee no longer receiving benefits, you will pay the entire premium amount, that is, the portion of the premium that you paid as an active employee and the amount of the contribution made by the University. In addition, there will be a 2 percent administrative fee. While COBRA rates may seem high, you will be paying group premium rates, which are usually lower than individual rates. Since it is likely that there will be a lapse of a month or more between the date of termination and the time you elect COBRA and remit your first premium, you may have to pay health premiums retroactively from the time of separation from the University. The first premium, for instance, will cover the entire time since your last day of employment with the University. You should also be aware that it is your responsibility to pay for COBRA coverage even if you do not receive a monthly statement.

C. U-M International Student/Scholar Health Insurance Requirement and Enrollment Process

If you are an F-1 or J-1 student or J-1 scholar and your Form I-20 or Form DS-2019 was issued by the University of Michigan (Ann Arbor), you must have health insurance that meets U-M requirements for yourself and any accompanying F-2 or J-2 dependents during the entire time you are a F-1 or J-1 student or scholar at the University of Michigan. In order to meet U-M requirements, your health insurance must, in the judgment of the University, provide coverage that is at least comparable to the coverage provided by the U-M International Student/Scholar Health Insurance (IHI) Plan Brochure.

http://internationalcenter.umich.edu/healthins/ISS_Health_Insurance_Brochure.pdf

In order to be considered “comparable coverage”, an insurance plan must, at a minimum, meet all of the University of Michigan (Ann Arbor) Health Insurance Standards.

Enrollment Process
If your Form I-20 or DS-2019 was issued by the University of Michigan (Ann Arbor), you will attend a Required Check-In program when you arrive in Ann Arbor. As soon as you have completed the mandatory check-in process, you and your accompanying F-2 or J-2 dependents will be automatically enrolled in the U-M International Student/Scholar Health Insurance Plan through the end date on your Form I-20 or DS-2019, so that you can be certain that you are covered by adequate health insurance. Your International Student/Scholar Health Insurance Plan coverage will begin on the check-in date.

If you are or will be eligible for health insurance benefits administered by the U-M Benefits Office, or if you would like to use other insurance coverage instead of the University of Michigan International Student/Scholar Health Insurance Plan, please refer to Alternatives to the U-M Health Insurance Plan http://internationalcenter.umich.edu/healthins/alternatives.html

If you have any questions about International Health Insurance, please contact the International Center at (734) 647-2181 or by email at ihi@umich.edu.

D. GSI/GSSA/GSRA

Employed GEO members (Graduate Student Instructors and Graduate Student Staff Assistants) who are participating in the University Benefit plans during winter term and either:
   a. will be re-employed to a benefit eligible Graduate Assistant appointment for the following fall term or,
   b. were employed during the previous fall term and have not graduated, are eligible for
University contributions during the spring/summer terms.

Graduate Student Research Assistants (GSRAs) are also eligible for University contributions over the spring/summer terms if they are participating in the University Benefit plans during the winter term and will be re-employed as a benefit eligible Graduate Assistant for the following fall term. The provision, listed under b. above, does not apply to GSRAs.

XIV. Sources of Emergency Assistance

A. Social Work Emergency Funds:

I. Joint Doctoral Program Emergency Funds: Intended to help Joint Doctoral students in good standing deal with one-time, emergency expenses that are (1) unforeseen, (2) beyond the student’s control, and (3) not covered by other funding programs. Appendix 16 contains additional information regarding conditions, amounts available and how to apply. Normally, awards will not exceed $300.00.

II. Doctoral Scholarship for Underrepresented Students: This fund provides support to doctoral students who meet one or more of the following criteria and who demonstrate unmet financial need due to a life crisis or some other foreseeable circumstance. A student may receive support from this fund in the amount of $1,000.

• come from an educational, cultural or geographic background that is underrepresented in graduate study in their discipline in the United States or at the University of Michigan;
• have demonstrated commitment to diversity in the academic, professional, or civic realm through their work experience, volunteer engagement, or leadership of student or community organizations. By diversity, we mean efforts to reduce social, educational or economic disparities based on race, ethnicity or gender, or to improve race relations in the U.S.;
• have experienced financial hardship as a result of family economic circumstances;
• are first-generation U.S. citizens or are the first generation in their families to graduate from a four-year college

B. Rackham Graduate Student Emergency Funds: The Rackham Graduate Student Emergency Fund is intended to help meet the financial needs of Rackham graduate students who encounter an emergency situation or one-time, unusual, or unforeseen expenses during their degree program. Situations eligible for funding include such events as health-related emergencies, major accidents and expenses related to the illness or death of an immediate family member. Normal living expenses such as rent, car repairs, child care, and utilities are generally not considered emergency situations. Exceptions may be made for extraordinary circumstances.

Students must be in good academic standing in a Rackham degree program. Rackham graduate students are limited to two (2) Emergency Fund awards. PhD students on an approved leave of absence can apply for Rackham Graduate Student Emergency Fund awards as described above when an emergency situation is encountered during their period of leave that would interfere with their ability to return to active study as planned. They are eligible if they were in good academic standing at the beginning of the period of leave and have an approved plan for their return to active study at the conclusion of the leave.

Awards may be up to $2,500. For students who qualify for need-based financial aid, an emergency award may reduce original loan amounts. Please contact the Office of Financial Aid at financialaid@umich.edu or at 734-763-6600 for help in evaluating your individual circumstances and visit http://www.rackham.umich.edu/funding/from_rackham/student_application/graduate_student_emergency_funds/ for additional information.
C. **Center for the Education of Women (CEW):** The CEW awards small emergency grants to graduate students and nontraditional undergraduates, including parents and returning students, who face serious and unexpected financial problems. To apply for a "critical difference" grant, call (734) 998-7210 to make an appointment with a counselor.

D. **University Emergency Loan (EULoan):** The Office of Financial Aid (OFA) provides short-term emergency loans, from amounts of $100 to $1,000. Students are eligible if they have no financial or academic holds on their accounts and if they have not received an EULoan in the 90 days prior to their application.

Applications are processed through Wolverine Access. After selecting ‘Student Business’, click on ‘Short Term University Loan’ within the ‘Financial Information’ section and select ‘Apply for an EULoan’. Students are notified of approval or denial online. There is a $10 processing fee for an approved loan and the loan is provided interest-free if it is repaid within 90 days. Disbursement may take up to two business days.

E. **Office of Student Services (OSS) Emergency Loan:** For students in the MSW program, OSS offers a last-resort source of emergency assistance. If an MSW student in an emergency situation has been denied an EULoan, they may obtain and submit an OSS Emergency Funds application in the Office of Student Services.

**XV. Job Search Activities by Graduating Students**

The Doctoral Program is committed to assisting its students in obtaining appropriate jobs upon graduation. Each year the Doctoral Director organizes a Job Club for students who plan to graduate within the next 18 months. The Job Club consists of workshops to help students identify sources of information on job interviews, prepare a curriculum vitae, prepare for job interviews, and use the faculty at the University of Michigan to assist in job-searching. The Doctoral Office keeps a file of job announcements received in the Doctoral Office; distributes brief summaries and CV’s describing the qualifications of students in the job market to all deans of graduate schools of social work; and organizes practice job talks. At the beginning of the fall term, students can submit a copy of their CV, a research statement and a teaching statement to be included in a promotional email that is sent to all deans and directors of social work programs and a number of social science departments in the US and Canada.

The job search is usually a time-consuming activity and is more successful when undertaken in a carefully considered manner. Students who expect to be in the job market are strongly encouraged to consult with their faculty advisors and the Doctoral Program Director well in advance of commencing such activities. The Career Center at the University of Michigan ([http://careercenter.umich.edu/content/phd-students](http://careercenter.umich.edu/content/phd-students)) provides excellent resources tailored for graduate students interested in both academic and non-academic careers. Students interested in non-academic careers are also encouraged to participate in programs and resources provided by the Career Center in the Office of Student Services at the School of Social Work.

University of Michigan
School of Social Work

Joint Interdisciplinary Doctoral Program in Social Work and Social Science

1. Completion Goals for Doctoral Program Requirements

These tables provide information on goals for completing the various program requirements from the student’s first date of entry into the Program. While they provide detail for social work and each joint area, students should always refer to their joint department’s guidelines and speak to their department’s director of graduate studies when clarification or additional information is required. The Doctoral Program strongly encourages the student to meet these requirements as expeditiously as possible. Experience has shown that many students are able to complete their requirements well within the expected time of completion. Yet, the Program recognizes that these guidelines may need to be adapted to the student’s academic background, particular circumstances, and special interests. The required program components overlap and are not intended to necessarily satisfy the stated sequence.

These guidelines are used by the Supervising Committee as a rubric in the annual evaluation of students’ progress and academic good standing status, as defined in Sections V and VI. However, the assessment of student progress also includes the consideration of comments provided by both students and their faculty advisors on the Annual Evaluation of Academic Progress questionnaire, which is sent out at the end of each winter term. The Supervising Committee provides feedback to students based on this evaluation.

The student and the advisor should develop plans for the completion of the program requirements within the framework of these guidelines. Therefore, it is highly advisable that at the beginning of every academic year the student and the faculty advisor review the student’s progress and the Supervising Committee’s feedback and define an academic plan for the coming year.

*Must be enrolled for at least three (3) credit hours*

¹Must be enrolled for at least three (3) credit hours; will substitute SW 521 if focus is micro intervention; will substitute SW 560 if focus is macro intervention.

²All courses must be taken for 3 credits. Approval is required for all 600 level substitutions.

³This course can only serve as a substitution if community organizing is your method.
3. PRE-MSW DOCTORAL STUDENTS: FIELD PLACEMENT OPTIONS

All Doctoral students are scheduled to start field placement in the Winter term. Should a Doctoral student decide to start field in the Fall term, they must consult with the Director of Field Instruction who will assist them in completing the required Out of Sequence Petition.

| Field Application Deadline | October 17, 2014 | May 17, 2014 |

- Pre-MSW Doctoral students must complete a total of 7 field credits out of the required 15. Students typically choose to complete a research practicum for 8 credits in lieu of additional field credits. The maximum number of field credits allowed is 21.
- Students can only start field placement in Fall or Winter terms.
Appendix 4:

UNIVERSITY OF MICHIGAN
SCHOOL OF SOCIAL WORK
JOINT INTERDISCIPLINARY DOCTORAL PROGRAM IN SOCIAL WORK AND SOCIAL SCIENCE

4. PROGRAM GOALS AND OUTCOMES

Since its inception, the goal of the Doctoral Program has been to prepare students to contribute to the advancement of knowledge about social work practice and social welfare. As part of continuing efforts to evaluate how effective the Doctoral Program has been in achieving this overall goal, faculty members associated with this program were asked to rate a wide variety of possible criteria for their importance in judging the career success of Doctoral Program graduates. The seven criteria listed below were those deemed important by faculty consensus. They are listed in order of importance, with the most important listed first. They are presented here to make clear to applicants and students the kinds of outcomes the Program tries to prepare its graduates to attain.

