SUMMER 2023 DIRECTOR'S CORNER

Letter from our Director

Greetings Curtis Center Friends,

As I return to campus after a year-long sabbatical, the phrase "being buried under emails" has a whole new meaning!

If you know anything about me, you will not be surprised to hear that I did not necessarily "slow down" while on my sabbatical. I did, however, enjoy having some free time to read, write, travel, and spend quality time with my family. I also had an opportunity to build new healthy habits, self-reflect, and watch TV (which is HUGE for me).

Though I have already thanked her several times since my June 1st return, I want to publicly acknowledge Dr. Jackie Hawkins, who served as Curtis Center Acting Director while I was away. Dr. Hawkins stepped up last September and directed the Curtis Center in my absence. Now that summer is finally here, I hope she can get some (much-deserved) rest before we kick things into high gear this fall. Please join me in thanking Dr. Hawkins for her leadership and management of the Curtis Center this past academic year.

I also want to thank the Curtis Center team for respecting and honoring my time away. Thanks to the rest and recovery I was able to experience over the past few months, I am ready to jump back into the swing of things and re-ignite our health equity work in the coming months.

I look forward to seeing many of you in the coming weeks either via Zoom or, my personal preference, over brunch!

Sincerely,

Daphne

Dr. Daphne C. Watkins
Curtis Center Director, Professor of Social Work,
Diversity and Social Transformation Professor, National Center for
Institutional Diversity

The Curtis Center team would also like to give a special
thank you to our Associate Director, Dr. **Jaclynn
Hawkins**, for serving as Acting Director while Dr.
Watkins was on sabbatical! Thank you, Dr. **Hawkins**!

COMMUNITY IMPACT

Dr. **Watkins'** YBMen team has been involved in an 18 month Michigan Health Endowment Fund (MHEF) project in partnership with Packard Health. We formed the "Washtenaw County Coalition to Improve Behavioral Health for Young Black Men". The Coalition included representatives from 10 local organizations, in addition to the Curtis Center. The project was led by **Keith Miller**, **Kiyoshi Shelton**, and **Jamie Abelson**. Each of the 10 local organizations received "catalyst funds" to initiate, or add to, a project to support the behavioral health of young Black men. One organization, the Corner Health Center, used their catalyst funds to launch a project to support young Black fathers. They then applied for and received a \$200,000 grant to continue their work. The MHEF funding has

ended, but the Coalition aims to continue meeting, to support each other and apply for additional funding to keep the work moving forward.
