OMHSP is pleased to announce we have posted an opening for a dynamic **Program Evaluator** on our Northeast Program Evaluation Center (NEPEC) team. The NEPEC mission is to facilitate the improvement of Veterans’ health through systematic and rigorous monitoring and evaluation of healthcare services provided for Veterans with mental health concerns. NEPEC, as part of the data-driven evaluation arm of OMHSP, plays a crucial national role in determining whether VA facilities and geographic regions are delivering adequate mental health services to Veterans at maximum quality and efficiency. In order to meet these responsibilities, NEPEC extracts, collects, analyzes and reports on data regarding mental health services, the facilities and programs providing those services, and the outcomes of those services for Veterans with mental illness. These data and reports are utilized by senior leadership in VACO and are also regularly provided to other Federal agencies, Congress, and the White House. NEPEC also provides oversight and management of the national implementation and dissemination of new mental health services. The incumbent for this Program Analyst position has a career that aligns with NEPEC’s mission to use rigorous analytic methodology to improve the quality of mental health care for Veterans.

This position is **virtual**. The announcement closes on **November 9, 2020**. OMHSP is committed to developing and preserving a culture of diversity, inclusion and acceptance and we encourage all qualified candidates to apply.