A. Originality of contributions to knowledge, reflected in research at the cutting edge of the field and in originality in the problems tackled or in publications.

B. Social Work Relevance of contributions to knowledge, reflected in the conduct of research that integrates social work and social science and in the development and evaluation of new approaches or strategies for social work services.

C. Leadership in the profession, reflected in influences on social work education and on the profession of social work.

1. Intellectual leadership in the profession and social work education, reflected in influence through writings, presentations at professional meetings, such as the Council on Social Work Education (CSWE), Institute for the Advancement of Social Work Research (IASUR), the National Association of Social Workers (NASW), and the Accredited Board of Social Workers (ABSW), and in editorial activities for professional journals.

2. Organizational leadership in the profession and in social work education, reflected in leadership positions in academia, social work education organizations, and social work professional organizations.

D. Recognition of contributions to knowledge, reflected in frequent citations by other authors, in being well known by people, respected by peers, and perceived as an expert in an area by colleagues.

E. Initiative in research activities, reflected in the initiation of one’s own research activities and in receipt of grants from public or private sources.

F. Quantity of contributions to knowledge, reflected in the number of articles, chapters, books, etc., published or papers presented at national meetings.

G. Excellence in Teaching It is recognized that all of the students’ experiences in the Program, including formal and informal, have contributed and will continue to contribute significantly to their ability to achieve these career goals. A number of specific activities have also been identified that are intended primarily to highlight systematic efforts to relate these program goals to program experiences and requirements, to encourage individual faculty and student actions directed to enhancing this congruence. These activities are described in a memo available in the Doctoral Office. (Ask for the January 15, 1985, memo on Criteria for Success.)

ASSUMPTIONS, PRINCIPLES OF THE DOCTORAL PROGRAM CURRICULUM

Knowledge generation and knowledge transmission is a central focus for the Program and the major basis upon which the Doctoral Program Curriculum is organized. Related to this is a commitment to retain and enhance the unique character of the Doctoral Program, namely, its emphasis on the articulation of social work and social science. While the modes of articulation have changed over the years and will continue to change, this program remains the only social work program that is fully linked with the social science departments, and the implications of this arrangement are retained.

Within these general Program goals, the features of the social work component, which the curriculum addresses, include the following principles and assumptions.

A. **Articulation of social work and social science.**
The primary emphasis is on the application of disciplinary methodology, theory, and evidence to analyze and understand social work and social welfare problems and issues, and the use of social science methodology to develop and test new modes of social work intervention and social welfare policies and services. Attention should also be given to fostering topics relevant to social work and social welfare within the disciplinary communities so that the topics are seen as relevant and worthy of study.

B. **Emphasis on knowledge development.**
This includes a focus on training students in the conceptual and methodological skills necessary for the generation of knowledge. The emphasis is on knowledge that can enhance the development and evaluation of theories, intervention methods, social service systems, and policies relevant to social work and social welfare.

C. **The central role of knowledge development and research related to intervention methods and social service systems.**
The intervention methods and social service systems are critical components of social work and social welfare. They most distinctively differentiate social work and social welfare from the social science disciplines and other professions. In keeping with principle b. (above), all students should be exposed to and develop expertise in relation to the advancement of knowledge and research relating to social service systems and/or intervention methods.

D. **Recognition of ethical and value issues and commitments relevant to social work and social welfare.**
This involves careful consideration of ethics and values relevant to social work research, interventions, and policies. It also involves a commitment to enhancing the well-being of underprivileged, under-served, and/or minority populations. It includes the identification of groups “at risk,” the specification of issues that are unique to specific subgroups, such as minorities, and concern for the adequacy of intervention methods and social service systems to meet the needs of these special groups.

E. **Flexibility in the curriculum to adapt to new developments.**
This is intended to provide opportunities to develop new content, knowledge, and practical applications, and to examine and evaluate social changes that have implications for social work and social welfare. To some extent all of the doctoral seminars serve this purpose, since these seminars are intended to serve as vehicles for knowledge generation as well as knowledge transmission. In addition, such opportunities are increased through special seminars which reflect changing research priorities and faculty research interests.
F. **Opportunity for original, specialized study.**

Such study would reflect the diverse interests and disciplinary orientations of students and faculty, while also providing means for organizing various program components into a cohesive whole. Specialized study is realized through formal courses, the research internship, work experience, special seminars, practical, prelims, and the dissertation.

These principles and assumptions have important implications for the social work component of the Doctoral Program that need to be highlighted. First, it is not a practice program. The teaching of conventional practice skills at the doctoral level would be inconsistent with the primary emphasis of the Program on knowledge generation and enhancement. In addition, the Program aims to provide in-depth, specialized content rather than comprehensive coverage at a more general level. Accordingly, it is not an “advanced” program to extend the MSW curriculum. It does not endeavor to mimic the coverage provided by a Master’s program (e.g., coverage of fields of service) or to provide coverage of basic content. Finally, the articulation of social work and social science within the social work component of the Program does not involve duplication of offerings in the associated departments. Rather, the social work components of the Doctoral Program curriculum supplement those offerings, drawing from them and expanding upon them to meet the specific objectives of social work and social welfare.

The **four curriculum areas** are intended to cover the content distinctive to the social work component of the joint doctoral program. Two of the areas, **Practice, Intervention, and Policy** and **Social Service Systems** relate directly to the principal means by which social work and social welfare attain their objectives: The **Research Methods for Practice and Policy** area addresses the principles and methods by which knowledge of social work and social welfare is enhanced and the methods used to analyze, design, develop, and evaluate social work practice, social service systems, and social welfare policies. The **Social Context for Practice and Policy** area embraces the social context and conditions which affect the welfare and well-being of individuals and social groups and which help shape the intervention methods, policies and social service systems evolved to meet human needs.

1. **Practice, Intervention, and Policy (PIP)**

Courses in this area critically analyze the conceptual bases and empirical evidence relating to the practice methods, interventions, and policies by which social work and social welfare achieve their objectives. Major focus is on careful review and appraisals of the theories, practice procedures and principles, assessment methods, relevant behavioral and social science foundation knowledge, and research relating to practice and intervention at the micro, mezzo, and macro levels of intervention. The objective is to prepare students to contribute to empirical research and theoretical developments on intervention methods and/or policies. This is accomplished by emphasis on contemporary and newly developed approaches, the adequacy of the intervention methods and policies, the relevant foundation knowledge from behavioral and social science, research on outcomes including their effectiveness and efficiency, and the critical issues needing further research and practice development. Thus, course work involves critical analysis, careful appraisal, and review of research rather than either practice skill training or the presentation of content for purposes of enhancing practice skills.

Most courses are organized around the individual, family, group, organizational, community, or societal levels of intervention. Although major emphasis in each course will be on a given level of intervention, some attention will also be paid to theoretical and empirical issues related to intervention methodologies of adjacent levels. Two courses cross intervention levels: one on racial, ethnic, and gender factors and one on prevention. All courses cover: (a) research and theoretical issues related to remediation, as well as prevention and competence enhancement; (b) issues of ethics and values relating to interventions with people in distress, including those who are poor or otherwise disadvantaged; and (c) ethnic, gender, minority, and social class factors and responsiveness to the needs of vulnerable populations.
2. **Social Service Systems (SSS)**

The curriculum on social service systems is concerned with the study and analysis of the structures and processes for the provision of social services to meet human and social needs of members of society. Structure refers to the organizational arrangements involving various social units, both formal and informal, designed to deliver services. These include interest groups, associations, families, formal public and private bureaucratic organizations, communities and governmental units at the local, state, national, and international levels. Processes refer to the actual behavior of these social units in the design, development, and implementation of various delivery systems (e.g., policies, intervention strategies, division of responsibilities) to achieve explicit or implicit goals, including mandated objectives. Emphasis throughout is on the theoretical, analytic, and empirical bases for studying and understanding social service systems.

Courses focus on the historical, contemporary, and future aspects of the social service systems in the United States and comparative cross-national analyses of social service systems. In addition to codified social welfare knowledge, the curriculum in this area includes contributions from various social science disciplines as well as knowledge from philosophy, history, law, public health, and public policy. The content in this area is inevitably time and culture-bound and the course structure is intended to facilitate on-going innovation and change of course content. Courses also are intended to provide instructors and students the opportunity to focus on a specific sector in the social service system that pertains to their area of research and knowledge development. All courses are expected to include content on relevant value and ethical issues in social welfare and social work and to give special emphasis to ethnic, gender, race, and social class differentiation, and the needs of special minorities or people with disabilities, as they arise.

3. **Research Methods for Practice and Policy**

This area focuses on the particular research strategies, designs, techniques, and skills needed to develop knowledge of human services. These include research methods relevant to: the advancement of knowledge about practice interventions, the organization of service delivery, and social welfare policies; evaluation of practice, programs, and policies; the formulation and development of innovative practice interventions, service delivery systems, and social welfare policies (e.g., social research and development, developmental research methods).

The assumption underlying this curricular area is that the research methods needed to achieve the goals of social work and social welfare are not necessarily identical to those needed to achieve the goals of social science research. The goals of social work and social welfare research involve advancing our understanding of the social contexts, practice, programs, and policies and their consequences for human well-being. They also involve the design, development, and evaluation of improved interventions. Research methods from social science and other fields often need to be modified, adapted, and supplemented in order to achieve these goals. For example, in evaluating the treatment of a single family, the use of a single-case experimental design may be particularly useful. In addition, special criteria for evaluating the importance of variables may be appropriate. For example, our interest in intervention may lead us to focus on those variables with greatest malleability and those with the greatest likelihood of utilization. The research methods covered in this curricular area are viewed as extensions of the knowledge of research methods and statistics gained by students in their social science disciplines. This curricular area is designed to provide students with knowledge of these specialized research methods, and to provide a context within which faculty and students can develop research methods appropriate to our field’s goals.

Several courses deal with research methods relevant to particular loci for social work and social welfare instructions, including clinical settings, social programs and human service organizations, and social policy. All courses will address questions of ethics and values and methods to evaluate the impact of various practices and policies on particular subgroups.
4. **The Social Context for Practice and Policy**

This curriculum area addresses the social context for social work practice and social welfare. This context consists of the various human and social factors that affect the critical human conditions which social work and social welfare seek to enhance. These human conditions include the well-being, social participation, equality and social justice of individuals and social groups, as well as the capability to respond to changing societal and environmental conditions as reflected, for example, in social trends. The social context is a critical element in shaping of the intervention methods, social service systems, and social policies designed to meet human needs.

Courses in this area embrace the influences on and consequences of variations in individual and family well-being, social participation, and equality and social justice in social systems, and societal responses to social trends. For each of these subject areas, attention is given to the consequences of diverse values, perspectives, and ideologies for conceptualizing and operationalizing within the conditions in question, operational definitions of these conceptualizations, the relevant theoretical and empirical research relating to the antecedents and consequences of the conditions, and the implications for social work and social welfare.

