Postdoctoral Fellow

A full-time NSF funded postdoctoral fellow position is immediately available in the School of Social Welfare at the University at Albany, State University of New York for one year. The position is part of the cross-disciplinary mixed methods research project called Smart and Connected Communities, which focuses on service navigation processes and use of technology in the human service sector. For more information, please see the project link.

Job Duties: Job duties will vary depending on the needs of the project. Tasks will include, but are not limited to, 1) managing and analyzing data that have been collected in various forms, 2) compiling and summarizing relevant literature and prior research findings, 3) preparing drafts of presentations and manuscripts, and 4) presenting the findings in peer-reviewed manuscripts and at conferences. Opportunities to interact with the community partners and stakeholders during the demonstration of our technology-based solution are also available. The successful candidate must possess good interpersonal skills, analytical skills, communication skills, and work well as part of a collaborative team of social scientists and computer scientists.

Eligibility Requirements:

To be eligible, applicants must have

• PhD received within the past three years in Social Work, Human Development, Urban Studies, or related field from a college or university accredited by a USDOE, or an internationally recognized accrediting organization.
• Applicants must address in their application their ability to work with a culturally diverse population.

Preferred Qualifications

• Experience and interest in service coordination and navigation at an individual, organizational, or a community level and the role of technology
• Experience with a range of qualitative and quantitative methods, tools and data sources is important
• A track record of scholarship, including peer-reviewed publications or conference presentations in the related topic, is a plus

Compensation: The current position is for 12 months. Salary is competitive with full benefits.

To Apply: Application review will begin immediately and will continue until the position is filled. September 1, 2019 is the preferred start date. Persons interested in the above position should submit a CV/resume, three work-related references, along with a letter of application. To apply, go to APPLICATION LINK. Questions regarding the position or the application process may be directed to Dr. Wonhyung Lee, whlee@albany.edu.