SCHOOL OF SOCIAL WORK
JOINT INTERDISCIPLINARY DOCTORAL PROGRAM IN SOCIAL WORK AND SOCIAL SCIENCE

5. DOCTORAL SEMINAR COURSE LIST AND DESCRIPTIONS

The courses are for 3 credits unless otherwise noted. Courses with one asterisk (*) are special seminars that may not be given on a regular basis. Courses with two asterisks (**) are required.

COURSE LIST

PROSEMINAR
800 Proseminar in Social Work and Social Science: Part 1 (2 credits) and Part 2 (2 credits)**

RESEARCH INTERNSHIP
801-803 Research Internship: Used as registration for research internships in the School of Social Work (1-8 credits)*

PRACTICE, INTERVENTION AND POLICY (PIP)
813 Intervention in Human Service Organizations and Social Service Networks
814 Community Intervention
815 Policy Development and Implementation
816 Racial, Ethnic, and Gender Issues in Intervention
818 Special Seminars in Practice, Intervention, and Policy (1-3 credits)*
819 Special Seminars in Evidence-Based Practice with Individuals, Families and Groups (1-3 credits)*
858 Special Seminar: Poverty and Inequality (PUBPOL 736)*

SOCIAL SERVICE SYSTEMS (SSS)
823 Comparative Cross-National Analyses of Social Service Systems
825 Historical and Contemporary Issues in Social Work and Social Welfare**
829 Special Seminars in Social Service Systems (1-3 credits)*

RESEARCH METHODS FOR PRACTICE AND POLICY
831 Research Methods for Evaluating Social Programs and Human Service Organizations
832 Research Methods for Social Policy Analysis
835 Special Seminar: Applied Research in Aging I
836 Special Seminar: Applied Research in Aging II
838 Special Seminars in Research Methods for Social Practice and Policy (1-3 credits)*

SOCIAL CONTEXT FOR PRACTICE AND POLICY
842 Social Equality and Equity
849 Special Seminars in Social Context (1-3 credits)*
873 Theories of Change**
871 Social Work and Anthropology
874 Social Work and Sociology
875 Social Work and Economics
876 Social Work and Political Science
877 Social Work and Psychology

<tr>
<td>SW 800</td>
<td>Proseminar in Social Work and Social Science</td>
<td>4</td>
<td>Open to students in the Doctoral Program in Social Work and Social Science; others by permission of instructor. Required two-semester course, part 1 (2 credits) is taken fall of the first year; part 2 (2 credits) is taken while the student is completing their social work preliminary examination.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>This is a seminar about the nature of research and scholarship for the students in the joint program in Social Work and Social Science. The basic motivating question for the seminar is a daunting one. It concerns the nature, place and practice of scholarship in a complex multidisciplinary context that emphasizes learning about not only the requirements of developing basic knowledge as an end in itself but also the skills, processes, procedures and routines associated with the use of that knowledge to help solve problems that impinge on, or directly disrupt the quality of peoples lives. A central assumption is that similar to other forms of scholarship, expertise in scholarship in a combined professional/academic context is not automatic. Instead it involves the purposive acquisition of habits, skills and attitudes that enable people to contribute to professional and academic advances in their chosen field of inquiry. The first semester focuses on the early stages of this development. As such, it seeks to establish an orientation to the development of scholarship that will continue once the seminar is over. That is to say, it seeks to engage students in an examination of the practices, styles and domains of scholarship in the multidisciplinary contexts of social work, social welfare and social science so that they may begin to evolve an approach to scholarship suited to their own interests, inclinations and capabilities. Throughout the term, various topics pertinent to making explicit the requirements and practices of scholarship will be discussed based on focused readings on each topic. The second semester, taken at the end of coursework, is focused on identifying how the integration of social work and social science knowledge can be the basis of the social work prelim.</td>
</tr>
<tr>
<td>SW 801-803</td>
<td>Research Internship</td>
<td>1-8</td>
<td>Students enroll in this course, under their advisor’s section number, when working on their research internship in the School of Social Work.</td>

<tr>
<td>SW 813</td>
<td>Intervention in Human Service Organizations and Social Service Networks</td>
<td>3</td>
<td>Doctoral standing and prior study in the organization area or permission of the instructor. Practice, Intervention, and Policy Area.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>This course provides a critical examination of strategies of change within human service organizations and in networks of organizations in terms of their effects on effectiveness, efficiency, and responsiveness to the needs of vulnerable populations. Theories and research on organizations—specifically organization-environment relations, organization-client relations, structure, organizational change and innovation, and inter-organizational analysis and change—will be applied to the formulation of intervention and change strategies. The effects of current structuring of service delivery systems on accessibility, comprehensiveness, continuity, fairness, quality, and effectiveness of care, with special emphasis on populations vulnerable through their gender or ethnicity, will be detailed. Models and empirical studies of change within organizations and in networks of organizations aimed at improving the delivery of services will be analyzed and research issues and knowledge gaps will be identified. Relevant ethical and value issues will be examined.</td>
</tr>
<tr>
<td>SW 814</td>
<td>Community Intervention</td>
<td>3</td>
<td>Doctoral standing or permission of the instructor. Practice, Intervention, and Policy Area.</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
<td>Community interventions are examined as methodologies of planned social change and community practice. The changing context of practice, major models, methods, and the uses of empirically based research to formulate and critically evaluate general practice propositions and action guidelines will be analyzed. Models of planned change to be discussed may include mass mobilization, social action, citizen participation, political advocacy, community education, and neighborhood development. Analysis will include methods of assessing community conditions, formulating strategies, building organizations, activating people, implementing plans, and monitoring and evaluating results. Research and case studies in public and private settings, in health, housing, and other human services, and in a variety of territories from neighborhood to nation will be included. Problems and issues of the economically disadvantaged, minorities, and women, and relevant ethical issues and values will be addressed.</td>
</tr>
</tbody>
</table>
Policy as an intervention process is critically examined by analyzing the phases of this process, various perspectives on policy analysis, the uses of empirical social science knowledge, the context of policy, policy’s latent functions, and social, organizational, and cultural factors that impact at each phase. Three types of substantive structures will be included: remediation, enhancement, and prevention. General and specific approaches to these goals will be compared in different content areas and auspices (public and private). Key research questions and gaps in knowledge will be identified as will roles, tasks, and tools of the researcher and policy developer. Ethical and value questions will be explored, with special attention to the effects of race, class, ethnicity, gender, and various types of social discrimination.

**SW 816 Racial, Ethnic, and Gender Issues in Intervention**

Intervention methods are critically examined as they relate to racial, gender, and ethnic statuses of clients. Social science theory and research relevant to the identification of problems experienced by target groups and to status effects on psychosocial interventions will be reviewed. Attention will be on the effects of status and power differentials linked to racial, ethnic, and gender statuses of clients on the development and implementation of interventions at various levels in the social system. Cultural assumptions and discrimination that influence the definition and nature of problems, health, and competence, and the nature of interventions will be analyzed. Although attention will be given primarily to ethnicity and gender, these issues will be explored in a way that extends their applicability to other status differences and to sexual orientation. Key literature from social work, epidemiology and the social sciences will be covered to prepare students to design, implement, and evaluate interventions which address the problems of high-risk or under-served groups. Throughout, ethical and value issues will be integrated into course content.

**SW 818 Special Seminars in Practice, Intervention, and Policy**

Content varies, in keeping with faculty and student interests in emerging issues relating to practice, intervention or policy, and covers theoretical and empirical underpinnings, key research questions and gaps in knowledge, ethical and value issues, and ethnic, gender, minority, and social-class factors. For example, the seminar may focus on a critical analysis of a developing intervention or of a new social welfare policy initiative.

**SW 819 Special Seminars in Evidence-Based Practice with Individuals, Families and Groups**

Content of these seminars vary, in keeping with faculty and student interests in emerging issues relating to evidence based practice with individuals, families, and groups on the macro or micro level of intervention. These seminars can cover theoretical and empirical underpinnings, key research questions and gaps in knowledge, ethical and value issues, and ethnic, gender, minority, and social-class factors.

**SW 823 Comparative Cross-National Analyses of Social Services Systems**

This course focuses on exploring and applying a structure for the comparative cross-national study of social services. It is intended to provide a common basis for developing comparisons and providing students with the opportunity to explore how a particular area of social services has developed and been implemented in a country of their choosing. The course will start with an exploration of the parameters for understanding and comparing national approaches to social services. These parameters include, but are not limited to, the resources/wealth of a country, the role of national/local government, cross-national influences, and the relevant religious and societal values in a country. In developing comparative perspectives on the realities of social service provision, emphasis will be placed on understanding challenges of implementation and gaps between policies and practice. Examples of social service areas that students will be encouraged to pursue include income security, protecting vulnerable populations, criminal justice, child care/adoption, health care, disability policy, and employment/labor rights.

**SW 825 Historical and Contemporary Issues in Social Work and Social Welfare**

This course centers on the examination of the purposes of social welfare and social work and how they have reflected different philosophical and ideological positions, diverse class, racial, ethnic, and cultural perspectives, and the particular historical contexts in which they emerged. It covers long standing conflicts and tensions in the field such as the role of social responsibility vs. social control, how needs are recognized and determined, the nature of helping, perspectives on social justice and charity, the professional role of social workers, and organizational arrangements for social work and social welfare. The focus of this course is on the development of U.S. social welfare and social work with a comparative, cross-national and multicultural lens.
**SW 829  Special Seminars in Social Services Systems**

1-3 credits. Doctoral standing or permission of instructor. Social Service Systems Area.

These seminars cover variable topics related to faculty and student analysis of critical and emerging issues. Related to specific social problems and to social services systems established to address these problems. Possible topics include: caregiving in post-industrial society; privatization of the social service system; social control and the social services; special problems and/or populations; deinstitutionalization and the development of community-based care; women, work, and welfare; and comparative analysis of social service systems.

**SW 831  Research Methods for Evaluating Social Programs and Human Service Organizations**

3 credits. Doctoral standing, one graduate level statistics course, and a basic understanding of multivariate analysis, including ANOVA and multiple regression/correlation, or permission of instructors are required. Also recommended is a rudimentary understanding of instrument construction and data collection procedures. Research Methods Area.

This course focuses on the theoretical and strategic issues in designing and implementing formative or summative evaluations. The scope will include methods of evaluation appropriate for the study of social programs, human service organizations, inter-organizational relationships; and similarities and differences from methods used for basic knowledge development. The analysis of alternative evaluation models, procedures, and techniques and issues in the design, implementation, and utilization of evaluation research will also be addressed. Topics may include: the sociopolitical context; ethical issues; the planning of evaluations; specification of variables, with emphasis on definitions of effectiveness and on operations of service technologies; the formulation of evaluation objectives; issues in sampling procedures, measurement, and data collection; alternative models for designing programmatic and organizational evaluations, including network analysis; analysis of findings; feedback at different stages of program evaluation; and reporting, dissemination, and utilization of results.

**SW 832  Research Methods for Social Policy Analysis**

3 credits. One graduate-level statistics course and doctoral standing or permission of instructor. Research Methods Area.

This course covers research methods for assessing the nature and extent of needs for social intervention, evaluating the success or failure of existing social welfare policies, and determining the anticipated consequences of alternative policies and interventions. Also considered will be values and assumptions underlying policies and research, similarities and differences between methods for developing social policy knowledge and those for basic knowledge development, strategies to promote utilization and dissemination of research results, and methods of studying community, regional, national, and comparative international policies. Possible topics will be: community needs assessment techniques; subjective and objective measures of program and policy consequences; aggregation problems within and across communities, regions, or countries; analysis of time series data; archival and other historical methods of research; case study techniques; analysis of cross-sectional, panel, and comparative international data as natural experiments; the design and analysis of formal social experiments; meta-analysis of existing research results; and benefit-cost analysis and other related methods.
### SW 838  Special Seminars in Research Methods for Practice and Policy

1-3 credits. Doctoral Standing or Permission of the Instructor.

These seminars cover variable topics related to faculty and student analysis of critical and emerging issues in research methods for social work policy and practice. These topics may include research strategies, designs, techniques, and skills needed to develop knowledge of human services or research methods relevant to: the advancement of knowledge about practice interventions, the organization of service delivery, and social welfare policies; evaluation of practice, programs, and policies; the formulation and development of innovative practice interventions, service delivery systems, and social welfare policies.

### SW 842  Social Equality and Equity

3 credits. Doctoral standing or permission of the instructor. Social Context Area.

This course focuses on variations in the structure of opportunity and outcomes within the United States and between the United States and other countries. The forms inequality may take and changes over time in conceptions of inequality and inequity will be examined. Attention will be given to: effects of diverse values, perspectives, and ideologies on conceptualizations of social equality and equity; operational definitions of these conceptualizations; the antecedents and consequences of equality/inequality and equity/inequity as variously defined; and the implications of the above for social work and social welfare. Current levels of inequality in the United States will be assessed by critically reviewing the literature on differentials in opportunities and outcome. Comparative analysis of empirical work on inequality within the United States and between the United States and other countries will be used as a basis for examining debates about the relative costs and benefits of particular levels of inequality and about the trade-off's between equality and other social goods. Key research issues and gaps in knowledge will be identified.

### SW 849  Special Seminars in Social Context

1-3 credits. Doctoral standing or permission of instructor.

This seminar covers particular aspects of individual and family well being, social participation, social equity and equality, responses to social trends, or other human conditions that may influence social work and social welfare. The seminar will consider the influences of diverse ideologies and values on conceptualizations of these conditions, operational definitions of the variables considered, an analysis of antecedents and consequences of the conditions, and implications for social work and social welfare of the above. Students will analyze how social units are affected by and respond to current or emerging social trends. Selected trends will provide the substantive theme, addressed with five foci: the trend's nature and antecedents, its consequences for particular social units, social problems/opportunities created by it, responses of various social units to those problems/opportunities, and implications for social work and social welfare in responding to the trend through innovative policies, programs, and treatment methods. Differential effects of the trend on subgroups such as minorities, women and the elderly will be of special interest. Topic selection criteria will include: timeliness, relevance to problems/opportunities of importance to social work/social welfare, and congruence with faculty scholarly work.

### SW 858  Special Seminar: Poverty and Inequality (PUBPOL 736)

3 credits.

This course analyzes the conditions and causes of poverty within the United States and the variety of economic, social, and political responses to it. The first part of the course explores the problems of poverty, including a discussion of various causal theories of poverty and the underlying implications of these theories. The second part of the course analyzes specific problems and policy proposals, with particular attention to the most recent round of legislative reforms since the mid-1990’s.

### SW 871  Social Work and Anthropology

3 credits. Social Context Area.

This seminar is a foundation course for students in the joint Anthropology/Social Work Program. The readings bring together social theory and ethnographic accounts of contemporary social issues. Topics, chosen to illustrate the intersection of the two fields and to bring together faculty from both schools, may include medicine and health, human and civil rights, urban neighborhoods, immigration, race, ethnicity, and gender. Beyond the joint Anthropology/Social Work students, the course is expected to attract joint Social Work/social science students from other disciplines, as well as graduate students in anthropology, political science, sociology, psychology, economics, and other fields. The course will include events such as guest speakers, works in-progress discussions, reading group, etc.

### SW 873  Theories of Change

3 credits. Doctoral standing or permission of the instructor. Social Context Area.

This course focuses on change, particularly social change, with an emphasis on examining its characterization, explanation and perpetuation. The objectives of the course are to deepen and broaden theoretical and empirical understanding of change, and to enhance capacity to pose and address analytic questions about change as well as critically considering the viability of analyses for suggesting policy adjustments or initiatives, or plans of intervention. The objectives will be achieved through readings, class discussions and presentations, and written work.

This seminar provides a foundation and overview for students interested in understanding the intersection between social work and sociology. The readings bring together sociological theory and scholarship as they relate to contemporary social work and social welfare issues. Topics, chosen to illustrate the intersection of the two fields and to bring together faculty from both schools, may include poverty, social stratification, and health. Beyond the joint Sociology/Social Work students, the course is expected to attract joint Social Work/social science students from other disciplines, as well as graduate students in economics, public policy, political science, psychology, and other fields. The course will include activities such as guest speakers, works in-progress discussions, readings, and presentations.

This seminar provides a foundation and overview for students interested in understanding the intersection between social work and economics. The readings bring together economic theory and scholarship as they relate to contemporary social work and welfare issues. Topics, chosen to illustrate the intersection of the two fields and to bring together faculty from both schools, may include poverty, education, and health care. Beyond the joint Economics/Social Work students, the course is expected to attract joint Social Work/social science students from other disciplines, as well as graduate students in economics, political science, sociology, psychology, and other fields. The course will include activities such as guest speakers, works in-progress discussions, readings, and presentations.

This seminar provides a foundation and overview for students interested in understanding the intersection between social work and political science. The readings bring together political science theory and scholarship as they relate to contemporary social work and social welfare issues. Topics, chosen to illustrate the intersection of the two fields and to bring together faculty from both schools, may include poverty, social mobilization, and comparative politics. Beyond the joint Political Science/Social Work students, the course is expected to attract joint Social Work/social science students from other disciplines, as well as graduate students in economics, public policy, sociology, psychology, and other fields. The course will include activities such as guest speakers, works in-progress discussions, readings, and presentations.

This seminar provides a foundation and overview for students interested in understanding the intersection between social work and psychology. The readings bring together psychological theory and scholarship as they relate to contemporary social work and social welfare issues. Topics, chosen to illustrate the intersection of the two fields and to bring together faculty from both schools, may include gerontology, life span development, stereotyping and stigma, and social identity. Beyond the joint Psychology/Social Work students, the course is expected to attract joint Social Work/social science students from other disciplines, as well as graduate students in economics, public policy, sociology, anthropology, and other fields. The course will include activities such as guest speakers, works in-progress discussions, readings, and presentations.

16 Students may elect three credits in Directed Reading or Research course(s) to meet requirements as long as written approval is obtained from the Joint Program Director prior to completion of the course. Enrollment must be for at least three credit hours to substitute for a course.

Appendix 7:

JOINT INTERDISCIPLINARY DOCTORAL PROGRAM IN SOCIAL WORK AND SOCIAL SCIENCE

7. INDEPENDENT STUDIES COURSE APPROVAL INFORMATION

One independent study course (SW900, 971-978) may be elected to meet the requirement for the three additional doctoral seminars (see section III.C.1.B) after written approval is received from the Director of the Program.

To obtain such approval the student should complete Part 1 of the form below and solicit recommendations from the course instructor and his or her faculty advisor in Parts 2 and 3. The form should then be routed to the Doctoral Director. The Doctoral Director will inform the student of the action taken.

The completed form should be submitted to the Doctoral Office prior to the completion of the course in question.

Course number 900 should be reserved for prelim preparation. Course numbers 971-974 should correspond to directed reads, and 975-978 should correspond to directed research projects.

STUDENTS AND FACULTY

Please review carefully the following definitions of the four areas of the curriculum before proceeding with the approval process.

Practice, Intervention, & Policy (PIP) courses critically analyze the conceptual bases and empirical evidence relating to the practice methods, interventions, and policies by which social work and social welfare achieve their objectives.

Social Service Systems (SSS) courses critically analyze the structures (organizational arrangements of various formal & informal social units that are designed to deliver services.

Research Methods for Practice and Policy courses address the principles and methods by which knowledge of social work and social welfare is enhanced and the methods used to analyze, design, develop, and evaluate social work practice, social service systems, and social welfare policies.

The Social Context for Practice and Policy courses critically analyze the antecedents and consequences of various human and social factors that affect critical human conditions that social work and social welfare seek to enhance.

\[17\] This document applies to students entering the Doctoral Program as of Fall 1987 and subsequently.
7A. INDEPENDENT STUDIES COURSE APPROVAL FORM

Student Name (Please Print): ____________________________________________

Course Number: ________ Credit Hours: ________ Term of Enrollment: ________________

Describe Course Content, Assignments, and Evaluation Process:

CREDIT SOUGHT (Check as Many as Appropriate)

Doctoral Seminar Requirements (Check the appropriate curriculum area):

☐ Practice, Intervention, & Policy (PIP)
☐ Social Service Systems (SSS)
☐ Research Methods for Practice and Policy
☐ Social Context for Practice and Policy

Indicate why you believe your circumstances are exceptional and warrant approval of the above request(s).

Indicate what other Social Work doctoral courses you have taken or intend to take to meet your requirements:

Appendix 8:

JOINT INTERDISCIPLINARY DOCTORAL PROGRAM IN SOCIAL WORK AND SOCIAL SCIENCE

8. GUIDELINES FOR THE RESEARCH INTERNSHIP

Table of Contents

I. Goals of the Research Internship
II. Types of Research Internships
III. Expectations for the Research Internships
IV. Procedures for Students Completing a Social Work Research Internship
V. Relationship between a Social Work Graduate Student Research Assistantship (GSRA) and the Social Work Research Internship
VI. Procedures for Completing the Research Internship in the Social Science Department

I. Goals of the Research Internship

A. Specific Goals
A unique feature of the Doctoral Program has been to provide a knowledge development orientation to students early in their careers. This is enhanced by the research internship, which has these specific goals: (1) to provide a complete research experience through participation in a supervised research project prior to the dissertation; (2) to involve students in research early in their doctoral program; (3) to increase students’ research skills and (4) to develop skills in writing for publication.

B. Relation to Social Work
Although not required for internships offered in the social science department, it is desirable that the research topics be related to social work.

C. Relation to Dissertation
The topic or methods of the research internships might be relevant to students’ doctoral dissertations, but this is not required.

II. Types of Research Internships

A. Ongoing Research and Student Projects
The research project for the internship may either be an ongoing one directed by a faculty member or one initiated by the student and carried out under faculty supervision. If the internship is part of a larger project, the student and faculty member should identify a specific research problem that will be the focus of the student’s internship experience.

B. Methodological Focus
The research experience may be quantitative, qualitative, or a combination.

C. Location in Social Work or Social Science Department
The research internship may be fulfilled either in the School of Social Work (registration should occur under SW 801, 802, or 803) or in the respective social science department (e.g., Anthropology 957; Sociology 512-513, 522–523; Political Science 891–892; Psychology 619; Economics 695, 696).
D. Relation to Student Needs
The specific character of the research internship should depend on the student’s background and training needs, career objectives, the availability of suitable research projects and special conditions at the time the internship is undertaken. For students with prior research experience, the research internship should provide for an expansion of research skills into new areas and/or a deepening of pre-existing skills.

The student with the approval of the primary faculty advisor in social work will determine the most appropriate location for the internship and the breadth, depth, and type of research experience needed based on prior training and experience, career goals, and disciplinary requirements.

III. EXPECTATIONS FOR THE RESEARCH INTERNSHIP
A. Required and Optional Activities
A complete research experience would include the following components. It is expected that the student will engage in some or all of the interrelated research activities listed below; every student must be involved in a sustained way in activities 1, 2, 5, and 6.

1. Formulation of a research problem (which includes a survey of the literature and pertinent research, and the development of research questions, hypotheses or conceptualization of theoretical and/or policy or practice issues);
2. Formulation of the research design and methods;
3. Development of research instruments;
4. Data collection;
5. Data analysis and interpretation of findings;
6. Preparation of a research report.

The student should only be involved in research activities that will require the learning and acquisition of research skills, and minimal use of students’ time should be made for various routine research activities such as administration of questionnaires, coding and collating of data.

B. Required Final Report
The student’s research experience will be demonstrated in the research report which will ordinarily be written in the format of an article that could be submitted for publication to a journal in social science or social work. This report must be accepted by the faculty instructor and a second faculty reader.

C. Evaluation of the Final Report
The final report will be evaluated by the faculty instructor and a second reader. The purpose of having a second reader is to provide an independent evaluation of the written product of the internship by someone who has not previously been involved in the particular research endeavor, in much the same way that papers submitted for consideration for a conference presentation or journal publication are reviewed. The second reader will be selected for his or her substantive and/or methodological competencies in the subject area of the research.

The faculty instructor and second reader will evaluate the quality of the report. Reports that do not meet the minimum standards of completeness and quality should be returned to the student for revision. The research internship is not satisfactorily completed until both the faculty instructor and second reader indicate that the final report is acceptable.
D. Timing
Because the internship is aimed at the early involvement of students in the conduct of research, it should be begun no later than the second year of doctoral studies. Under ordinary circumstances, it is expected that the internship be completed within one year.

E. Required Enrollment, Time Commitments, and Grading
A student may enroll for the Research Internship for credit hours. Pre-MSW students may use up to eight credit hours of the Research Internship toward the fulfillment of the required 15 hours of Professional Field Practicum.

The actual amount of time required by an internship, and the credit hours of registration, should reflect the needs of the particular research project and prior research experiences of the student. The lower limit of four credits is set to reflect the typically minimum time commitment that seems necessary to carry out the essential elements of a research internship, approximately a day a week for two semesters; a project that could be completed in this time frame would be appropriate for a student with substantial prior research experience. A commitment of about two days a week over two semesters, or eight credits of registration, is anticipated to be the more typical pattern.

F. Grading
If a student’s research internship extends over more than one semester, a grade of Y should be entered to so indicate. When the internship has been completed and a satisfactory final written product has been approved by the instructor and the second reader, a change of grade should be recorded. Whether a letter grade or a satisfactory grade is used should be agreed to in the initial contract between student and instructor.

G. Faculty Supervision
The research internship should provide the student with regular supervision by the faculty member in charge.

H. Student Recognition
Students are expected to receive appropriate recognition in any publication based on their work as interns.

IV. Procedures for the Student Completing a Social Work Research Internship

A. Initiation of Proposal
After reviewing available research internship opportunities and discussion with the person who will serve as instructor, the student is expected to prepare a brief proposal which should include:
   1. Identification of the research problem
   2. The research activities the student will engage in
   3. Methodological procedures to be employed
   4. Anticipated product

B. Approval of Proposal
After the instructor accepts the proposal, the student will provide the instructor a copy of the social work research internship proposal approval form for the instructor’s completion (see Appendix B4). The student will submit the signed form and a copy of the proposal to the Doctoral Office. These items will be kept in the student’s academic record.

C. Human Subjects Approval
If data are to be collected from human subjects, approval from the appropriate Human Subjects Review Committee must be obtained.

D. Preparation of Final Research Report
The student is required to submit a research report at the conclusion of the internship to the instructor. This report should be a complete final report of the student’s research project. It should be in journal article form, which will include:
1. Conceptualization and formulation of the research problem
2. Research design and methodology
3. A discussion of instruments used in the research
4. Research findings and interpretations
5. Conclusions

E. Evaluation of the Final Report
The student will submit the final report to the faculty instructor and to a second reader (a University of Michigan faculty member or research scientist) for evaluation. Wherever possible, the instructor’s feedback about drafts of the report should provide information to the student about revisions that might make the paper acceptable for presentation at a professional meeting or submission to a journal. If the instructor or second reader requests revisions, the student will make them and resubmit the report. The student should give a copy of the report accepted by the instructor and second reader along with a copy of the evaluation (see Appendix 8B) to the Doctoral Office.

V. Relationship between Social Work Graduate Student Research Assistantship (GSRA) and Research Internship
Faculty members within the School of Social Work who want a graduate student research assistant (GSRA) will be asked to provide information on their ongoing research. In many cases, these research assistantships can become the basis for the student’s Research Internship Project.

The information on ongoing research submitted by faculty members will include the following:

1. The nature of the assignment for which you are requesting a GSRA;
2. The specific tasks to be assigned;
3. The amount of time involved;
4. Whether it could serve as the student’s Research Internship;
5. The contributions to the faculty’s teaching or research;
6. The contributions to the educational career of the doctoral student;
7. The contributions to fulfilling the CSWE post-MSW work experience requirement.

These statements will be circulated by the Doctoral Program Director to all first-year doctoral students, so that they may indicate the faculty member(s) with whom they would like to work as a GSRA during their second year in the Doctoral Program. The Doctoral Director will then make these GSRA assignments.

VI. Procedures for Completing the Research Internship in the Social Science Department
A. Requirements for Social Science Internship
Students may complete their Research Internship in their social science department provided that the essential components of the Research Internship as defined above are met, including a written final report.

B. Initiation of Social Science Internship
The location of the internship will depend on requirements in the student’s discipline and the type of research experience needed. The primary faculty advisor and Director of the Doctoral Program are available to discuss these options and, where appropriate, to help negotiate supervision of an internship by faculty outside the School of Social Work.

C. Submission of Final Report and Faculty Evaluation
A copy of the final report must be submitted by the student to the Doctoral Office along with the instructor’s evaluation and that of a second reader. The student may use the social science evaluation form or the evaluation form used by the Joint Doctoral Program (see Appendix 8B).
Appendix 8A:

8A. SOCIAL WORK RESEARCH INTERNSHIP PROPOSAL APPROVAL FORM

Read the Guidelines for the Research Internship before preparing your proposal. When the faculty instructor supervising your internship has approved the proposal, complete the information below, obtain that person’s signature on this form and submit it to the Doctoral Office.

Student’s Name: ___________________________ Student’s Signature: ___________________________

Topic: ____________________________________________________________

Initial Enrollment: Course #: _____________ Credits: _______________ Term: _________________

To Faculty Instructor:

Your signature below indicates that: (a) You are willing to provide regular supervision to the student in the completion of the research internship; (b) You agree that the student’s proposal meets the Guidelines for the Social Work Research Internship (see below); and (c) You have completed the internship checklist. It is the responsibility of the faculty supervisor to be sure that the essential components of the internship are included in the proposal before giving his or her approving signature. Please respond to all the items below:

1. What is the nature of the research internship?

- [ ] Initiated by the student

- [ ] Part of a faculty project. If so, has a specific sub-project been identified for the student’s research internship?
  - [ ] Yes
  - [ ] No (If no, please explain)

2. For each of the following components of a research experience indicate whether or not it will be covered by this internship. (Note that sustained activities for starred components are required by the Doctoral Program Guidelines):

*Formulation of a research problem (includes a survey of the literature and pertinent research and development of research questions, hypotheses or conceptualization of theoretical and/or policy or practice issues).
  - [ ] Yes
  - [ ] No (If no, please explain)

---

19 For students entering Fall 1987 and subsequently.
*Formulation of research design and methods

☐ Yes ☐ No (If no, please explain)

Development of research instruments

☐ Yes ☐ No

Data collection

☐ Yes ☐ No

*Data analysis and interpretation of findings

☐ Yes ☐ No (If no, please explain)

*Preparation of a research report

☐ Yes ☐ No (If no, please explain)

3. Are human subjects involved?

Check One:

☐ No human subjects are involved (e.g., secondary data analysis only)

☐ Approval will be obtained before data collection begins from the relevant Human Subjects Committee.

☐ Approval has already been obtained from the relevant Human Subject Committee.

_____________________________                      ________________________________
Printed Name and Signature of Faculty Instructor  Date

_____________________________                      ________________________________
Signature of Program Director\(^\text{20}\)  Date

\(^{20}\)The Program Director’s signature indicates that the checklist has been completed by the faculty instructor and that the proposal includes the research activities defined as essential components in the Guidelines for the Research Internship.
To doctoral students submitting the Research Internship Report: Indicate your specific involvement in each of the following activities below (It is expected that the student will engage in some or all of the interrelated research activities listed below; every student must be involved in a sustained way in activities 1, 2, 5 and 6.)

Name: ____________________________________________________________

1. Formulation of a research problem (which includes a survey of the literature and pertinent research, and the development of research questions, hypotheses or conceptualization of theoretical and/or policy or practice issues) ____________________________________________
   ______________________________________________________________
   ______________________________________________________________

2. Formulation of the research design and methods ______________________________________________________________
   ______________________________________________________________

3. Development of research instruments ______________________________________________________________
   ______________________________________________________________
   ______________________________________________________________

4. Data collection ______________________________________________________________
   ______________________________________________________________
   ______________________________________________________________

5. Data analysis and interpretation of findings ______________________________________________________________
   ______________________________________________________________
   ______________________________________________________________

6. Preparation of this research report ______________________________________________________________
   ______________________________________________________________

21 For students entering Fall 2010 and subsequently.
For students who are joint with Psychology and wish to obtain an MA in Psychology, one of the readers must be a Psychology faculty member.

The Program Director’s signature indicates that the evaluative comments have been completed by the faculty instructors and that the paper includes the research activities defined as essential components in the Guidelines for the Research Internship.
Appendix 9:

JOINT INTERDISCIPLINARY DOCTORAL PROGRAM IN SOCIAL WORK AND SOCIAL SCIENCE

9. GUIDELINES FOR THE SOCIAL WORK PRELIMINARY EXAMINATION

(These guidelines were under review by the Doctoral Committee, Fall 2011 and were approved, May 2012)

Table of Contents

I. Goals
II. Guiding Principles
III. Preliminary Examination Content and Timeline
IV. The Preliminary Examination Proposal
V. The Examination Committee
VI. Evaluation of Performance

I. Goals

The purpose of the preliminary examination is to enable the student to demonstrate to a faculty committee mastery of knowledge in an individualized area of subject matter. Such mastery should be demonstrated by the synthesis of the major theoretical, empirical, and practice knowledge in the area; conceptualization and critical analysis of major work in the area; identification of the critical issues in the area that require future advances in theory, research, and practice; integration of relevant social work and social science perspectives and knowledge; and effective communication of these ideas.

II. Guiding Principles

Because there is immense variation in students’ individualized areas of interest and topics for preliminary examinations, issues can arise concerning such matters as the independence of the preliminary examination from other requirements, its relevance to social work or social welfare, the adequacy of the topic’s literature base, the comprehensiveness of the literature review, and the standards of quality. The Doctoral Program has endeavored to address such matters by formulating some principles to guide students and faculty in the conception and preparation of preliminary examination areas.

A. Independence of the written product from other requirements.

The subject matter of the social work prelim may be related to coursework, papers and other requirements in the social work part of the student’s program, and should be substantially related to the student’s area of interest. The written product of the preliminary examination, however, should be independent of papers and other products produced in the social work component of the Program. The written product of the social work preliminary examination should also be independent of that for the social science preliminary examination, although the subject matter of the two prelims may be in a complementary relationship to one another. Any overlap between previous products should be explicated in the preliminary exam proposal.

B. Relevance to social work and social science.

It is expected that in the proposal as well as in the preliminary examination itself the student will give explicit attention to the relevance of the topic to social work and social science.

---

25For students entering the Doctoral Program Fall 2011 and subsequently.
C. Adequacy of the topic’s literature base.
The topic selected for study should have a substantial base in the empirical and theoretical literature. The preliminary examination is not a mechanism for addressing questions for which original empirical research is more appropriate.

D. Comprehensiveness of the literature review.
The literature review should be comprehensive. It should not be descriptive alone, but rather should involve analysis, synthesis, conceptualization, and integration of major viewpoints, alternate considerations, and research evidence from the available literature, and should identify critical issues for future development in the student’s area.

E. Applicability of themes concerning privilege, oppression, diversity, or social justice to the student’s area of interest.
Attention should be given to how one or more of these themes are addressed within the preliminary examination.

F. Critique and identification of issues needing further investigation.
The preliminary exam should include sections that address the identification of gaps in theory, empirical research, and social work practice/policy relevant to the student’s area of interest. Suggestions should be provided for future work with respect to theory, research and practice.

G. Quality of the product and independent writing.
The written component of the prelim will be an examination written independently by the student without consultation on its specific content or editorial assistance. The level of mastery of the content reflected in the examination product should clearly be consistent with high standards of doctoral work. The written document should demonstrate the ability to communicate effectively and reflect careful attention to style, clarity, and composition, as well as to matters of spelling and grammar.

III. PRELIMINARY EXAMINATION CONTENT AND TIMELINE
The preliminary exam consists of the student’s answers to three questions that are relevant to his/her interests and approved by the faculty committee:

1. A question concerning the major theory or theories in their area.
2. A question focusing on the empirical research available in their area.
3. A question addressing social work practice; that is, research that has been conducted in the area of practice and/or policy in their area.

It is expected that answers to each of the questions will be 10-15 pages in length, including references, resulting in a final product ranging from 30-45 pages. The paper should reflect professional publication standards both in terms of adequacy of content and communication.

The specific questions are developed by the student in conjunction with the faculty committee. After the proposal has been officially approved by the student’s faculty committee (i.e., the Social Work Preliminary Exam Proposal Approval paperwork has been completed and submitted), the written component should be independently written by the student without consultation on its specific content or editorial assistance from others. With regard to timeline, approval of the social work preliminary examination must occur no later than the beginning of the student’s fourth year in the program to be consistent with Rackham requirements for candidacy. Students will be allowed up to six weeks to complete the take-home exam after which they will meet with their faculty committee for an oral exam within two weeks. After the oral exam, students will be allowed one week to make any revisions required by the committee, if necessary. The timeline for completion of the prelim begins the day after the prelim proposal is accepted. The chairperson of the preliminary exam is responsible for ensuring that the student remains within this timeline. (Note: students can work on and complete their preliminary exam proposal during SW800: part 2 which they take winter of their third year in the program.)
IV. **The Preliminary Examination Proposal**

A. **Proposal as a gateway to the dissertation.**

The preliminary examination is viewed as the gateway to the dissertation and the subsequent attainment of the PhD degree. A successfully defended social work preliminary examination proposal will satisfy, in part, the requirement for advancement to candidacy. (Effective Fall 1997)

B. **Role of the Chairperson and Committee.**

The committee chairperson is expected to work with the student to assist him/her in the preparation of the preliminary examination proposal. Such assistance should include help in defining the subject matter for the examination, identifying relevant questions, and retrieving the relevant literature. As part of this process, the chairperson is responsible for making sure that the proposal meets the goals and guiding principles for the preliminary examination and meets the timeline. Other committee members may also work with the student in preparation of the proposal.

C. **Approval of the Proposal.**

The final version of the written proposal must be reviewed and approved at a meeting attended by all committee members and the student. Such approval is expected to be based on the substantive adequacy of the proposal and the congruence of the proposal with the goals and guiding principles for the preliminary examination. The Chairperson is responsible for completing the Preliminary Examination Checklist after the proposal is approved by the entire committee, and Chairperson and committee members sign the Preliminary Examination Approval Form indicating their willingness to serve on the committee approve of the proposal as meeting the guidelines. The student is responsible for submitting the signed Social Work Preliminary Examination Proposal Approval Form and the Social Work Preliminary Examination Checklist.

D. **Withdrawal of the Proposal.**

Prior to the submission of the written exam, students may withdraw their proposal and form a new committee on a new topic.

E. **Key Elements of the Proposal.**

The following outlines the key sections that should be included in the proposal:

1. Introduction, including the three key questions related to theory, empirical research, and social work practice (explained below)
2. Significance of the topic to social work and social science.
3. Relevance to student’s anticipated dissertation topic.
4. Independence from other written products.
5. How themes of privilege, oppression, diversity, or social justice will be addressed in the preliminary exam.
6. Outline of preliminary exam with a brief narrative overview of the literatures in each of the subsections. The following is an illustration of an outline:
   a. Theory question
      i. Description of major relevant theory or theories
      ii. Empirical research that supports or refutes theories
      iii. Critique of theories
      iv. Suggestions for enhancing theories (e.g., additional conceptual linkages; synthesis of two or more theories)
   b. Empirical research question
      i. Analysis and synthesis of empirical research
      ii. Critique of research
      iii. Identification of gaps in research and suggestions for future research
   c. Social work practice question
      i. Synthesis of research conducted on social work practice and/or policy
ii. Critique of this research

iii. Identification of gaps in research on practice and/or policy. Suggestions for addressing these gaps

7. Timeline for exam: Specification of when the exam will begin and end and when the oral exam will occur.

8. References to be reviewed for preliminary exam organized around each of the three questions (i.e., theory, empirical research, and social work practice)

F. Registration.

A student must be enrolled for at least one credit hour during the semester during which a preliminary examination proposal is submitted. Registration may be under SW 900, Candidacy Evaluation, course number or another social work or social science course number. If the proposal is being submitted in spring or summer term and the student is not enrolled then the paperwork will be dated for the beginning of fall term.

V. THE EXAMINATION COMMITTEE

The preliminary examination committee shall consist of at least three faculty persons holding regular (i.e., unmodified) appointments in the School of Social Work. For students who are joint with Sociology, there will be two Social Work faculty members and one Sociology faculty member on the preliminary examination committee. The Chairperson of the Committee must have taught in the Doctoral Program. The Director of the Doctoral Program must approve exceptions.

Members should be chosen for their substantive knowledge, research, and scholarly work in the content area(s) of the preliminary examination. The student recommends the selection of the chair and committee members to the Director of the Doctoral Program. The Director then approves the composition of the preliminary examination committee, taking into account the guiding principles and selection criteria discussed above.

VI. EVALUATION OF PERFORMANCE

A. Committee Responsibilities

After the examination is submitted and the student has defended the exam, the committee will evaluate it and agree upon a grade. The chairperson has the responsibility of providing the written evaluation of the final product of the examination, focusing particularly on the extent to which the examination in fact was consistent with the guiding principles indicated earlier.

B. Grading Scale

The grading scale is as follows: Honors, High Pass, Pass, Conditional Pass, and Fail. A grade of Honors is given only when an extraordinary high degree of proficiency is demonstrated in all parts of the examination. The lowest acceptable grade is Pass. The grade of Conditional Pass is used when the requirements are satisfactorily fulfilled, but a specific deficiency is noted. To remove the deficiency the student must satisfactorily complete the task prescribed by the examination committee (e.g., rewrite the answer to one examination question, or write a brief paper elaborating on one aspect of the topic, etc.). The student may have up to one week to complete this work. For a social work preliminary exam for which a student receives the grade of “conditional pass”, once the condition has been met, the existing range of grading should be used by the committee in order to assign a final grade.

C. Failing Grades.

If the preliminary examination is failed, the student would have an opportunity to retake the exam once in the original subject area. If the student wishes to be examined in a new area, a new committee must be formed and all the above procedures followed. Any student who fails twice will be reviewed by the Supervising Committee.
Appendix 9A:

9A. SOCIAL WORK PRELIMINARY EXAMINATION PROPOSAL APPROVAL FORM

To Doctoral Students:
Upon acceptance of your preliminary examination proposal by your committee, obtain the signatures of your chairperson and members of your Preliminary Examination Committee (see the Guidelines for composition of the committee), and submit this form with a copy of your prelim proposal to the Doctoral Program office.

You must be registered for at least 1 credit hour the semester during which the prelim proposal is accepted; registration may be for SW 900 or another social work or social science course.

To the Proposed Examination Chairperson, your signature indicates that:
A. You are willing to serve as chairperson of the committee.
B. You agree that the student’s proposal, which is attached, meets the guidelines for the social work preliminary examination.
C. You have completed the attached preliminary examination checklist.

To Proposed Examination Committee Members, your signature indicates that:
A. You are willing to serve on the committee.
B. You agree that the student’s proposal, which is attached, meets the guidelines for the social work preliminary examination.
C. You agree with the content of the attached preliminary examination checklist.

Student Name (please print): ____________________________

The Preliminary Exam Proposal was accepted by this committee on: ____________________________

26 For students entering the Doctoral Program as of the Fall 2011 term and subsequently.
27 For students joint with Sociology, one of these members must be a Sociology faculty member.
Appendix 9B:

University of Michigan
School of Social Work
Joint Interdisciplinary Doctoral Program in Social Work and Social Science

9B. Social Work Preliminary Examination Checklist

It is the responsibility of the chairperson of the preliminary examination committee to be sure that all the guiding principles for the preliminary examination have been addressed properly. After completion of the prelim proposal, the chairperson, in consultation with the committee members, completes the checklist before giving his or her approving signature.

The written product of the preliminary examination will be independent of papers and other products produced in the program.

Yes □

The topic is relevant to social work and social science and the preliminary proposal draws explicit attention to said relevance.

Yes □

The topic has a substantial base in the empirical and theoretical literature.

Yes □

The written product described in the proposal will include literature reviews that are comprehensive, i.e., including analysis, synthesis, conceptualization, integration, and identification of critical issues for future development.

Yes □

The preliminary examination will address one or more of the themes: privilege, oppression, diversity, and social justice.

Yes □

The preliminary exam will include sections that address the identification of gaps in theory, empirical research, and social work practice/policy relevant to the student’s area of interest.

Yes □

The written component of the prelim will be an examination written independently by the student without consultation on its specific content or editorial assistance from others.

Yes □

The date for the examination will be: ____________________________

_________________________  ____________________________
Signature of Prelim Chair  Date

For students entering Fall 2011 and subsequently.
Appendix 9C:

J oint Interdisciplinary Doctoral Program in Social Work and Social Science

9C. Social Work Preliminary Examination Confirmation Form

Doctoral students: Upon completion of your preliminary exam in Social Work, please have your committee chair complete the following form, obtain the signatures of your committee members, and return it to the doctoral office.

Student Name: ___________________________ Date of Examination: ________________

If revisions or a secondary examination is necessary, please describe the plan for completion:

Final Completion Date:

30 For students joint with Sociology, one of these members must be a Sociology faculty member.
Appendix 10:

10. PRACTICUM ON TEACHING SOCIAL WORK METHODS

Experience and skills in teaching social work methods is recognized as an important attribute for those seeking careers as social work educators. Such experience can be gained in several ways including practice experience in the field and teaching experience while in the Program. For those students who are interested in gaining experience and improving their skills in teaching social work methods, the Doctoral Program has instituted a Practicum on Teaching Social Work Methods. This is a special studies course (SW 971-974) which the student can take with a faculty member at the School of Social Work who teaches social work methods.

Through the Practicum the student is able to undertake various teaching projects which may involve actual co-teaching; preparation of teaching modules, lectures and other presentations; working with students on classroom projects; leading discussion groups, etc. The specific nature of the project is to be worked out between the student and the faculty member. It is expected that the faculty member will provide the student with the necessary guidance and assistance and work closely with him/her toward a successful teaching experience. It is expected that at the completion of the practicum a report and an evaluation of the student’s work by the faculty member will be submitted to the Doctoral Office to be included in the student’s file.

On a regular basis the faculty will be asked to indicate their interest in offering such a practicum, and such information will be available on file in the Doctoral Office. Students, however, may directly approach a faculty member with whom they wish to have a Practicum. Students should also consult with their faculty advisors concerning the desirability of a Practicum and the opportunities that may be available for it.

Once the student and the faculty member agree to initiate a Practicum it is essential that the nature, scope, and other details of the Practicum be worked out in detail so that there is a clear understanding between the student and faculty member about the terms of the Practicum.
11. **Doctonal Social Work Practice Internship**\(^{32}\)

1. An Advanced Practice Internship should be available to meet the special interests of doctoral students at the micro or macro levels of practice.

2. Students would be able to earn a maximum of two credits total (registration as SW 971-974). The time allocation would be .50 FTE (20 hours per week) for one term or .25 FTE (10 hours per week) for two terms in order to earn 2 credits.

3. The student’s instructor would be a member of the doctoral faculty who would collaborate in the development of the placement with the student and with an agency representative. The faculty member along with the student and a professionally trained agency staff member would constitute a committee to formulate a proposal for the internship. When the committee has agreed to a plan, that plan should be submitted in writing to the Director of the Doctoral Program who would review the proposal, accept it, or return it for revisions.

4. The plan should specify the following:
   a. The domain of the assignment and the levels of intervention.
   b. The activities and tasks to be performed by the student.
   c. How the experience would relate to the Doctoral Program’s goals.
   d. The respective roles of faculty and agency in field instruction, supervision and/or consultation.

5. Agencies should be selected which have the capacity for superior quality field instruction.

6. A report of the experience should be prepared by the student. That report should be prepared as a document or device that could be utilized in teaching to illustrate effective practice or research on practice.

7. A grade should be given by the faculty instructor following completion of the report.

---

\(^{32}\) At its April 12, 1984 meeting the Doctoral Committee approved these procedures to govern the doctoral social work practice internship.
12. PROFESSIONAL WORK EXPERIENCE

It is strongly recommended that students have a variety of professional social work experiences. Such experiences enhance students’ research and teaching and facilitate their ability to obtain jobs in schools of social work. For more detailed information, see Section III.I ‘Professional Work Experience’. The following provides additional information on licensure and CSWE requirements for social work practice experience.
Appendix 12A: JOINT INTERDISCIPLINARY DOCTORAL PROGRAM IN SOCIAL WORK AND SOCIAL SCIENCE

12A. EXPERIENCE RELEVANT TO LICENSURE

This grid is intended as a guide to assist people in understanding the differences in the levels of regulation and to show who would typically be responsible for various activities and functions. This grid is not an authoritative restatement of the law or regulations governing the practice of social work in the State of Michigan. The law governing social work practice is found in the Public Health Code, especially MCL 333.18501 et seq. The rules governing social work practice are found in the Administrative Rules of the Michigan Board of Social Work, R 338.2901 et seq. (Adapted from http://www.michigan.gov/lara/0,4601,7-154-35299_28150_27529_27554---,00.html.)

12B. CSWE REQUIREMENTS FOR SOCIAL WORK PRACTICE EXPERIENCE

EDUCATIONAL POLICY AND ACCREDITATION STANDARDS (2008)

Educational Policy 3.3—Faculty

Faculty qualifications, including experience related to the program’s competencies, and an appropriate student-faculty ratio are essential for developing an educational environment that promotes, emulates, and teaches students the knowledge, values, and skills expected of professional social workers. Through their teaching, scholarship, and service—as well as their interactions with one another, administration, students, and community—the program’s faculty models the behavior and values expected of professional social workers.

Accreditation Standard 3.3—Faculty

3.3.1 The program identifies each full and part-time social work faculty member and discusses her/his qualifications, competence, expertise in social work education and practice, and years of service to the program. Faculty who teach social work practice courses have a master’s degree in social work from a CSWE-accredited program and at least two years of social work practice experience.

WHAT IS SOCIAL WORK PRACTICE EXPERIENCE?

Social workers promote social justice and social change with and on behalf of clients. “Clients” is used inclusively to refer to individuals, families, groups, organizations, and communities. Social workers are sensitive to cultural and ethnic diversity and strive to end discrimination, oppression, poverty, and other forms of social injustice. These activities may be in the form of direct practice, community organizing, supervision, consultation administration, advocacy, social and political action, policy development and implementation, education, and research and evaluation. Social workers seek to enhance the capacity of people to address their own needs. Social workers also seek to promote the responsiveness of organizations, communities, and other social institutions to individuals’ needs and social problems.

COMMENTS:

- The policy does not require that the practice be full time or paid.
- Two years of practice experience is approximately 4000 hours of practice experience
- Work must be post MSW
- Schools and programs will interpret this requirement in different ways.

http://www.cswe.org/File.aspx?id=13780
From the NASW Code of Ethics http://www.socialworkers.org/pubs/code/code.asp
Appendix 12C:

Obtaining a Michigan Social Work License

**Step 1:** Obtain a social work degree from an accredited institution (BSW or MSW)

**Step 2:** Research and understand the requirements and process of social work licensure in Michigan (www.nasw-michigan.org)

**Step 3:** Apply for your Limited License – Through Licensing and Regulatory Affairs (LARA) (www.michigan.gov/lara)

- Submit correct paperwork ($40)
- Get fingerprints taken ($60)
- Have school submit transcripts with correct form

**Step 4:** To be completed during 7 years during limited license period

- Obtain supervision by LMSW (100 Hours)
- Complete the required experience (4000 Hours)
- Pass the licensure exam ($230-$260) (www.aswb.org)
  - Licensure preparation courses offered by MSU and WSU
  - Practice tests available through ASWB ($75) and UM SSW

**Step 5:** Apply for your full license –

  - LBSW or LMSW (Clinical or Macro) ($40)

**Step 6:** (Optional – Obtain second license)

- Have both a clinical and macro LMSW ($40)

Appendix 13:

UNIVERSITY OF MICHIGAN
SCHOOL OF SOCIAL WORK
JOINT INTERDISCIPLINARY DOCTORAL PROGRAM IN SOCIAL WORK AND SOCIAL SCIENCE

13. INFORMATION ON ETHICAL STANDARDS RELATED TO JOINT AUTHORSHIP

8.12 Publication Credit

a. Psychologists take responsibility and credit, including authorship credit, only for work they have actually performed or to which they have substantially contributed. (See also Standard 8.12b, Publication Credit.)

b. Principal authorship and other publication credits accurately reflect the relative scientific or professional contributions of the individuals involved, regardless of their relative status. Mere possession of an institutional position, such as department chair, does not justify authorship credit. Minor contributions to the research or to the writing for publications are acknowledged appropriately, such as in footnotes or in an introductory statement.

c. Except under exceptional circumstances, a student is listed as principal author on any multiple-authored article that is substantially based on the student's doctoral dissertation. Faculty advisors discuss publication credit with students as early as feasible and throughout the research and publication process as appropriate. (See also Standard 8.12b, Publication Credit.)

B. AMERICAN SOCIOLOGICAL ASSOCIATION CODE OF ETHICS, APPROVED BY ASA MEMBERSHIP IN SPRING OF 1997

a. 8.15 Authorship Credit Sociologists take responsibility and credit, including authorship credit, only for work they have actually performed or to which they have contributed.

b. Sociologists ensure that principal authorship and other publication credits are based on the relative scientific or professional contributions of the individuals involved, regardless of their status. In claiming or determining the ordering of authorship, sociologists seek to reflect accurately the contributions of main participants in the research and writing process.

c. A student is usually listed as principal author on any multiple authored publications that substantially derives from the student's dissertation or thesis.

Appendix 15:

15. PERSONAL DEBIT ACCOUNT, TRAVEL GRANT, OR DISSERTATION EXPENSES APPLICATION
PROVISIONS AND REGULATIONS

Purpose: To provide aid and opportunities for doctoral students in social work and social science to participate in the life of their academic professions and/or complete their dissertation research.

Form of Support: Each student has a fixed amount in his/her personal spending account. No more than $400 per year may be used without special permission from the Director.

Eligibility: Funds are only for joint doctoral students in social work and social science who are in good standing and are judged to be making good progress in their program.

Use: Travel and/or dissertation and research expenses

Procedure: To receive your funds, the student must complete the application (on reverse) and attach a copy of the conference program (or letter of invitation) with the applicant’s name clearly stated verifying participation in the conference or an itemized budget of your anticipated dissertation or research expenses. Signatures of the social work faculty advisor (travel) or dissertation chair (dissertation & research expenses) will only be required for a request of more than $400.

*Travel applications need a statement saying how attending/presenting will be of benefit to you, the SSW and the UM.

Deadline: For travel awards, no later than one week prior to the date of the conference. For dissertation expenses, please submit the application to the doctoral office a month earlier than you wish to have the money.

Expense reports must be submitted within 45 calendar days from the end of the trip or the hosted event, or within 45 calendar days from the transaction date for purchase of supplies or other out-of-pocket expenses. Expenses submitted in excess of 45 calendar days will not be reimbursed.

No funding will be given retroactively.

Notification: In cases requiring the signature of the Director, students will be notified via email should there be a change in funding level. Funds will be distributed either via direct deposit or mailed to your local address if no direct deposit is on file.

Within two weeks of returning from a conference, the student must submit to the Doctoral Office original receipts or emails equal to, or exceeding the award amount.

Appendix 16:

16. GUIDELINES FOR JOINT DOCTORAL PROGRAM EMERGENCY ASSISTANCE

I. Joint Doctoral Program Emergency Funds

1. **Purpose:** The Emergency Fund is a grant intended to help Joint Doctoral students deal with one-time, emergency expenses that are: (1) unanticipated expenses in emergency situations, (2) beyond the student’s control, and (3) not covered by other funding programs. The funds are not designed to cover anticipated research expenses or ordinary costs of living. Each application will be considered on an individual basis according to each student’s circumstances.

2. **Conditions and Award Amounts:** Requests must relate directly to emergent situations that, unless addressed immediately, threaten to impede progress toward the student’s graduate degree. Students are limited to two emergency awards during their program, once as a pre-candidate and once as a candidate, and must be in good standing at the time of the request. Normally awards will not exceed $300.00.

II. Doctoral Scholarship for Underrepresented Students

1. **Purpose:** This fund provides support to doctoral students who meet one or more of the following criteria and who demonstrate unmet financial need due to a life crisis or some other foreseeable circumstance.

2. **Award Amounts:** $1,000

3. **Criteria:**
   - come from an educational, cultural or geographic background that is underrepresented in graduate study in their discipline in the United States or at the University of Michigan;
   - have demonstrated commitment to diversity in the academic, professional, or civic realm through their work experience, volunteer engagement, or leadership of student or community organizations. By diversity, we mean efforts to reduce social, educational or economic disparities based on race, ethnicity or gender, or to improve race relations in the U.S.;
   - have experienced financial hardship as a result of family economic circumstances;
   - are first-generation U.S. citizens or are the first generation in their families to graduate from a four-year college.

III. Application for both funds: Requests must be submitted to the Director of the Joint Doctoral Program using an application form that appears on the next page. It requires:

- A statement specifying the exact amount of the request and a description of the purpose of the request, when and on what the funds will be expended, and to what other funding sources (e.g., Rackham Discretionary Fund) you are also applying.
- Applicants should be aware that a letter of support may be requested from their dissertation chair or faculty advisor commenting on academic performance and how the requested funds are important to progress to the degree. In this eventuality, the applicant will be required to provide a copy of the request to the chair/advisor.
- Applicants should be aware that in all cases transcripts will be reviewed before the granting of an award. Applications
will be reviewed by the Director of the Joint Doctoral Program and the Dean of the School of Social Work. When a decision has been made, you will receive written notification of the Director's decision. If an award is made, procedures for payment will be outlined in the award letter. Funds will be paid out as soon as possible after receipt of request and its approval by the Director. *Note: funding is limited and may expire without notice.*

Appendix 17:

17. GUIDELINES FOR THE SOCIAL WORK-SOCIAL SCIENCE RESEARCH PARTNERSHIP PROGRAM

I. Purpose
This program aims to enhance the quality of a student’s education in the Joint Doctoral Program by promoting partnership arrangements between students and faculty in allied social sciences either in working on existing research projects or in developing and implementing new ones. The program is designed to evenly share the provision of funds for graduate student support, as well as to facilitate doctoral education and progress toward the doctoral degree. The program funds a limited number of doctoral students with research partnership funds annually for a maximum of one term (4 months).

II. Eligibility
Students must be an active student in the Doctoral Program in Social Work and Social Science at the time the application is submitted. Faculty partners are encouraged to arrange for appropriate matching funds prior to submitting an application. Recipients are not permitted to hold additional GSA appointments if the student’s total appointments would then exceed 50% ($8,600) per term.

III. Form of Support
The Rackham funds allocated to the Joint Doctoral Program in Social Work and Social Science cover half of the award to each student. The other half can be obtained from a social science department’s funds, funds available to the social science faculty partner, or funds from additional sources. It is the responsibility of the faculty partner, however, to secure the matching funding for the student partner. The award will be administered by the Social Work Doctoral Office and the corresponding Social Science Doctoral Office, or if the Social Science prefers, the Social Work Doctoral Office can be transferred all funds and be sole administrator.

IV. Review Process
The proposals will be evaluated in terms of the student’s role in the project, the scholarly nature of the project, and the ways in which the partnership fosters the student’s integration into the social science department.

V. Application Materials
The students who wish to apply must 1) complete the application form, 2) in collaboration with the faculty partner with whom they will form a research partnership, should develop a short (approximately 2 pages) proposal indicating the topic of the project; describing the background and nature of the partnership; defining the student’s and the faculty partner’s activities; and explaining the ways in which this partnership will foster the student’s integration into the social science department, 3) attach a CV for both faculty partner and the student partner, and 4) the most recent student transcript.
Appendix 17A:

17A. APPLICATION COVER SHEET FOR THE SUMMER SOCIAL WORK-SOCIAL SCIENCE RESEARCH PARTNERSHIP PROGRAM

Application Procedures: A complete application for the Social Work-Social Science Research Partnership Program should contain:
1. A completed application form.
2. A proposal (not to exceed two pages) of the project to be undertaken (see guidelines).
3. A curriculum vitae for the faculty partner and the student partner.
4. The most recent transcript for the student partner. (An unofficial copy is acceptable).

18. Guidelines for the Social Work-Social Science Summer Research Partnership Program
2014-2015

I. Purpose
This program aims to enhance the quality of a student’s education in the Joint Doctoral Program by promoting partnership arrangements between students and social work faculty on existing research projects or in developing and implementing new ones. The program is designed to evenly share the provision of funds for graduate student support, as well as to facilitate doctoral education and progress toward the doctoral degree. The program funds a limited number of doctoral students with research partnership funds annually for a maximum of one term (4 months).

II. Eligibility
Students must be in good standing in the Joint Interdisciplinary Doctoral Program in Social Work and Social Science at the time the application is submitted. Faculty partners are encouraged to arrange for appropriate matching funds prior to submitting an application.

III. Form of Support
The full award for the Spring/Summer term is $8,000/month. The Joint Doctoral Program in Social Work and Social Science covers half of the award to each student (up to $4,000/month). It is the responsibility of the faculty partner to secure the matching funding (up to $4,000/month) for the student partner. The awards will be administered by the Social Work Joint Doctoral Office.

IV. Review Process
The director of the Joint Interdisciplinary Doctoral Program in Social Work and Social Science will review the applications. The proposals will be evaluated in terms of the student’s role in the project, the scholarly nature of the project, and the ways in which the partnership fosters the student’s integration into research.

V. Application Materials
The students who wish to apply must provide 1) a completed application form; 2) a short (no more than 2 pages) proposal indicating the topic of the project, describing the background and nature of the partnership, defining the student’s and the faculty partner’s activities, and explaining the ways in which this partnership will foster the student’s academic progress; 3) CV for both faculty partner and the student partner; and 4) the most recent student’s unofficial transcript.

20. CONTINUOUS ENROLLMENT POLICY AND CONTINUOUS ENROLLMENT TUITION-ONLY FELLOWSHIPS

Adopted: June 25, 2010

Note: These guidelines provide a framework for the department’s implementation of Rackham’s Continuous Enrollment policy.

Beginning with the Fall 2010 semester, Rackham has instituted a continuous enrollment policy for all PhD candidates. Under this policy, PhD students are required to register for every fall and winter semester unless approved for a Leave of Absence or Extramural Study status. Rackham’s goal for the continuous enrollment policy is to foster stronger connections between graduate programs and their students and to guarantee access to University resources for graduate students throughout their program of study; research shows that such policies increase the likelihood that students will complete their degree.

Rackham Policy and Resources related to Continuous Enrollment

<table>
<thead>
<tr>
<th>Leave of Absence information</th>
<th><a href="http://www.rackham.umich.edu/current_students/doctoral_students/phd_students/understanding_registration/leave_of_absence/">http://www.rackham.umich.edu/current_students/doctoral_students/phd_students/understanding_registration/leave_of_absence/</a></th>

</tr>
</tbody>
</table>

Under Continuous Enrollment, it will no longer be possible to apply for “detached study”. Students needing to take a break from the program because of medical reasons, family necessity/dependent care, military service or other personal reasons should consider taking a Leave of Absence.

Rackham has allocated the School of Social Work tuition-only fellowships based on our projected need. Candidates whose tuition is not funded by other means in a semester (e.g. GSI, GSRA, Doctoral Fellowship) will be eligible to apply for a tuition-only fellowship. Fellowships will be awarded by the Joint Doctoral Program to applicants making satisfactory academic progress as described below.

Rules regarding Continuous Enrollment Tuition-only Fellowships

- Tuition Fellowships may only be used by students in good standing who have attained candidacy. Students must have attained candidacy by the beginning of the semester of the tuition-only voucher.
- Tuition Fellowships will cover 8 credits of SW 995 registration, plus one additional course. Any tuition charges for additional courses not covered by the fellowship are the responsibility of the student.
- Tuition Fellowships cannot be used during semesters when candidates hold a GSI/GSRA appointment.
- Candidates may not use a Tuition Fellowship in the term they defend their dissertation. Funding possibilities for this final term include applying for a GSI position, applying for a Rackham One-term Dissertation Award or other sources of internal or external funding.
• Students on approved leaves of absence or on extramural study are not eligible for Tuition Fellowships.
• Tuition Fellowships will not be available to students who appear to be delaying the completion of their degree for personal or professional reasons.
• Graduate students who receive Continuous Enrollment Tuition-Only Fellowship during Fall, Winter or for both terms will receive healthcare benefits (gradcare). The healthcare benefits is provided for the term(s) of the fellowship.

Steps to attaining a Tuition Fellowship

• The completion of an Annual Progress Report. This will be the basis for the Supervising Committee’s determination that a student is making satisfactory progress.
• Completion of Tuition Fellowship Request Form to the Joint Doctoral Program. This form includes a degree progress timeline that has been set by the student and endorsed by their dissertation chair or advisor. The student must remain on that schedule to be eligible for Tuition Fellowships in subsequent semesters. Should the timeline need to be adjusted, a detailed explanation and a revised timeline must be submitted by the student and endorsed by their dissertation chair or advisor.

We are available to answer any questions or concerns you may have regarding Continuous Enrollment. Please direct your inquiries to Berit Ingersoll-Dayton (bid@umich.edu) or Todd Huynh (thuynh@umich.edu).
